(Canadian Press) St. John's, Nfld., Jan. 23.—The proposed fisheries negotiations recently concluded by Newfoundland and the United States will probably be considered by the colonial legislature which has been called for February 8. MORE JEWS NEEDED, SAYS JACOB SCHIFF

Hebrew Population of States Two Per Cent, He Says, and Should Be Five

(Canadian Press) New York, Jan. 23.—The United States needs more Jews, says Jacob H. Schiff, the banker and philanthropist. Addressing a great crowd in the Educational Alliance building yesterday, at the annual meeting of the Hebrew Sheltering and Immigration Aid Society, he said: "There are not enough Hebrews in this country. Statistics show that the Hebrew population is but 2 per cent of the total, and five per cent would not be too much. We could have 3,000,000 more Hebrews but it should be arranged that they go west and help build up the great country there. 'The money test,' that is a requirement of funds when an immigrant lands, Mr. Schiff thinks should be abolished, as a bar to many honest and desirable immigrants. Judge Leon F. Sanders, president of the society, said that 73,779 Jewish immigrants had arrived in this country in 1910, as compared with 61,154 in 1909. Of last year's total, 53,822 gave New York as their destination."

THE TIMES' NEW REPORTER

AN ARBITRATOR. The Times new reporter was invited to attend a conference this morning between the editor and the business manager of the Standard, to endeavor to keep the peace while they discussed a little matter of policy.

The business manager opened the conference by telling the editor that unless he gave up the policy of attacking the Standard, he would have to resign. There would be no more advertising to do. The merchants, he said, wouldn't stand for it.

The editor replied that if the Standard did not hammer at the business manager generally, the few disgruntled persons who now read the paper would drop it, and there would be no circulation. It was clear from the discussion that both the manager and editor regarded the future with forebodings. Without advertising there would be no revenue and without circulation there would be no advertising.

At this juncture the new reporter was asked to arbitrate, for the business manager was warning up in defence of property and the editor was quoting Carl Marx.
