It is said that the Hon. Charles Fox Bennett is going to bring forward for a second time an indictment for libel against Mr. Burton, the proprietor of the Tetegraph You may perhaps remember that Mr. Bennett complained of some expressions in that paper which he said were tantamount to an accusation of perjury; and that the Premier of Newfoundland should be ac cused of perjury was something more than he could tolerate. No doubt the words in question did broadly accuse Mr. Bennett of this crime. Mr. Bennett sought redro and preferred an indictment against Mr. Burton which the Grand Jury threw out ast term. Mr. Bennett has so much regard for his reputation that he is going to throw temptation in the way of a second Grand Jury, who will probably ignore the Bill as did their predecessors. You may imagine what were the merits of such a case.

Henry Ward Beecher with the Eight-Hour Strikers.

The other evening, in Plymouth Church. Brooklyn, addressing a large congregation, the Rev. Henry Ward Beecher said: "In this unanimous rising of the laboring classes in New York I recognize one of the most promising signs of the times. Capital has ruled too long and too iniquitously. When we abolished slavery we thought we had east out the devid from among us and had cast out the devil from among us, and so we had for the time, but the unclean spirit entered into a herd of swine in the shape of capitalists. I am no partisan of revolution, but I thank God for any power to overthrow the power of union of capital, to overthrow the power of union of capital, which has produced nothing but corruption and intolerance. My heart is with the poor man, who has forever been trodden under foot and despised, because he was compelled to earn his bread by manual la bor. I consider the demands that have been made perfectly just and reasonable. The movement has my entire sympathy, and I heartily wish it 'God speed.''
