

nection with this project, prevented the Managers from proceeding with these repairs. Several Congregational meetings have been held during the year to take into consideration the propriety of providing increased and improved accommodation for Sabbath School and Prayer-Meeting purposes; and the matter has been placed in the hands of a Committee. The Trustees of the property on Sherbourne Street have been authorized to dispose of that property.

The membership remains the same as in the previous year, viz: 451,—sixty-three having been added by profession and certificate, and sixty-three having been removed. The Managers trust that whatever decision may be arrived at by the Congregation with regard to any of the projects under consideration, that as in the past it has been their privilege to bear testimony to the harmony existing among its members, so in the future it may fall to those who manage its temporal affairs, to bear record to the prevalence of the same kindly feelings. All of which is respectfully submitted.

ROBERT MILLS, JR.,  
*Secretary.*
