LIVERPOOL MARKET
 Liverpool, Oct. 31.—Wheat strong on American strength and unfavorable weather in Argentine. Heavy takings. Argentine exports of all offered cargoes and parcels, 10,000 bushels, being paid for at 4½ and 5½, but not at 3d. advance. The Turkish activities have changed the aspect there and much apprehension is felt as regards supplies. Spot wheat strong.
 Corn.—Offers light and yesterday's late cargo sales were made at 6d. advance. Argentine weather is unfavorable and Plate offers are dearer.

AMERICAN BARLEY AND OATS
Minneapolis, Oct. 31.—Cash oats closed as follows:
No. 3 white oats, 44½ to 44½.
No. 3 oats, 42 to 43.
Barley, 53 to 1.34.
Flax, 1.31½ to 1.34½.
Duluth, Oct. 31.—Cash oats closed 54½; barley 55 to 67; flax, 1.34½.

CHICAGO LIVESTOCK
Chicago, Ill., Oct. 31.—Hogs—Receipts 14,000; steady. Bulk, \$7.30 to \$7.55; light, \$7.15 to \$7.60; mixed, \$7.10 to \$7.65; heavy, \$7.10 to \$7.65; rough, \$7.10 to \$7.20; pigs, \$4.25 to \$6.85.
Cattle—Receipts 700; steady. Beeves, \$6.50 to \$11.00; steers, \$7.50 to \$7.90; stockers and feeders, \$5.10 to \$8.10; cows and heifers, \$3.60 to \$9.30; calves, \$7.00 to \$10.50.
Sheep—Receipts 5,000; strong. Sheep, \$5.25 to \$6.25; yearlings, \$6.00 to \$7.00; lambs, \$6.50 to \$8.20.
Demand from shippers and small killers helped to hold the hog market steady today despite the fact that offerings were comparatively large. Most of the cattle, sheep and lambs that arrived went direct to packers or were intended to be sold Monday.

WHEAT REVIEW

Liverpool, Oct. 30.—The progress of the Argentine wheat crop is becoming the dominant factor for heavy shipments are likely, if the crop is secured, as it is a normal season and large orders have been placed already.

Six years ago when the acreage was about equal to this year, Argentina shipped 12,000,000 in January and 6,500,000 weekly during February and March.

India shows very favorable and crop promise on an increased acreage and moreover a good Indian yield of grain and foodstuffs will undoubtedly lead to the release of the balance of the old wheat crop, so that prospects point to smaller requirements for the United States and the reduced yield in Canada is less important than otherwise would have been. War is still an incalculable factor and undoubtedly great waste is occurring, and the requirements will be greater than normal and the net gain there will be much deficiency in acreage next season.

Meanwhile the markets look heavy as long as good weather lasts in India and Argentine.

Winnipeg Livestock

Stockyard Receipts

During the past week there have been received at the Union stockyards 6,489 cattle, 225 calves, 8,421 hogs and 530 sheep.

Cattle

The supply of cattle this week has been just about the same as that of a week ago and in spite of last week's expectation the market has taken on a somewhat firmer tone. Choice cattle at the end of the week were selling strong at \$6.25 and almost all the offerings in all grades were sold at each day's end. The St. Paul market was higher on Friday on all grades of cattle and there was a good demand all round. It is possible that the market may take on a little firmer tone and that prices will rise somewhat in the near future. On Friday last forty cars of cattle were shipped South and some thirty cars were sent to Eastern markets. Best fat heifers sell for from \$5.25 to \$5.50 and best cows at from \$5.00 to \$5.25. The bulk of the receipts is made up of stockers and feeders and these suffered a decline of fully 25 cents per hundred. Best feeders weighing from 900 to 1000 lbs. are selling for from \$5.30 to \$5.75. Bulls are in good demand and while a few extra choice butcher bulls reach 6 cents the bulk sells for \$4.75 to \$5.25. There is no change in the price of milkers and springers. Veals are worth \$6.00 to \$6.50, with heavy calves at from \$5.00 to \$6.00.

Hogs

The hog market has not conformed to the stronger tone which is noticed in the cattle market. The fact is that the offerings are not choice enough, most of the heavy stuff coming much below market fit and as such a heavy cut is made by the buyers. Then again a large number of light pigs are being forced on the market, due to shortage of feed, and all these facts combine to depress the tone of the market considerably. Choice hogs are selling from \$6.25 to \$6.50, not many changing hands, however, at the top price, and it is anticipated that these prices will remain steady for a few days.

Sheep and Lambs

Sheep and lambs do not play a very important part in the livestock transactions at the local yards, sometimes not enough being for sale to create a market. However, prices quoted this week give best lambs at \$6.50 to \$7.00 and best sheep \$5.50 to \$6.00.

Country Produce

Note.—Quotations are f.o.b. Winnipeg, except those for cream, which are f.o.b. point of shipment.

Butter

There is no change in the price paid for butter this week, altho it is expected that there will be an all-round raise in butter prices in the city during the course of a few days. The fact is that dealers are a little dubious about raising the price on account of the fact that so many people now can only afford to buy the inferior grades. No. 1 dairy butter is worth 20 cents, fancy dairy 23 cents and good round lots 16 to 17 cents.

Eggs

There is a large quantity of eggs coming into the market just at the present time, dealers stating that the offerings are fully 50 per cent. in excess of those in the first week in November last year. Such being the case prices remain the same, 20 to 21 cents being paid this week.

Potatoes

Potatoes are just now steady in price. Dealers state that most of the Manitoba offerings for the present have been cleaned up and the supplies are now coming from the East and also from directly across the line to the South. These United States potatoes are being bought by dealers for 57 cents per bushel, hence prices for local potatoes remain as last week, 55 to 60 cents per bushel.

Milk and Cream

As already noted, when mentioning the butter situation, there will be a general raise in butter prices in the course of a few days. There is only half as much cream coming in now as formerly and altho much of the butter made last month went into storage, the general market situation warrants a raise in price paid. Hence, sweet cream butter this week 32 cents per pound of butterfat and sour cream 27 cents. Milk remains the same for November at \$2 10 per hundred pounds.

Hay

Hay prices remain just about unchanged, Red Top being worth from \$10 to \$13 per ton, Upland \$10 to \$12, Midland \$4 to \$8, and Timothy \$14 to \$16.

Dressed Poultry

Dealers state that there is a general glut in the dressed poultry market just now and this has the tendency of lowering prices. It would be advisable for any who contemplate selling poultry in the near future to get into communication with their dealer before shipping, so that advice as to the best time to ship in regard to obtaining the best price may be first of all ascertained.
