LONDON, Oct. 9 .- The complete dearth of news since afternoon from the Cape, on which all attention is riveted, is poorly compensated for by the mass of minute details published concerning the preparations for the despatch of the army corps and speculation as to the length and character of the debates when parliament meets. In official circles there is said to be apprehension that the radicals will offer protracted opposition to the government's policy in South Africa. which will possibly make prorogation and Christmas near neighbors. Lord Salisbury's whip to the lords

The latest despatch from Lourenzo Marquez relating to the chasing of the steamer Guelph by the cruiser Philomel, caused some stir, especially as it was announced that the Guelph had landed at Durban 414 cases of ammunition for the Boers. There is a pretty general feeling that ammunition ought not to be allowed to be for-warded. The Pall Mall Gazette, referring to the matter says: "There is some hope that the ammunition would be seized at Durban, as Natal possesses a ministry whose loyalty is unquestioned. Some indication of the war office estimate of the duration of the campaign is given by the fact that the authorities have contracted for eight months' supply of bread and other military requisites rendered necessary by the absence of the bulk of the army service corps, whom the war office thus evidently calculates will be at home again by the beginning of at nome again by the beginning of

LONDON, Oct. 9. The Duke Devonshire, lord president of the council of ministers, speaking at Sheffield today said that the deducations made from his recent speak at Manchester regarding the Transvaal situation had warned him that a member of the government could not be too careful. "Matters have not become more critical during the last few days," remarked the duke, "and I trust this in-

FREDERICTON, Oct. 9.-In all probability the St. John foot ball team will meet Fredericton on the gridiron here on Thanksgiving day. Secretary Part-ridge of the St. John club interviewed Capt. Dever of this city tonight, and as far as can be seen now everything is satisfactory for a contest. McLean, Tibbits and Ferguson of base ball fame will probably play with Fredericton As these clubs have not met for som time no doubt great interest will be

taken in the struggle.
Of late Fredericton has made wonderful strides in supplying Dorchester penitentiary with prisoners. Tom Wright and Jim Pinkle, both colored, were taken to that place today by Deputy Sheriff Hawthorn. They will both serve two years.

J. W. McCready, barrister, and Post-master Hilyard left today for Winnipeg on business in connection with the estate of the late Senator Temple. Herbert Lance of the Normal school had his collar bone broken while playing football on Saturday. He was a good player, and but for this accident would probably have played full back for the Fredericton team in their matches this fall.

Blair Goes Back on His Agreemen With the C. P. R.

Extraordinary Right About Face by the Minister of Railways.

Open war has been declared between the Canadian Pacific Railway company and the dominion government. This is the result of the action of the minister of result of the action of the minister of railways in again putting into force the regulations cancelled last week with regard to the handling of winter port business through St. John. Mr. Blair's action completely shuts out the Canadian Pacific from the port of St. John and this in the face of a street John, and this in the face of a signed agreement entered into last month be-tween the president of the Camadian Pacific and the minister, by which it lowed to stand as they were for the present season pending a further discussion of the question with a view to a permanent agreement at the close of the present winter season. Acting on the faith of this agreement, the Can-adian Pacific entered into arrange-ments with steamship companies for the coming winter business. Last week after these arrangements had been completed the traffic manager of the Intercolonial, Mr. Wallace, put into effect two orders; one that local rates would be charged on all freight destined for points on the line of the gov-ernment railway east of St. John; which came over the C. P. R. to St. John, and the other that all freight originating on the lines of the I. C. R. east of St. John and destined for points west, should be carried over the Intercolonial to Montreal, instead of as at present be handed over to the Canadian Pacific at St. John.

An indignant protest from President Shaughnessy to the effect that the issuing of these orders was in direct violation of the signed agreement entered into between the minister and himself resulted in the orders being cancelled, and the statement was made

"What effect," queried the Sun, "may this have upon winter port trade through St. John?"

"It was generally understood," was the reply, "that the steamship companies, who, prior to Mr. Blair's last interview with Mr. Shaughnessy in Montreal, had been hanging back waiting for some definite understanding, immediately after that meeting signed their contracts with the government. their contracts with the government. I feel sure that if any promises have been made by Mr. Shaughnessy to the steamship companies they will of course be carried out by the Canadian Pacific railway, irrespective of any action Mr. Blair may now take."

Mr. Sutherland, under existing cir-

cumstances, declined to make any further statement in connection with the matter. The following despatch, which ap-

peared in the press at the time, explains the agreement arrived at on Sept. 15th: MONTREAL, Que., Sept. 15.—The minister of railways and the president

of the C. P. R. gave out to the press this morning the following statement between the Intercolonial and the Can-

"As a result during the coming sea son the winter business at the port of St. John will be continued by the C. P. R. as heretofore. The settlement practically covers all matters in dispute between the parties, and has been arrived at without the abandonment of any ground taken strongly by either party during the negotiations. Mutual concessions have been made, each being desirous of arriving at an entente if possible. The public will not be concerned as to the precise nature of the settlement, although many important matters in dispute were disposed of, except in so far as may relate to the principal grounds of agreement. These are as follows:

CANADA'S PREMIER

Enthusiastically Received by the French Canadians of Chicago.

CHICAGO, Oct. 8.-When Sir Wilfrid Laurier, premier of the dominion of Canada, stooped to kiss two little girls who were presenting him a bunch of red roses on the stage of Studebaker hall tonight he greatly pleased more than 20,000 people who were gathered there to bid himself and party welcome in the agent of the come in the same of the dominion of the come in the same of the dominion of the come in the same of the dominion of the come in the same of the come of the come in the same of the come of the adians of Chicago. The whole audience arose in a body and cheered approval of the graceful act of the chief; guest. At the same time two other girls were treated in the same manner when they presented Lady Laurier with flowers in the box at the side of the stage. Immediately after this, when Sir Wilfrid had an opportunity to speak, he showed his thorough appreciation of the warm welcome tendered him by the French-Canadians. He thanked them for their receptions of himself and the other officials from Canada. In a brief, address he declared that it touched his heart to witness so true an appreciation of his political policy, which he declared to be "equality to all." He said his gospel is "conciliation." He also referred to the close relations existing between the U. S. and Canada. He said that in past years many young men had gone the dominion into the states be of the greater resources in the latter country, but now owing to the revived, prosperity, he said emigration from Canada is ceasing. He closed his address by again thanking the audience

for their welcome. Immediately after the close of Sir Wilfrid's address, which was delivered in French, a man in the centre of the hall arose and asked the speaker to hall arose and asked the speaker to say something in English, as part of the audience had not understood any of his remarks. In response the premier spoke very briefly. Mr. Laurier was followed by Alphonse Relietier, president of the Canadian senate, and

stage, upon which one thousand persons can easily find standing room, had been enlarged, and a great floor built out over the seats of the parquet, quadrupling the floor space of the stage. Back of the raised table at the west of the hall, at which President McKinley and the guests of honor were seated, was an elaborate piece arch, 20

feet in height, constructed of pastry.
Following the address of President
McKinley, which was received with
every manifestation of enthusiastic approval, Mr. Stone introduced Sir Wilfrid Laurier of Canada, who, he announced, was to speak on "The Dominion."

minion."

The greeting accorded the premier of Canada as he aross was hearty in the extreme. Cheer after cheer rang through the hall, and men rose and waved their napkins frantically. The warmin of his welcome for an instant embarrassed Sir Wilfrid, but he quickly recovered his salt-possession.

The welcome extended to Sk Wilfrid was repeated when the next speaker, Vice-President Mariscal of Mexico, arose to answer to the toast, "The Republic of Mexico."

Perhaps during the entire evening there was no sentiment more rapturously applauded, more enthusiastically received than that in Premier Laurier's address when he said: "There are

rier's address when he said: "There are no two nations on the face of the globe as united as Great Britain and America, nor any comity of blood and blood as that which flows between the English speaking people on this side of the Atlantic."

The audience rose to its feet and

cheered and cheered again, while the premier smiled and bowed his acknowledgment of the appreciation of the sentiment. If it were possible to the sentiment. If it were possible to exceed the enthusiasm with which his prior remarks were received this was evident when he said:

"And it is my conclusion that war between Great Britain and the United States would be criminal, just as criminal as war between two sections of this great country."
