

A New Party Is Formed in Nova Scotia

Kentville, N. S., Jan. 29.—Nova Scotia gave birth this afternoon to a new political party. After the convention of the Nova Scotia Farmers Association was closed, some of the members and others unattached, to the number of one hundred, held a meeting to consider the farmers' platform adopted by the United Farmers of the West and Ontario.

W. O. Creighton was the chairman, and after considerable discussion the following resolution was adopted:

"That the farmers of Nova Scotia assembled in mass meeting form a new political party along the lines of the United Farmers of Ontario and the farmers' association of the west, as well as New Brunswick."

The meeting appointed a committee of five to attend the United Farmers' convention in New Brunswick next week.

CHILDREN'S AID KIDDIES PRESENT CINDERELLA

The playette Cinderella was given a most elaborate presentation with gorgeous costume effects in the Children's Aid Home last night when one hundred delighted visitors witnessed the children's most successful performance. The playette was given under the direction of the matron, Mrs. Peatman, and the teacher, Miss Poole, and the pleasure of the children in the entertainment knew no bounds.

William Allan, a soldier who returned to Canada last October and whose wife died shortly afterwards of influenza, leaving him with three small children, was present as a visitor and in a few words he feelingly voiced his gratitude to the home and its organizers. He told of having placed his children in the home and of the wonderful care that they had received. He said he considered the institution was doing one of the finest works that could be engaged in and congratulated St. John on possessing it. A. M. Belding, the president of the board of directors, made a brief speech, explaining that there were now thirty-five children in the home and asking if their happy faces were not sufficient evidence

NEGOTIATING FOR HOSPITALS IN CASE OF AN EPIDEMIC

Though the province is favored with the almost total absence of any epidemic disease, the local board of health is taking every precaution against a recurrence of the influenza outbreak. Negotiations are under way for the lease of three buildings, which in case of need, will be used for isolation hospitals; formaldehyde lamps of two designs have been secured in sufficient quantity to meet any need and the usual precautions of the board's officials have been still further increased. With the assistance of the V.A.D.s, an augmented staff of physicians in the city and the help of nursing sisters and hospital orderlies who have returned from overseas, it is expected that influenza or any other contagious disease will meet with a strong resistance in this district.

TALKED ON CITIZENSHIP.

Judge H. O. McInerney gave a short and informal talk on topics of the day and good citizenship, at the weekly meeting of the Knights of Columbus, last night. There was a large attendance of Knights and interest and enthusiasm was displayed at various points made in the address. Hon. R. J. Ritchie moved the vote of thanks, which was seconded by Dr. W. P. Broderick and tendered the speaker by the chairman, Grand Knight William M. Ryan.

CANADIAN INDUSTRIES EXHIBITION

Canadian industrial enterprises is to be held in June next in London. It has the support of the Canadian Trade Commission, the Canadian Manufacturers' Association, and the Canadian Industrial Union. The organization is in the hands of B. Greville Montgomery.

Already most of the ground floor space of the Royal Agricultural Hall has been allotted to leading firms, the exhibits comprising grain elevators, separators, pianos, wood-working machinery, tractors, confectionery, polishes, ready-made houses, furs, hardware, steel products, &c.

A practical joker with a poor sense of humor rang in an alarm from Box 412, about 9:20 o'clock last evening, and gave the fire department an unnecessary run. The department was quickly on the scene at Gilbert's Lane and City Road, where it was discovered that the alarm was false.

The United States has one automobile to every 18 persons; Great Britain has one car to every 225 persons; France one car to every 400 persons, and Italy and Belgium one to every 840 persons. Taking all the cars in the four European countries named, there was at the beginning of the war one motor vehicle to every 353 persons.
