A BEAUTIFUL IDEA.

Away among the Aleghanies there is a spring so small that a single ox in a summer's day could drain it dry. It steals its unobtrusive way among the bills till it spreads out in the beautiful Ohio. Thence it stretches away a thousand miles, leaving on its banks more than a hundred villages and cities, and many thousand cuntivated farms and bearing on its hosm more than half a thousand steamboats. Then joining the Mississippi, it stretches away and away some twelve hundred miles more, till it falls into the great emblem of eternity. It is one of the great tributaries of the ocean, which, obedient only to God shall roll and coartill the angel, with one foot on the sea and the other on the land, shall lift his hand to heaven, and swear that time shall be no longer. So with moral influence. A BEAUTIFUL IDEA. shall be no longer. So with moral influence. It is a rill a rivu'et -a river-an ocean oundless and fathomless as eternity.

THE INFLUENCE OF WOMAN .- If we wish to know the political and moral condition of a State, we must ask what rank woman holds in it. Their influence embraces the whole of life. A wife, a mother-two magical words—comprising the sweetest sources of man's felicity. There is the reign of beauty, of love of reason. Always to reign! A man takes counsel with his wife be obeys his mother—he obeys her long after she has ceased to live, and the ideas which be bus received from her becoming principl even a ronger than his passions—MARTIK.

EIGHT CHILDREN AT A BIRTH.-About five morths since the wife of Jacob Abbott, living about ten miles east of Golconda, in Pope County, C. W., presented her husband with eight pledges of affection at one birth. These children survived until six weeks old, when two of them sickened and died. The remaining six are still living and thriving finely. The whole cight were very small specimens of humanity when ushered into the world, as might have been expected. This statement is literaly true; it is vouched for by numbers of respectable witnesses who saw the children.—Lockport (US.)

WELL AND SPRING CLEANING .- As Spring well and Spring Cleaning.—As Spring is approaching, we earnestly advise all persons who use well water and spring water to have both wells and springs thoroughly cleaned out and then washed out early in May and also during October, as there is strong reason to believe that the settlings which have accumulated is cluding deceased. ulated including decayed vegetation, impart their disease engendering qualities to the water and thus originate some of the most dan erous forms of low or typho d fever at a time of the year when the weather is so cold as to preclude the idea of their arising from vege-table decomposition, the stench of debris at the bottom of wells should induce all cleanly persons to expurgate them thoroughly, aside from considerations of health.—Halls Journal of health.
