**Case of Hydrocephalus—Operation.—On Thursday the lath current, Mr. Robert Har, surgeon of this city, assisted by Dr. Jackson, and Messrs. Muir, Christie, and Boag, surgeons, performed the operation of piercing the membranes of the brain of a child of eight months of age, for hydrocephalus, or water in the head. No less than five imperial gills, or twenty-five fluid ounces of water were extracted. It is said that this is the first attemptin this city (although the operation habeen several times successfully performed in London)to combat this formidable and almost universally fatal disease by surgical trentment; and we are happy to add that the child, a girl, is doing well.—Glasgow Cour.
