We feel the revised statement is preferable in that it reduces the emphasis given to the role of the Commonwealth Communications Council about which public opinion through the Commonwealth is generally uninformed and in laying less stress on the nature of integration of the Commonwealth telecommunications services with a view to the possible re-action of public opinion in the United States. In that connection we appreciate your intention of discussing the statement with the State Department and of taking any practicable steps to ensure that the matter is properly presented to United States public opinion.
