FORGED CHECKS PASSED IN FIVE STORES IN CITY

Fraud Discovered When They Reach Royal Bank of Canada.

IMPERIAL OIL CO. NAME IS USED

Others As Well—Amounts Are Between \$10 and \$25.

At least five city merchants have been victims of a worthless cheque artist during the last few days. The checks were taken in exchange for small articles and change made, in some cases, but two were cashed in full. In three places of business it was said a man around 30 years of age and having the appearance of a farm worker, made small purchases and proffered checks in payment. They were made out on the Royal Bank of Canada and were crude. The name of the Imperial Oil Co., Ltd., evidently made with a rubber stamp, was on several of the checks.

NOT SPECIAL FORMS

James A. Boyd, manager of the Imperial Oil Co., Ltd., said this morning that the checks supposed to have been issued by his company were on regular bank forms and not on the special forms which are used by the company for all its checks. He said the worthless checks had been turned into the Royal Bank but the forgeries had been discovered there. The checks were issued for amounts ranging from \$10 to \$25. Mr. Boyd thought the citizens should be warned.

DETECTIVES AT WORK

Sergeant Detective John T. Power said this morning that worthless checks were being passed upon city merchants and he wanted to warn all citizens against cashing paper for persons not known to them. His department had the matter in hand but the descriptions given of the man who passed the checks were vague and the detectives had little to work upon. Detective Power said the checks were crude affairs, especially those supposed to have been issued by the Imperial Oil Co., Ltd.

POLICE TO REPORT THOSE THROWING PAPER IN STREET.

The advisability of enforcing some of the by-laws which make for a cleaner and better city was discussed by the committee of the Common Council yesterday afternoon and as a result of the discussion some of the citizens who have been in the habit of throwing cigarette boxes and papers of various kinds on the street may have the chance to tell His Honor why they do it and also enrich the city treasury by the \$2 fine legalised for such offences.

SUGGESTS TEACHERS' AID.

Commissioner Harding reported that he had received complaints about children marking up houses with chalk. This latter was a most reprehensible practice, especially now when the city was urging a paint up campaign. He thought the school teachers might be asked to assist in teaching the children on this matter and teach them that such practices showed bad citizenship.

PICKING UP PAPER COSTLY.

Commissioner Frink said the houses were not the only things that he marked up with chalk. The tombstones in the Old Burial Ground were also marked with special favorites for this practice. He said that it was a criminal offense to disclose any building or public property of any kind and those guilty were liable to arrest and punishment. The fine is \$8 for disfiguring property by chalk. He also referred to the practice of throwing paper on the street and said that last year it had cost the Public Works Department \$4,000 to collect paper thrown on the streets.

TO WRITE TRUSTEES.

Commissioner Frink said he had been assured by the magistrate that any person brought before him charged with offences would be given the full penalty of the law. It was also decided that His Worship should write the Board of School Trustees asking that the teachers be requested to give lessons to the children on the duty of not entering buildings or throwing paper in the streets.

REFERRED TO HARDING.

G. A. Cameron wrote asking permission to erect two gasoline tanks and pumps on his premises, 129-131-133 Princess street. Commissioner Harding said the matter had already been brought to his attention by Mr. Cameron and he had been told the permission could not be granted. The letter was referred to the Commissioner of Safety for a report.

WAS EXPLAINED.

William E. Ward was before Magistrate Henderson in the police court this morning on a report of making the wrong turn in his auto. After making an explanation that was satisfactory to His Honor, the report was allowed to stand.
