GUNS OF KRONSTADT RENEW THE FIRING:

In Intensity the Bombardment Surpasses All the Previous Efforts.

ONE CITY IN FLAMES

Stockholm, March 11.-The fight for Petrograd has again flamed up, Kronstadt's bombardment, which recommenced last night, continuing thruout the day. In intensity the firing surpassed all previous efforts.
At Terioka, on the Russo-Finnish border, and other Finnish places, the ground was shaken and windows

were broken. The Dagens Nyheter reports that Kronstadt last night, by means of electric Morse signals, demanded the immediate surrender of Krasnoya Gorka, on pain of complete annihila-During the day Krasnoya Gorka made only feeble reply to the heavy fire from the battleships Se-

bastopol and Petropavlovsk. Telegrams received by The Nya Dagligt Allehanda say that Orienbaum, on the southern shore of the Gulf of Finland, is partly in ruins and that fires are raging there. The artillery fire against the town Thursday night was very fierce. sion of the situation by the Petrograd newspapers proves that M. Brant Indians Are Seeking Asylum in New York State

Syracuse, N.Y., March 11 -More than 8,000 Iroquois of the Six Nations, residents of the Brant reservation in western Ontario, determined to resist compulsory citizenship in Canada, have asked Dr. Erl A. Bates, of this city, an adopted chief, to appeal to President Harding for

asylum in Indian reservations in New York State. A great council meeting of the chiefs of the Six Nations will be held this week at the Onondaga reservation to outline a plan of action. The Indians, it is claimed, have been ordered to take out citizenship papers in the Dominion within thirty days. The situation may bring to a head the long continued negotiations between the Indians, the state and federal governments, as to the future of the tribes in the United States.

Revelations as to Extent of Burden Imposed Rouse Anxiety.

TO CUT LOSSES

Forecast of Elimination of Duplications in Roads and Management.

(Special despatch on first page Montreal Star, March 10):

Press Gallery, House of Commons, Ottawa, March 10.—(From Our Own Correspondent.)—Differing from its usual course, parliament this year is taking the railway situation seriously. When the railway estimates come before the house in the course of a few weeks the whole situation will be aired from a constructive as well as a critical viewpoint considering the conditions which have to be faced.

If the government-owned railways are to go on from year to year eating great holes into the revenues for the purpose of meeting maturing obligations and cumulating deficits, it follows that other branches of the public service must suffer, particularly in a pernod of falling revenues.

While anxious to have the view of parliament on the subject the govern-

ment itself plans a number of reforms in the management. The Grand Trunk will be taken over formally as soon as the award is made in the arbitiation and this will be followed by the reorganization of the boar dof directors. When the present board was appointed, it was well understood that following the inclusion of the Grand Trunk the personnel would be revised. Just to what extent, if any, the management may be altered is problematical.

To Eliminate Duplications.

The intention when this is done is to cut out all needless duplications in services both of trains and terminals, and generally co-ordinate the traffic.

The anonymous suggestion of one western member that all thru passenger business in the west be handed over to the Canadian Pacific, allowing the Canadian National to devote itself more exclusively to the freight and local passenger business, appears to enlist little support, but it is feit that at least there may be a curtailment in the expensive, solid-vestibuled trains running across the continent.

When the subject comes before the house the agrarian party, following the lead of Mr. Cerar, will demand a complete revaluation of the lines as a going concern and the wiping out of capitalization over and above the actual value. To Eliminate Duplications.

Some Would Lift Tracks. Some of them would go so far as to tear up unprofitable lines, but this view meets little sympathy. It is felt, nevertheless, that no new lines should

nevertheless, that no new lines should be constructed.

The minister of railways' remarks the other night are construed plainly as a hint to labor to voluntarily submit to reductions if the progress of the country as well as the roads is not to be retarded. It is argued on the other side, however, that the unions are international and that so long as the McAdoo award applies generally, the four per cent. of Canadian National employes in these unions cannot be expected to forego what the others be expected to forego what the others are getting.

The situation as it is now disclosed promise to divide interest with the budget in the deliberations of the ses-
