

SEND SUPPLIES THRU OFFICIALS

Valuable Information for Those Sending Parcels to the Soldiers.

MISTAKES ARE MADE

Some Goods Do Not Reach Proper Destination Thru Wrong Address.

In connection with comforts and supplies that are sent to the soldiers overseas by private parties in Canada, the following information from Col. Hodgetts, Canadian commissioner of the Red Cross in London, is of interest. Col. Hodgetts says: "It must be stated for the information of the senders in Canada that this office assumes no responsibility for their safe delivery to the parties for whom they are intended. Our responsibilities cease with the delivery of the goods into the hands of the railway authorities. Further, our Canadian friends must understand that all railways are in the hands of the war office and the delivery of goods often is delayed, and the railway authorities themselves will not guarantee the delivery of goods. "In every case," continues Col. Hodgetts, "we notify by letter the party to whom goods are shipped, and we have had instances of goods being shipped to Salisbury, and upon hearing they have not been received, have found that they have been delivered by the railway to Amersbury or some other station."

The Canadian Red Cross Society desires to point out that those who send comforts for the troops or supplies for the wounded and sick should do so thru the society, which will see that they reach their destination. It is not advisable for anyone to send supplies to individual soldiers, but they should be sent to the different provincial branches or to the head office at 77 West King street, Toronto.

Time!

Time is the most valuable thing in the world. Therefore we should make every minute of it count.

No one can afford to waste a minute—no one can afford to "kill time."

In six more days our February Furniture Sale will have become history. It has been running since the first of the month. Every day has been a saving opportunity. Thousands have seized these opportunities. Others have doubtless been putting off buying—waiting.

And for what?

Usually no reason for delay save one—expenditure—and this we make so easy, whether one buy a chair or a whole household of furniture, that anyone with a weekly wage can buy without inconvenience or embarrassment.
