Poor Seeds Waste Land, Time, Labour and Money

THE COST of seeds is a small fraction of the cost of a crop—but upon the quality and vigor of the seeds depends the size of that crop. McDonald's Tested Seeds give maximum productivity for the land, labour and money that are used to cultivate them. They are "seeds with a pedigree"—selected strains, chosen for yield and vigor, and are subjected to rigid germination tests before being passed for sale to our customers.

CATALOGUE FREE
UPON REQUEST ::

Our Fortieth Annual Seed Catalogue is ready for delivery. It describes and illustrates hundreds of varieties of seeds, with directions for their proper cultivation, and contains information of real value in helping the farmer or gardener plan his planting.

A copy will be sent free upon request—simply say "Send Your Seed Catalogue" on a postcard, with name and address, and your catalogue will go forward by return mail.
