

- Saprophytes, 314
 Sarcoplactic acid, fatigue and, 401.
 Sarcoma, 670, **763**
 definition of, 707
 giant-celled. *See* Myeloma, giant-celled.
 intermediate forms, 770
 melanotic. *See* Melanoma.
 pure forms of, 766
Sarcophylla penetrans, 351
Sarcosporidia, 339
 Saturnine poisoning. *See* Lead poisoning.
 Scabies, 351
 Scarlet fever, Mallory's bodies in, 332, 340
 Wassermann reaction in, 549
 "Schlummerzellen," 110, 608
 Scleroproteins, 56
 Scobrone, 56
 Scorbute. *See* Scurvy.
Scorpion, antivenin, 550
 Serotum, hydrocele of, 860
 Scurvy, 393
Sea-urchin. *See* Echinus.
Seat-worm. *See* Oxyuris.
 Secretin, **364**. *See also* Hormone.
 Section, 283
 Semipermeable membranes, 89
 of cells, part played by phosphatides, 96
 Senna, action of, 309
 Sequelae, 456
 Sequestration cysts, 862
 Sequestum, 988
 Serosa, fibrinous inflammation of, 430
 hemorrhagic inflammation of, 435
 mesothelioma, 812
 suppurative inflammation of, 433
 Serous atrophy, **904**
 Serum albumin, 56
 globulin, 56
 soap compounds as complements, 540
 Sex, accessory chromosomes and, 153
 differentiation of, 278
 as example of particulate inheritance, 167
 influence of parental nutrition upon, 199 (note)
 mosaic inheritance and, 175
 predisposition according to, 406
 Sex-limited inheritance, 179
Shamrock, mutation in, 181
Sheep, Ancona breed, mutation and descent, 213
 Shock, **580**
 after burns, 291
 distinction of, from collapse, 585
 with excitement, 585
 Side-chain theory, **516**
 of immunity, **516**, **570**
 Siderosis, pulmonary, 973
 Silicosis, 973
Silk-worms, Mendel's principles affecting, 173
 Sinus, 433
Siphonocladus, 42
 Siren, 261
Situs inversus, 277
 Skatol, 384
 action of, on liver, 311
 Skin, action of poison on, 311
 atrophy of, senile, 874
 bronzing of, 358
 cheloid of, 716
 in febrile state, 477
 grafting, 635
 heterotopia of, 640
 horns of, 777
 ichthyosis of, 182
 leiomyoma of, 750
 regeneration of, 618
 Sleeping sickness, 336
 Smallpox, Guarnieri's bodies in, 332, 340
 incubation period of, 458
 inoculation against, 492
 ultramicroscopic organisms of, 995
 vaccination in, 493
 vesiculation in, 903
Snavil, Mendel's principles affecting, 173
 Snake venom, 511
 neurotoxin, combination of, with nerve matter, 514
 Soaps, 92, **94**
 action of, as complement, 540
 hemolysis and, 306
 Wassermann reaction and, 549
 Sodium soaps, 94
 sulphindigotate, elimination of, 310
 Solution, crystalloid and colloid, 87
 hyperisotonic and hypisotonic, 90
 solute and solvent, 87
 water-solid and solid-water phases, 88
Sour, mammae of, 181
 Spallangani's law, 694
 Species and varieties, what should determine, 172
 Spermatocytes, primary and secondary, 148
 Spermatogenesis, **148**
 Spermatogonia, 148
 Spermatotoxin, 533
 Spermatozoa, effects of x-rays on, 878
 evolution of, 145
 human, incapable of conveying infection in fertilization, 206
 maturation of, **148**
 Spheroliths, 954
 Sphingomyelin, 93, 96
Spider antivenin, 550
 parasitic, 351
Spina bifida, **265**
 causation of, 217
 "Spinal shock," 584
Spirillum cholerae, aggressors of, 557
 endotoxins of, 543
 immunity toward, 121
 Pfeiffer's reaction in, 543
 Metchnikovi, immune serum of, 45
 " Nasik," 300
Spirocheta pallida, 207
 Spirochete associated with malignant growth, 840
Spirogyra, amitosis and mitosis in, 114
