

Open

this spring at Quebec!

It's an historic spring in historic Quebec. Chateau Frontenac becomes Greater Chateau Frontenac . . . The famous castle-hotel has shot skyward — with a vast, towered keep . . . A new picture. Magnificent . . . A new hotel. Luxurious. With continental dining-rooms, period suites, and every modern hotel service . . . Yet, the old atmosphere. The courtyard is medieval. The halls baronial.

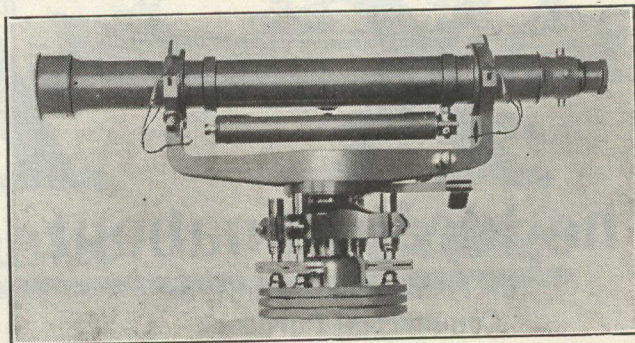

That famous hospitality is now augmented by new restaurants, terrace cafe, ball-room, 350 rooms with bath. Greater Chateau Frontenac goes back to the glories of medieval North France. It comes up to the luxuries of present-day North America.
