The surprise of the temperance advocates prise and appreciate his determination to prise and appreciate his determination to mouth of the Escuminac River, Bon. Co., and May stood on the deck of the "Cattermill. The site is a good one, having all the water power necessary, as well as lumber for many years to come.

A number of I. C. R. officials with treasure. Then it we that D.ver Briggs created a record which is likely long to is on the premises of Mr.« Edward Phee, near Bush remain one. Struggling in the darkness at remain one. hold word in Chatham and Newcastle, for ontlook for the future is encouraging. This no shopping tour made in either town has, will be welcome news to the people of Tuesday with the object of reporting its tailed £5,000, and for more than a quarter of an hour, under the awful presente of ST. ANDREW'S NICH] nearly thirty fathoms of water, he toiled at his task May then descended, completed the work that Briggs had begun, and soon a net containing the bulk of the treasure was dragged into the daylight with ringing cheers. Box after box fullowed, the operations extending over several days, and having to be occasionally suspended when a rough sea rendered diving impossible. The experiences of the divers when engaged upon their weird work offers a wond story. Nerves of iron would seem to be absolutely necessary to successful personal exploration of the deep sea, Briggs and May lighted the profound darkness of th tank with an incandescent electric lamp, though elsewhere daylight sufficient for their labors reached the wreck. Both noted similar experiences below, and both remark ed that the most uncomfortable of their sensations was that of intense and dismal loneliness. They never used the light when it was possible to work without it, for the rays invariably drew about them a great WHOLE BODY CONTRACTED AND OUT OF concourse of fish. Of these, leather-juckets SHAPE IN EVERY LIMB - AGAIN RESTORED and sharks were the most numerous, but the latter they regarded without fear and received no molestation from them. One medicine there is a more remarkable rest ration than has been accomplished in Mr. sult was the handsome store that is opening this week, with its floor space aggregating is called the Christmas Number, and old 11.000 equare feet and continuous plate glass Sauta Claus will rarely flud in his budget a windows, of 56 running feet, 12 feet high, more welcome gift for women than is afford— was attacked with a severe cold which ties to banks abroad, which may or may and in which there is a stock of goods, ed by its wealth of fashion plates, descripeventually settled in his limbs. For some within her. Only her bright cargo of gold years he was an almost constant sufferer suffered no hurt, and it is now back in man's
