A POOR REPORT. Montreal, Feb. 16.-The decline in Carriage Factories shares is explained in the 1916 statement list issued. In 1915 the companies made profit of \$295,703, but during 1916 these profits were reduced to \$34,-789. There is even a reduction in the interests and rent charges to the subsidiaries from \$13,560 in 1915 to \$11,545 last year. This left total profits for the year of only \$46,334. against \$309,263 in 1915. After deducting head office expenses, etc., the profits were reduced to \$33,545, a decrease of \$266,776, and after bond interest the profits available for dividends were only \$4144, as against \$297,230 in 1915.

# A UNIQUE BET.

An offering of a \$500 bet was made yesterday on the Standard Stock Ex-change that there would be no strike this week in Porcupine, but there wer no takers.

# STRENGTH IS SHOWN IN STOCKS ON CURB \$12.25.

Special to The Toronto World. New York, Feb. 16.—A firm to strong tone was shown in nearly all the import-ant issues on Broad street curb during the ant issues on Broad street curb during the day, with stocks in increased demand. American Sumatra Tobacco was the strongest feature, advancing from 23½ to 26½. The independent off stocks were generally strong, with Merritt Oil in good demand at 18¾ to 19, and Sapulka was traded in at 9 to 9½.

United Verde was again the strong feature of the mining group, advancing from Tractor Company of Canada. ure of the mining group, advancing from 38% to 39%. Magma rose from 50 to 50%.

# LIGHTER LIVE STOCK RECEIPTS

One Thousand Less Cattle Than Corresponding Week Last Year.

# SMALL MEATS STEADY

Butchers' Cattle Were Slow. Twenty to Forty Cents Lower.

Trade in live stock at the Union Stock Yards this week was very unsatisfactory, especially to drovers and shippers. The market was slow, draggy, and 25c to 50c lower on common to medium butcher cattle, while choice butchers barely held their own. One reason for the above condition is that the big packing establishments are unable to ship their dressed meats on account of the railway tie-up another reason is that the great bulk of butcher cattle arriving on the market are simply counterfeits, and have been selling for at least \$2 per cwt. more than they are worth. They should be fed for two or three months before they are brought to market; if not, prices on this class must go still lower.

Trade in cows and bulls was fairly steady at prices practically the same as the previous week. Milkers and springers were a steady trade, especially good cows,

the previous week. Milkers and springers were a steady trade, especially good cows, which sold at from \$90 to \$110, while quite a number of real choice cows sold at from \$114 to \$123 each.

Stockers and feeders were fairly active at prices without change. Feeders, 800 to 900 lbs., sold at \$8.50 to \$8.75; a few extra choice sold at \$9. Stockers, 700 to 800 lbs., sold at \$7.50 to \$8; choice yearlings, 650 to 750 lbs., at \$8 to \$8.75; common to medium steers and heifers, 550 to 650 lbs., at \$5.50 to \$6.25.

The calf market was steady to stronger, The calf market was steady to stronger with choice veal selling at 13c to 15c lb., and a few extra choice at 15½c lb. There was no change in the price of sheep and lambs, both selling at steady

# DISCREPANCY IN PRICES.

Commercial Editor, World, Toonto: Dear sir, Perhaps you have observed in the last few days that the price of oats in Montreal is about 3 cents a bushel higher than the price of oats in Ontario, and yet the freight rate, all rail, from Fort William is exactly the same to Montreal as to points in Ontario, except in some cases on points of the Pere Marquette, Michigan Central, Ottawa and New York Railway, where the rates are higher than to Montreal.

For verification of the fact that the express purpose of proving forthe prices in Montreal are 3 cents higher than any Ontario official quotations, we refer you to your paper. It appears to us that the result of such a situation has not dawned on

the grain dealers in Ontario, altho brokers and shippers from Fort William have readily grasped the fact, which was developed on the property liam have readily grasped the fact, which was developed on the property Previous to this difference in price adjoining on the south for a consider Ontario was very short of all kinds of feeding grains, including oats, but feet south of the Apex boundary was the situation is a hundred times worse today. It is against all reason to expect that Winnipeg shippers or To-ronto brokers will sell oats to On-to expect the piercing of others at tario points when they can realize 3 depth, which will likely prove up a cents a bushel more in Montreal and vein system of substance. Sinking of east, and the only result to be an-icipated is an oat famine in Ontario in the near future, unless the mer-chants thruout the province realize 1495 that if they want any chance of get-It is useless for the Ontario mer-

chant to look at the price at which oats are selling in store Fort William. Oats bought in store today For William, and ordered out immediately would not likely be shipped out before the opening of navigation, which would not reach here until somewhere the end of May. But, granted that oats can be shipped out of Fort William or Winnipeg now, the chances are that only one car in ten would reach the final destination in Ontario before six weeks. There are hundreds of cars that have west than Winnipeg on the 1st of December which have not reached Cochrane or North Bay, and cars shipped further west than Winnipeg, usually from Saskatoon, Regina, or Calgary, have little chance of reaching Ontario points for several months yet. At last everyone seems to realize the coal famine, but while coal merpigs, \$11 to \$11.50; roughs, \$12 to \$12.10; stags, \$9.50 to \$10.50. Sheep and lambs—Receipts, 3000; lambs, slow; sheep, steady; lambs, \$12 to \$15.50; yearlings, \$11 to \$14.50; wethers, \$12 to [2.50; ewes, \$6 to \$12; mixed, \$12 to and the situation will undoubtedly be and the situation will undoubtedly be the same in oats unless some steps are taken by the merchants to place their orders immediately and at the silver metal. This is especially true same prices as their competitors in of the Tonopah issue, nearly all of Montreal are willing to pay. "Grain Merchants."

# CLOSING TONE FIRM

Bears Find Stocks Hard to Buy Back After Drives.

Special to The Toronto World.

Special to The Toronto World.

New York, Feb. 16—At intervals to-day trading in the stock market reflected the results of the over-extended short account, the important movement being due to efforts to buy back stocks sold early in the day and the demonstration of the derletion of the supply caused pronounced uneasiness in that group of traders which is persistently committed to the short side. Prior to this movement the market had apparently been left in the control of bear pressure, which selected group after group of stocks as targets for violent attacks, and one of these movements was successful in forcing New Haven down to the new low record of \$634. Other railroad stocks were offered at sharp concessions at frequent intervals and during the afternoon a number of specialities, including General Motors, were vicorously hammered and sustained losses ranging from 1 to 3 points later in the day. Circulation of report about pending Washington developments caused hurried buying by some of the room traders, and prices quickly moved up from one to five points with U. S. Steel common. Marine preferred and New Haven attracted attention because of scant offerings.

In the afternoon the market showed increased strength because of various reports from Washington, which were construed as bullish arguments. These reports started urgent covering in many issues and carried some stocks up to the highest point reached in some weeks. Trading quiated down in the last near with the cossation of the efforts to cover shorts and in the late trading recessions occurred on which a good part of the preceding gains was lost. U. S. Steel common held close to its high point of the day of 105%. The colpur stocks were generally well maintained. The final tope was firm.

stocks were generally well. The final tone was firm.

## RICH VEIN STRUCK AT DAVIDSON

Find Reputed to Be One of the Camp's Best.

Word was received from Porcupine resterday to the effect that in crosscutting to the foot wall of the vein on the 100-foot level of the Davidson 6 to 7 inches of remarkably high grade ore was cut. The latest reports in-dicate that free gold was showing in abundance, and that the values would

run several thousand dollars to the ton, the ore being exceedingly rich. Sampling is now under way and complete assay returns will be available within the next few days. In the meantime the discovery appears to be the richest ever made on the property, and one of, if not the, richest in the

The work of proving up the ore body on the 100-foot level of the property has been proceeding rapidly of late, and it is already assured high grade milling ore is available over a considerable width, the indications being that the vein is one of the widest in the camp. Viewed in conjunction with the remarkably rich strike that is now reported, the development on this level is bringing very spectacular results.

# DRILLING CONTINUED AT APEX PROPERTY

Hamilton B. Wills in his weekly letter says: Diamond drilling on Apex continues

to make good progress and already total depth of 1250 feet. That Manager Trethewey is entirely satisfied with the express purpose of proving formation and not in search of veins. The No. 2 drill hole has been started about 400 feet west of the No. 1, and in about the centre of the 80 acres close to the south boundary, in the exdipping at an angle of 75 degrees to the north. The tapping of this vein will be important, and there is every reason the main shaft, now down below 110 feet, continues to make good progress, and with what is more than likely to occur in the present work, my candid advance to all is: Under no circumstances overlook

## Apex. NO FEAR OF STRIKE IN MINING CAMPS

The following despatch from their northern office was received by Keely, Smith and Amos yesterday: "There are a lot of rumors here about a strike of the miners, but if any action is taken it will not be for at least two months yet. The labor sit-uation is very acute, and the general opinion in the camp is that any reasonable demand by the miners will be met and the differences, if any, settled to the satisfaction of all concerned. "The break in the price of Hollinger stock this morning is no doubt due to the present situation, but we understand that the company's dividend will be earned, and no matter what happens it is not likely the present rate of
