After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dandruff. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just draw it carefully through your hair, taking one strand at a time. This will remove dirt, and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff, stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

DYING FROM GALL-STONES

Doctors Said Only An Operation Could Save His Life
—"Fruit-a-tives" Enabled Him To Pass Nearly
200 Gall Stones.

J. B. HARDING, Esq.

46 Grove Ave., Toronto, Ont., Jan. 10th, 1913.

"I suffered untold agony from GALL-STONES, for the past three years, and tried many doctors without getting relief. I also paid \$5.00 for one bottle of medicine which was useless. At times the pain from these gall-stones was so great that I lost consciousness, and my condition was desperate. I was quite satisfied that I was dying and the doctors said I must be operated upon."

"During one of these very severe, acute attacks, I was given some 'FRUIT-A-TIVES,' and after taking a short treatment of this remedy, I passed gall-stones over an inch in length, and as many as one hundred and fifty or two hundred in number. 'FRUIT-A-TIVES' was the only thing that would relieve my pain. They are the greatest medicine in the world, and if there is anyone in Canada, or anywhere else, that suffers from gall-stones, I say 'Let them take 'Fruit-a-tives' and be cured.'"

"If this testimonial will further the good work of 'Fruit-a-tives,' publish it with my full authority."

J. B. HARDING, Esq.

"Fruit-a-tives" is the only medicine in the world made of fruit juices. By a wonderful process, the medicinal properties of certain fruits are greatly intensified—dian valuable tonics and antiseptics are added and the whole made into the pleasant tasting tablets known in every section of Canada as "Fruit-a-tives."

50c. a box, 6 for \$2.50, trial size, 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

OUR PRESENT DAY PLAYWRIGHTS.
(A critique in six stanzas.)
By Dimisteln.

O, who are our playwrights, our present-day playwrights?
The answer is hardly refractory:
To find out our playwrights, our present-day playwrights,
Consult any city directory!

O, whyfore our playwrights, our present-day playwrights?
Because each is striving by divers contriving
To slip over one on his neighbor!

But whyfore these neighbors, these bothersome neighbors
Who fill any city directory?
Of royalties vaguely "collectory."

You have no doubt heard that poetical clatter:
"To succeed, write a play that's suggestive."
The public is flocking to get a good shocking!

This makes one more or less restive.
Thus each little playwright, each present-day playwright,
Is pecking with dialog ruse, With personae gaudy in scenes freely bawdy.

He's doing the thing up artistique!
'Tis merely the shekels, the shiny-backed shekels,
That coax all this striving and clamor—
This putting of scallions on common-
place trollops.

Oh! what will become of the "drammer?"

But whyfore these neighbors, these bothersome neighbors
Who fill any city directory?
Of royalties vaguely "collectory."

WILET REID ON TRIAL FOR CHILD MURDER

Continued from page nine.

When the child was found its hands were tightly grasping a hard back. There was a napkin wrapped about the child and he was lying on his back.

Cross-examined by Mr. Guthrie. Witness stated that it was not longer than fifteen minutes before the girl was returned after she passed with Duplessis.

"If suit case was full of clothing would it be as heavy as this?"

Witness continued: When the body was found a hard back was in the hand and came loose in the other by swinging its arms. The flesh looked pale.

Q—Did you see a string around the neck?

A—Yes.

Q—Was it very tight?

A—It didn't seem to be. The doctor put his finger in without denting the flesh.

Q—What clothing did it have?

A—Napkin cover and roller.

Mary Virtue, of Montreal, formerly matron of the Evangeline Home here, was next called. Witness left the institution about the 24th of April this year. The prisoner came to the home and gave her name as Lillian Fear.

She was admitted on February 19th. About a month before came to the home, told of her trouble, and stated she wanted to stay for a while. She was expected to be sick in April, and did not want to be at her own home at the time.

Mrs. E. M. Edward and her daughter, Miss Natalie, of Long Beach, California, having been a doctor with a female child. There was no doctor in attendance at birth.

Lillian Fear was told to advise the girl's parents, which she did.

Q—Was there anything peculiar about the child? Yes, it had very heavy black hair.

When she left said she was going to the Dufferin Hotel to meet her brother.

Cross-examined by Mr. Guthrie. Witness said the girl's father and brother had both sent money to her while she was at the Home.

Dr. A. Ed. Loggie next testified. On April 4th the prisoner attended at witness' office and asked the nature of her illness. Witness told her peritonitis. She asked if she would tell her father that she was dying. He said she should not tell him of her confinement. She said she gave her child to a cousin in Michigan, and that she had to part with it.

Miss Phoebe Cook, Sydney, formerly a nurse at the Home, was the next witness. Her testimony was corroborative of Miss Virtue's testimony. Witness saw prisoner with a suit case the day she left the Home. The girl carried the baby and witness carried the suit case down stairs. Witness loaned her a shawl. The girl returned the shawl the latter part of May. Asked how the baby was she said she didn't know. She asked witness if she had heard of the finding of a baby at Fredericton. Witness said a man had asked her (Reid girl) about her illness. She said her cousin took the child to Michigan and she gave it to her at the station here and said she left that night for Tracy Station.

Child's Clothing Identified.

Witness here identified the shawl and also identified a shirt, a foot blanket and a napkin as articles which the Reid girl had in the Home. Witness went to Fredericton Junction and there saw the dead child. The hair and eyebrows were dark like those of Violet's child.

Lillian Fear was then called and identified the napkin found on the body as the one which she saw the girl carry down stairs. She said the initials worked in thread "N.O.N." Witness said they were one D.O.N. and belonged to a boy named Don. Mr. Guthrie (to the jury)—If any of you can make Don out of that I'll eat it.

Mr. Gerow (smiling)—You must be kidding.

The girl was positive in her identification.

Adjustment was here made until 10 o'clock this morning. The jury is being kept together and were given permission to attend the theatre last evening.
