WITH WIFE OF HIS PARTNER

Suit For Divorce Follows Disappearance Of R. W. Sawyer, Jr., And Mrs. G. F. McClelland From Cambridge.

Boston, Mass., Oct. 28.—Following the disappearance from Cambridge two weeks ago of Mrs. Edward F. McClelland, of 35 Lake View avenue, and about the same time, of Robert W. Sawyer, Jr., an intimate friend of the family and a neighbor, suit for divorce has been begun in the Middlesex superior court by Mr. McClelland, who is a Boston attorney.

In his suit Mr. McClelland says Mr. Sawyer's name is mentioned. The affair is a surprise to Cambridge society.

The two men have been associated intimately for some years. They are both connected with the law firm of Brandeis, Dunbar & Nutter. Mr. Sawyer graduated from Harvard in 1902, and from the Harvard Law School in 1905.

Mr. McClelland is a graduate of Harvard in the class of 1895. Mr. McClelland, in verifying the rumor of the disappearance of his wife, said: "Yes, it is true that my wife has gone. She has been gone two weeks. I know of no earthly reason why she should have left us, for our lives were perfectly harmonious, until a man, whom I considered a friend, came into my life. I never suspected a thing of the kind, for we had no words except the very mildest kind of discussion of this friend."

"We have been married 11 years and have two children, two girls, one 10 and the other 7 years of age. I have not the slightest idea where she has gone. I have begun divorce proceedings, however, and the name of Robert W. Sawyer, Jr., also of Cambridge and a neighbor, is mentioned in them."

Sawyer left a wife and children here.

Annual Meeting Of Women's Canadian Club—Reports Tell Of Successful Year—Hope To Secure Quarters.

The annual meeting of the Women's Canadian Club was held last evening in the Assembly Rooms of the Nickel Theatre. There was a representative attendance of members and the proceedings of the meeting, with the reports submitted, showed the club to be in a flourishing condition.

A letter was read from Lady Tilley resigning office as president of the club, and Mrs. Smith spoke in feeling terms of the active interest that Lady Tilley had always taken in the organization. By the unanimous vote of the members present it was decided to elect Lady Tilley honorary president of the club for the ensuing year.

The expenditures for the year were \$193.86, leaving a balance on hand at the opening of the present year of \$66.82.

Mrs. Gronlund read the secretary's report for the year. The executive committee had held ten meetings during the year, and had done good work. B., Prof. McGill of Halifax, Mrs. Sexton of Halifax, and Rev. R. E. Knowles of Toronto.

Work Accomplished. In December last the club had affiliated with the Women's Council and had also taken membership in the Association of Canadian Clubs. At the time of the funeral of the late King Edward VII. the club had made 800 mourning badges which had been worn by the members of the club, the members of the Canadian Club, members of the city police force and employees of the street railway. On the occasion of the unveiling of the monument to the late Sir Leonard Tilley, the club had placed a laurel wreath on the monument to a great Canadian.

Both reports were adopted as was also the report of a committee appointed to consider amendments to the constitution, and which recommended certain minor changes.

MICE PLAGUE IN INVERNESS

PLEASANT BAY CROPS RUINED BY RODENTS

People Driving Pests Into Pits By Thousands But This Does Not Appear Effective—Devastating Country.

Special to The Standard. Halifax, Oct. 28.—Pleasant Bay, a remote settlement on the gulf shore of Inverness county, Cape Breton, is besieged by a mice plague. The population of the hamlet consists of some 40 families of English, Irish and Scotch extraction.

The place is rarely visited, but at the present the countryside is alive with the hairy animals. They have burrowed a network of subterranean roads and have proved very destructive to the hay crop. The cats are getting enfeebled and lazy and have grown weary of killing them. One man is said to have piled up 26 dead mice in front of a barn door as the result of one night's work. Vegetables, etc., are being destroyed and no remedy is in sight. The people have been driving them into pits filled with water, but in spite of the myriads destroyed in this manner, there seems to be no abatement of the pestilence.

WILL PROPE CONDITIONS MARKET

Complaint Of Violation Of Rules And Hints Of Worse Things Leads To Sworn Investigation.

ALD. JONES MOVES AT SAFETY BOARD

That the rules and regulations of the market are being openly and flagrantly violated, that certain stalls which the city has not leased to anybody are occupied and that somebody is collecting rent from the occupants and making no return to the city authorities, are among the complaints regarding the administration of the present Ald. Jones, Edward Wigmore, to introduce a motion at the meeting of the safety board last night calling upon the city council to appoint a committee to conduct an investigation under oath.

"There are other practices," said Ald. Jones in moving his resolution, "of which the users of the market complain, and which it is the duty of the council to look into. We must have a thorough investigation of all the conditions obtaining in the market, and see if matters cannot be straightened out and improvements effected where necessary."

The Wilson Box Company, of which T. H. Estabrook is president, were granted a lease of three lots in Lancaster for the purpose of having the company to enlarge its business. Several renewal leases were granted, and other business was dealt with. Ald. Vanwart presided and there were present Ald. Jones, Edward Wigmore, Scully and White, with the common clerk, Director Wilson, Chief Kerr and Capt. Turner, of the Salvage Corps.

Chief Kerr heard.

Chief Kerr, of the fire department was heard. He wanted to see an opportunity to thank the board for his holiday. The convention had discussed many important questions, continuing the chief said that in all other cities the permanent staff of the fire department were in uniform. Most of his men were uniformed, but one man refused to fall in line. He thought an order should be passed obliging men on duty to wear uniforms. He concluded by saying he intended to divide the men in Christian into two companies after November.

An application was received from the Wilson Box Company, Ltd., for lease of lots No. 44, 45 and 46 in Lancaster. T. H. Estabrook, president of the company and A. W. Wilson manager, were heard. They said they needed extra room for piling lumber and would like to have a lease for 21 years.

Ald. Scully moved that the lease be granted for 21 years at a rental of \$50 per year. Mr. Wilson said they proposed to spend \$25,000 on a building and hoped to do a big business in the industry. Should Not Sell Land.

Mr. Estabrook said there were rumors on the street that the city intended to sell its Lancaster lands. He thought the city should not sell any land likely to be necessary for the city's future. He was interested in a company that would like to buy land in Lancaster, but he hoped the city would safeguard the public interest and only to parties intending to utilize the land.

Ald. Jones said that the board should have a report from the engineer or director before taking action on the application. The Association made application for a lot of land south of the Agricultural Hall upon which to place a building that had to be removed from Sh. field street, owing to Continued on Page Two.

McWha the building and premises on Water street, now occupied by Buchanan & Co. furniture dealers. The new owners are to take possession on December 1st. Ganong Bros. Ltd., will tomorrow begin the foundation for a new wing to their extensive factory premises. FRIENDS SEEK TO FREE MORSE

President Taft Will Be Asked To Release Imprisoned Banker On Parole—Claimed There Is Precedent.

Washington, Oct. 28.—Friends of Charles W. Morse believe they have found a way for President Taft to let the convicted New York banker out of the Atlantic penitentiary without actually pardoning him. In effect it would be to parole Morse, but that end would be accomplished by issuing a "conditional pardon."

The banker's friends claim precedent is in their favor, and point out that President Cleveland pardoned a Federal prisoner conditionally, with the proviso that he report to the United States District Attorney every year for five years. While the plans of Morse's friends are not known at the department of justice, it was said that there is nothing to prevent the President from issuing a "conditional pardon," and that in such an event, the federal board of parole would be charged with the responsibility of looking after Morse.

Any proposition to parole Morse under the terms of the law passed at the last session of congress, as has been suggested, is out of the question, say the law says a federal prisoner may be paroled after having served one third of his sentence. Morse was sentenced to fifteen years, and would not be eligible for parole under that statute, therefore, until January 1915.

Opening of Big Y.M.C.A. Convention

Addresses Of Welcome By Lieut. Governor, Premier, And Toronto's Mayor—Dr. J. W. Robertson a Speaker.

SIR J. P. WHITNEY Premier of Ontario Who Welcomed 1500 Delegates at Convention.

PROGRAM FOR FIRST SESSION

Addresses Of Welcome By Lieut. Governor, Premier, And Toronto's Mayor—Dr. J. W. Robertson a Speaker.

Special to The Standard. Toronto, Oct. 28.—The international convention of the Y. M. C. A. with delegates from all parts of Canada and the United States, and some from Great Britain present, opened this morning in Massey Hall, with addresses by Ven. Archbishop Cody, of Toronto and F. S. Brockman, of China. About 1500 delegates have arrived so far and upwards of 2000 are expected. The formal organization took place at two o'clock this afternoon with an address of welcome by the mayor. Fraternal greetings were extended and the triennial report of the international committee given. From 5 to 6 o'clock a reception was tendered at the city hall by his honor the lieutenant governor of Ontario, the prime minister and the mayor.

This evening Dr. J. W. Robertson, chairman of the royal commission on industrial training and technical education spoke on the conservation of life in rural districts. Dr. J. A. Macdonald spoke on "The timeliness of the needs of Canada."

Problems of far-reaching importance to young men will be discussed at the convention. Prominent among the topics is "Safeguarding the boys of the continent."

Since 1876, when the international convention was held in Toronto, cities in the United States have been honored with the continental gathering. In this connection it is worth while to note that the Y. M. C. A. movement, originating 66 years ago, in a London mercantile establishment under the leadership of Geo. Williams, afterwards knighted, spread to Canada first and then on to the United States.

Growth In U. S. The first North American Y. M. C. A. was organized in Montreal in 1851. Four years later the international organization was perfected at Buffalo, N. Y., and since then the association has grown more rapidly in the United States than anywhere else in the world.

Nearly all of the foreign activities originate there, and most of the foreign secretaries are either Americans or Canadians. There are over 2000 associations in the United States, with an enrollment equal to seven times the enlisted strength of the United States army; the total attendance at its buildings in one year equals one half of the total population of the country; and the yearly attendance at its religious meetings and Bible classes would fill over 15,000 churches.

It is expected that the convention will comment favorably upon the co-operation of the association with the Boy Scouts in the United States and Canada, and that all associations will be urged to keep up athletic work. Organizing in non-Christian lands will be pressed with renewed vigor because foreign work has developed many new fields in which the movement has been wonderfully successful. Lucien C. Warner, of New York, is the present chairman of the international organization, whose headquarters are in New York. Richard C. Morse, also of New York, is the general secretary.

R. JOHNSTONE BRINGS DOWN A NEW RECORD

Wright Pupil Got Up To 8,471 Feet On Return From Middle Island—In Great Danger.

PICK AMERICAN TEAM TO DEFEND CUP

New York, N. Y., Oct. 28.—The crowd at Belmont park today was all for Ralph Johnstone when from middle Island Village, L. I., 55 miles off the coast, he brought back a new American record of 8,471 feet for altitude—the second he has added to his string in the international aviation meet. But the interest of the aviators was centred on the action of the Aero Club of America, which after a midnight session, chose Hamilton, Drexel and Brooks early this morning to defend the Bennett international speed trophy.

DeMars, in a Demoiselle, suffered the first accident of the tournament but came off with no hurt to himself and only minor damage to his machine. Just before the passenger carrying cross country race was started at 4 o'clock this afternoon, a note in the sky was seen far to the southeast. It was Johnstone's, respawning just where he had vanished in yesterday's sale. He circled the field and settled in front of the judges' stand, while the crowd waved, cheered and stamped. For once he had the center of the stage and Hoxey had to take the background.

His Story. "Tell you what, boys," said the hero, "It was just the mercy of Providence that I saved my neck. When I thought I was within touching distance of the new world's record, I kind of forgot all about the wind, and began to reach out for more height. Then I suddenly said to myself, 'young man, you better see how much gas you've got,' it's the truth I had just enough to turn over the two propellers. When I kept her nose up the juice ran down into the engine and she coughed. The minute I pointed down I lost my fuel and she began to sputter."

It was just like shooting the chutes, I first had a head-on collision with the power off, and when the wind began to carry me out of control I'd point up a bit, get a little headway, run level for a hundred yards, then dive again. I wasn't much scared till I got down to earth and saw what a gale there was. Then I was frightened for fair. The only spot I could find to land in was a little patch not three times bigger across than the stretch of wings from tip to tip. If I went farther I was afraid I'd wipe out the entire village of Middle Island. If I didn't come down the engine would wipe me out. While I was tossing pennies with myself the wind turned me clean around and landed me front end backwards, but that was just what saved me. If it had come head first, the wind would have picked me up, tipped me over and smashed me to pieces."

The Outside Teams. The French team in the Bennett race consists of Latham, with a 100 horse power Antoinette; LeBlanc with a 100 horse power Bleriot; Aubrun with a 50 horse power Bleriot; Simon and Barrier, both with 50 horse power Bleriot's are substitutes. For Great Britain, White with a 100 horse power Bleriot; Radley with a 50 horse power Bleriot are the team, with Ogilvie of the Wrich company of Great Britain and McArdle in a Bleriot as the substitute.

There was no flight to the Statue of Liberty today because of too much wind. Moissant and DeLesseps, both tried but neither finished. Count Leaps took up his brother and landed unhurt in Garden City.

MAN SAID SUICIDE; HIS WIFE INDICTED

St. Albans, Vt., Oct. 28.—Mrs. Frank C. Averill, of St. Albans town, was indicted for the murder of her husband by the Franklin county grand jury late today. The jury which had been especially summoned to consider the case, had been hearing testimony since yesterday afternoon.

Mrs. Averill has been under arrest since Saturday last when she was taken into custody following an investigation by State Attorney Johnson. Averill died at a hospital in this city, Oct. 21 from gunshot wounds. He was taken to the hospital late the night before, and in his few moments of consciousness told the officers who had been called in, that he had been shot accidentally.

The Averills were well known residents of St. Albans town. Mrs. Averill since her arrest has maintained her innocence and not motive nor anyone to have shot Averill is known.
