

## HE STAYED IN HIS BUNK, AND THE BLACK DIAMOND SAILED FOR VICTORIA.

The Rush, Fate, an Able Seaman, Captain, Charge of the Seized, Sealed and Sealed, Crew Run Away With Him.

VICTORIA, B.C., Aug. 4.—The Black Diamond, reported by the Triumph to have been seized by the United States revenue cutter Rush, sailed into the harbor here last evening. Captain Thomas came ashore and reported that Lieut. Tuttle, three officers and two boat crews boarded him from the Rush on July 11. He sighted the Rush five miles away and immediately made sail, but was overhauled in an hour's time. He kept on his way and after three times ordering him to lay to the Rush steamed across his bows, compelling him to do so.

Lieutenant Tuttle told him he was under seizure and demanded his papers. These Captain Thomas refused to give, and after repeated refusals Lieutenant Tuttle ordered the locker broken open and took charge of the papers.

United States blue jacket was then aboard and given written instructions to take the schooner to Sitka and deliver it over to the Collector. The captain and mate were detained and the crew set at liberty. The Rush then steamed away.

Captain Thomas took the vessel to Ounahka Harbor to see if the English war vessels were there, passing the Rush four days after the seizure, but he was not hailed by her.

Finding no protection at Ounahka he sailed out of Behring Straits and on to Victoria.

John Hawkins, the United States seaman, reported the facts to the consulate and handed over his instructions.

Hawkins says that he was treated well, but that he saw it was useless for him to interfere so he lay in his bunk nearly all the time.

The matter has been wired to Washington. Everybody, particularly sailing men, are delighted with the conduct of the Black Diamond's master, and he is being congratulated on all sides.

### THE DERVISHES ROUTED.

Fifteen Hundred Dead Left on the Field. CAIRO, Aug. 3.—Gen. Grenfell engaged the dervishes near Toki today and completely routed them. Wad-el-Jumi, the dervish leader, was killed. The dervish loss was 1500 killed and wounded. The Egyptian loss was slight.

Besides Wad-el-Jumi the slain on the dervish side include twelve emirs and nearly all the fighting men. Fifty standards were captured by the Egyptians.

General Grenfell marched out of Toki at 5 o'clock this morning with a strong reconnoitering force of cavalry and camelry and advanced close to the dervish camp. Making a feint of retreating he drew the whole of Wad-el-Jumi's force to a point within four miles of Toki. Here the Egyptian infantry were held in readiness for an attack and a general action was at once begun.

The dervishes made a gallant defence but were driven from hill to hill.

The Egyptian cavalry made a succession of effective charges in which Wad-el-Jumi and the emirs were killed. After several hours of hard fighting the dervishes were completely routed.

Bombards are following the scattered remnants of the dervish forces along the river. Later particulars estimate the dervish dead roughly at 1500. The dervishes fought desperately, throwing themselves upon the advancing columns repeatedly and refusing to be taken prisoner.

The crisis of the battle was reached when the dervishes attempted to turn the extreme right of the Egyptians. The readiness of the troops was admirable. The cavalry here swept through the lines of the enemy, breaking them up. No prisoners are reported to have been taken. The cavalry pursued the retreating rebels for miles. General Grenfell ordered the gunboats to pick up fugitives and wounded.

General Grenfell in his official report says the dervishes made repeated and desperate charges on his men. They were met by the infantry in line of battle supported by the 20th Hussars and the Egyptian cavalry. The Egyptian horse artillery fired excellent service. The dervishes numbered 3000 fighting men. The British troops will now return to Cairo.

The Khedive has sent congratulations to General Grenfell. It has been decided that a permanent occupation of Sarras is necessary for the protection of the frontier. A movement upon Dongola is deemed useless unless the Government assent to the view of the English generals that Berber should be held as the true key to the Sudan.

The latest advice given the Egyptian loss as 17 killed and 13 wounded. One thousand dervishes were made prisoners.

AMSTERDAM, Aug. 3.—Intelligence has been received of a fight in Acheen, Sumatra, between natives and a force of Dutch troops. Nineteen Dutchmen were killed and 22 wounded.

### The Maybrick Trial.

LIVERPOOL, Aug. 3.—At the trial of Mrs. Maybrick for the murder of her husband, to-day, Dr. Stevenson, one of the physicians who attended Mr. Maybrick, asserted that all of the patient's symptoms indicated that he was suffering from arsenical poisoning.

A nurse testified that when Mrs. Maybrick tried to persuade her husband to take medicine he objected, saying it was the wrong medicine. On cross-examination, the witness said no improper food or medicine was given to the patient while she was in the house. Mrs. Maybrick had been tender and considerate in her treatment of her husband.

A waiter at Flatman's Hotel identified the prisoner as a woman who had occupied a bedroom in the hotel with one Brierley.

The prosecution then stated that its case was closed.

Sir Charles Russell opened the case for the defence. He made a forcible speech, in which he urged that the jury could not render a judgment against the accused based on a probability, even if supported by the apparent motive for the commission of a crime, if there was a shadow of doubt. He would prove that Mr. Maybrick had been a confirmed taker of arsenic for years.

A witness named Bateson, who lived with Mr. Maybrick in America from 1875 to 1881, Mariner Thompson and a negro named Stanton, who was Mr. Maybrick's former servant, all testified that the deceased took arsenic habitually. A chemist testified that arsenic had been purchased "pick me up" from him, which contained arsenic. Professor Tidy testified that the symptoms manifested by Mr. Maybrick were not typical of arsenical poisoning. The appearance of the internal organs at the post-mortem examination distinctly negatived the theory that death had been caused by arsenic. The appearance of the organs was consistent with the theory that death resulted from gastro-enteritis.

On the increase. Scarcely a day passes without some disease being reported to the attention of our readers. The best blood purifier and alterative known, viz., Burdock Blood Bitters, which unlocks all clogged secretions and removes all blood diseases from a common pimple, to the worst scrofulous sore.

Not Honest, But Frank.

An eastern traveller gives the following account of a brief, pointed, and, we think, rather unsatisfactory interview with an Arab of Jebel Haudeh:

"What brought you to the spring, when you saw us there?" I asked him.

"To strip you," he coolly replied.

"And why did you not do it?"

"Because Mahmud was with you."

"But why would you plunder us? We are strangers and not enemies."

"It is our custom."

"And do you strip all strangers?"

"Yes, all we can get hold of."

"And if they resist, or are too strong for you?"

"In the former case, we shoot them from behind trees; in the latter, we run."

"How do the people of your tribe live? Do they sow or plant?"

"No, we are not slaves," said he, with much disdain.

"What do you do for a living?"

"We keep goats, hunt partridges, and steal."

"Are you all thieves?"

"Yes, all."

How a Dude Taught Cold.

A slim young man in the height of fashion was violently sneezing in a street car, when a companion remarked, "Aw, Chawles, deah boy, how d'ye catch that awful cold." "Aw, deah fellah, left my cane in the lower hall tother day, and in sucking the ivory handle, so I caught cold," he chuckled me almost to death.

"If Charles had used Dr. Harvey's Red Pine Gum his cold would not trouble him very much," or so said J. Wilson's prescription druggstore.

Mrs. Garfield's Fortune.

The subscription raised for Mrs. Garfield through the instrumentality of Cyrus W. Field aggregated, when invested in Government bonds, about \$312,000. General Garfield's life was insured for \$50,000, the payment of which the companies, for the sake of the extended advertisement it would give them, for no other purpose, promptly made. Congress also voted the remainder of the salary which would have been due Gen. Garfield for the first year of service as President, which amounted to \$40,000. The little estate which Garfield left aggregated some \$30,000. It was all that he had been able to accumulate after a life of unusual activity.

This makes her total estate, in round numbers, about \$450,000, a money well invested. From this an income of probably \$16,000 is derived. In addition to this she has from Congress an annual pension of \$5,000, which is now voted to the widows of all ex Presidents. This fortune hasn't decreased since James A. Garfield's death. — Cleveland Plain Dealer.

## Beauty

Is desired and admired by all. Among the things which may best be done to enhance personal beauty is the daily use of Ayer's Hair Vigor.

No matter what the color of the hair, this preparation gives it a lustre and pliancy that adds greatly to its charm. Should the hair be thin, harsh, dry, or turning gray, Ayer's Hair Vigor will restore the color, bring out a new growth, and render the old soft and shiny.

For keeping the scalp clean, cool, and healthy, there is no better preparation in the market.

"I am free to confess that a trial of Ayer's Hair Vigor has convinced me that it is a genuine article. Its use has not only caused the hair of my wife and daughter to be

Abundant and Glossy,

but it has given my rather stunted mustache a respectable length and appearance."

"My hair was coming out (without any assistance from my wife or daughter) I tried Ayer's Hair Vigor, using only one bottle, and I now have as fine a head of hair as any one could wish for."

"I have used Ayer's Hair Vigor in my family for a number of years, and regard it as the best hair preparation I know of. It keeps the scalp clean, the hair soft and lively, and preserves the original color. My wife has used it for a long time with most satisfactory results."—Benjamin M. Johnson, M. D., Thomas Hill, Mo.

"My hair was becoming harsh and dry, but after using half a bottle of Ayer's Hair Vigor it grew black and glossy. I cannot express the joy and gratitude I feel."—Mabel C. Hardy, Delavan, Ill.

Give Them A Chance.

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air-passages, but the thousands of little tubes and cavities leading from them.

When these are clogged and choked with matter which ought not to be there your lungs cannot half do their work. And what they do, they cannot do well.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of them. Just one sure way to get rid of them. That is take Roschke's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

Dangerous Counterfeits.

Counterfeits are always dangerous, more so that they always closely imitate the original in appearance and name. The remarkable success achieved by Nasal Balm as a positive cure for Catarrh and Cold in the Head has induced unprincipled parties to imitate it. The public are cautioned not to be deceived by nostrums imitating Nasal Balm in name and appearance, bearing such names as Nasal Cream, Nasal Balsam, etc. Ask for Nasal Balm and do not take imitation dealers may urge upon you. Not a Book A Cent

Mr. Goode, Druggist, is not a book agent, but has the agency in Goderich for Johnson's Tonic Bitters, which he can heartily recommend for any complaint to which a tonic medicine is applicable. This valuable medicine has been with most astonishingly good results in cases of general debility, weakness, irregularities peculiar to females, extreme paleness, impoverishment of the blood, stomach and liver troubles, loss of appetite, and for that general worn out feeling that nearly every one is troubled with at some part of the year. Don't forget the name Johnson's Tonic Bitters 50c. and \$1 per bottle at Goode's drug store, Albion block, Goderich, sole agent.

The distressing paleness so often observed in young girls and women, is due in a great measure to a lack of the red corpuscles in the blood. To remedy this requires a medicine which produces these necessary little blood constituents, and the best yet discovered is Johnson's Tonic Bitters. Price 50 cents, and \$1 per bottle at Goode's drug store, Albion block, Goderich. Sole agent. [b]
