SOUTHERN COUNTIES AYRSHIRE BREEDERS' CLUB ANNUAL MEETING

The annual meeting of this club was held at Woodstock on Wednesday, Jan. 27, in the rooms of M. G. R. Green, Oxford's district representative. An address was delivered by the president, Mr. John McKee, Norwich, dealing with the work of the club during the year, and strongly pointing out the necessity of increased production in live stock at the present time.

Proposed changes in rules governing the yearly test were discussed at length and, on motion of W. Malhall and Jas. Begg, the club placed itself on record as being opposed to any changes with the exception of the removal of all breeding restrictions before the commencement of the test. The executive was instructed to hold the next consignment sale on Dec. 15th next, providing that conditions in the country at the time would warrant the holding of a sale. New revised constitutions were ordered printed, containing a directory of names and addresses of all members of the club. An open demonstration meeting will be held in June, when a fine exhibit of Ayrshires will be present, expert judges will lecture on live stock breeding and will also take charge of the judging classes, the place of meeting to be decided later by the executive.

The election of officers resulted in the following staff of officers and directors: President, W. M. Wallace, Burnbrae, Stratford; Vice-President, F. H. Harris, Elgin, Ont.; Secy.-Treas., John McKee, Norwich. Board of Directors: Jas. Begg, Springford; W. Malhall, Hatchley Station; John A. Morrison, Elgin, Ont.; J. L. Stansell, Stratfordville; Alex. McVicar, Belmont.

AYRSHIRE COWS AND HEIFERS THAT HAVE QUALIFIED IN R. O. P. TEST DURING NOV., DEC., AND JAN.

Mature Class

Gurta of Bellevue 4th, 5894: 13,119 lbs. milk, 516 lbs. fat, 3.93 per cent fat, 365 days. A. McRae & Sons, Charlottetown, P. E. I.

Hillhouse Queen Mary, 36792: 6,498 lbs. milk, 277 lbs. fat, 4.11 per cent fat, 350 days. R. R. Ness.

W. F. STEPHEN, Secretary-Treasurer.

R. B. BROCK'S HERD.

Mr. R. B. Brock has a nice consignment to the Simcoe sale, Feb. 11. Mr. Brock's herd bull, Lulu's Prince of Glenspring, is a son of Lulu Keyes, his sire, Count Gerben, is by De Kol 2nd Butter Boy 3rd, with 115 A.R.O. daughters and 74 A.R.O. sons. He has individuality as well as breeding. Possessing breadth, remarkable depth, a splendid skin, fine sharp shoulder, a wide muzzle and nicely dished face, he makes an excellent sire and stamps his characteristics on his offspring.

Lady Eleanora is the foundation cow in Mr. Brock's herd and the dam of five of his females. At nine years of age she gave 14.63 lbs. of milk and 593 lbs. of butter. She is a fine individual, with an excellent constitution, and all her tested daughters have made creditable records. Estelle Belle Plain made her 16-lb. record under very ordinary conditions. She is a persistent milker and never wastes two pounds of butter a day for 177 days. Her daughter is a very promising looking heifer. Annie Mercedes's name is in R.O.P. in spite of the fact that a stolen visit to the orchard rendered her almost dry for a long period during the test. Yavinda Abbekerk is also an animal worth noting. She is a daughter of Sir Pauline Abbekerk and has a 22-lb. record.

Lady Eleanora and one of her granddaughters are consigned to the Norfolk sale on Feb. 10th. The latter bids fair to surpass the 23-lb. record of her dam. A few very promising heifers and strong, nicely topped young bulls are also included in Mr. Brock's consignment.

THE MASON HOLSTEINS

The famous Tensen blood is very much in evidence in the herds of Wallace and Wm. E. Mason, near Simcoe, Ont. Their animals have size, strength and vitality for which this strain of Holsteins is noted. They have also milk and butter producing ability. Woodcrest Sylvia Pietertje De Kol Pietertje, a noted sire of high record stock, formed the foundation of the Woodcrest herd. His champion three-year-old, is yet the most noted cow of this strain. But she is not an outstanding heifer. Related cows, however, owned by the Masons, have record-breaking possibilities. In William Mason's herd there is Pine Tensen, with a junior two-year-old record of 17.54 lbs., Lulu Posch Rose, who made 26.05 lbs. as a four-year-old and Mercedes Lady Mechthilde, who has a two-year-old record of 22.07 lbs. Ardelia De Kol Staples is another cow of the large strong straight type. Her mother, Flora Staples, made 15,930 lbs. milk and 625 lbs. butter on twice a day milking. Ardelia Posch is an example of Tensen persistency. She made her 19-lb. record 267 days after calving. Madora De Kol 3rd, a large cow with an excellent constitution and of 17.96-lb. record, will be sold at Simcoe on Feb. 11th. With her will be Evergreen Bigh De Kol, a promising two-year-old, and Evergreen Posch Rose, from Lulu Posch Rose (26 lbs.) and Evergreen's Sylvia.

Wallace Mason's Good Ones

In the herd of this brother there is Doly Staples, whose grand-dam was a cow by the same bull as Madame Posch Pauline. Pine Sir Posch, her sire, made a three-year-old record of 23.75 lbs. and has 20 lbs. of milk in one day and averaged 85 lbs. for 30 days. These records were made under rather unfavorable conditions, and Doly will no doubt increase them materially. Like with the Tensen characteristics is Beauty Tensen, a daughter of Lulu Abbekerk Posch. Her dam, Beauty Tensen, has a 16,000-lb. record made under ordinary farming conditions and twice a day milking. Kate of Springbrook is one of the cows to be offered at Simcoe. She is a cow of strong Tensen characteristics and carries a splendid udder. She should improve her seven-day record of 17.92 lbs. of butter if given a chance. Her dam's record of 11,300 lbs. milk averaging 3.5 per cent. was made on two milkings a day. On fall pasture she gave 70 lbs. milk a day. Francis May Springbrook, her daughter, is a large, growthy two-year-old of good conformation, and her last calf will make a fine large bull. Among the young stuff also is a grand-daughter of "Kate," a growthy young heifer with an excellent middle. A granddaughter of Evergreen Bigh is in the consignment. She is a promising heifer, possessing constitution and capacity. A real bull is the son of Evergreen Bonnante Tensen. He has the rugged Tensen characteristics.

Flora Tensen, a full sister to Ardelia, is a cow worth noting. She is large and of great feeding capacity, and possesses an excellent udder. Another heifer combining individuality and breeding is Evergreen's Marie Tensen. Her sire, Evergreen's Tensen, was a son of Evergreen March. This bull was a former herd sire of the Mason Bros., and Wallace Mason's herd contains nine of his daughters. They are a promising bunch and will no doubt be heard from.

This year's crop of calves will be from Fancy 3rd Bigstep, A son of Fancy 3rd and Canary Hartog. He is a bull of excellent high record breeding. The dam of his sire has a record of 34.60 lbs. of butter in seven days, 116 lbs. of milk in a day and 6,197 lbs. in 60 days. He has a big frame and great constitution, excellent neck and shoulder, a loose yellow skin and fashionable color.

FOR the benefit of the Belgians, a pure-bred Holstein bull calf, donated by Messrs. Jas. Neville & Sons, of Strafford ville, will be sold by auction, at the Aylmer Consignment Sale on February 16th, the proceeds of which will be donated to the Belgium Relief Committee.
