

One Dose Makes Indigestion Go.

Heartburn, Gas, Headache and other stomach misery vanishes.

If your meals don't fit comfortably, or you feel bloated after eating, and you believe it is the food which fills you; if what little you eat lies like a lump of lead on your stomach; if there is difficulty in breathing after eating, eructations of sour, undigested food and acid, heartburn, brash or a belching of gas, you can make up your mind that you need something to stop food fermentation and cure indigestion.

To make every bite of food you eat aid in the nourishment and strength of your body, you must rid your stomach of poisons, excessive acid and stomach gas, which sours your entire meal—interferes with digestion and causes so many sufferers of Dyspepsia, Sick Headache, Bloating, Constipation, Griping, etc. Your case is no different—you are a stomach sufferer, though you may call it by some other name; your real and only trouble is that which you eat does not digest, but quickly ferments and sours, producing almost any unhealthy condition.

A case of Pape's Diapensin will cost fifty cents at any Pharmacy here, and will convince any stomach sufferer five minutes after taking a single dose that Fermentation and Sour Stomach is causing the misery of indigestion.

No matter if you call your trouble Catarrh of the Stomach, Nervousness or Gastritis, or by any other name—always remember that a certain cure is waiting at any drug store the moment you decide to begin its use.

Pape's Diapensin will regulate any out-of-order Stomach within five minutes, and digest promptly, without any fuss or discomfort, all of any kind of food you eat.

Cripples His Hobby.

Sir Wm. Treloar Looking Into Methods of Aiding Them—Former Lord Mayor of London is a Philanthropist and a Naturalist—Every Christian He sends out Hundreds of Hampers for Poor Children—Queer Ways in Which He Received Contributions.

Sir William Treloar, Lord Mayor of London in 1906-7 and for many years a member of the Corporation of London and sheriff of London, is paying a visit to Canada to observe the methods in vogue for the care of crippled children and other philanthropic objects for which he is well known. The former lord mayor is not only one of the richest but quite the tallest member of the aldermanic body. He stands six feet two in his socks. He is a very keen naturalist and has a splendid aviary in his Norwood home. His favorite is a cockatoo named Cocky, and he rehearses his speeches to it. Sir William, who is a bit of a humorist, declares that the intelligent bird always laughs in the right places.

An amusing simile was that which he gave at a recent meeting of the cage bird show when he said that the lord mayor, like the lizard canary, sheds his fine feathers at the end of a year.

Sir William Treloar believes in fresh air, and the fine house in which he lives at Norwood, formerly the property of Sims Reeves, the celebrated singer, stands as high as the dome of St. Paul's Cathedral. The late Dr. Spurgeon, who lived close by, used to declare that it was possible to taste the salt on the outside of his window panes when the wind was blowing from the channel. Sir William says that he has never sampled the flavor of the window panes himself, being content to take his neighbor's word for it.

In spite of his business ties in the

city the lord mayor found time to travel considerably in Turkey, Palestine and Asia Minor. Every Christmas Sir William, in conjunction with the Ragged School union, sends out many hundreds of hampers containing food and toys for the maimed mites in whom he is interested, and it is worth noting that not one of these hampers is ever lost. The register of cripples is kept right up to date, and every hamper that leaves the guildhall has necessitated personal visitation and verification.

Sir William has had many curious contributions to his fund. One year a man sent a fifty pound note in an ordinary envelope, unfastened. His identity was never discovered, and he does not seem to have had any fear that this strangely made gift would go astray. Another sympathizer sends at regular intervals a couple of stamps, being unable to afford more at one time.

Steamers Arrive.

The S. S. Wasia, coal laden from Sydney, arrived here at 2.30 p.m. yesterday after a run of 2 days. She was off the port in a dense fog about 11.30 Saturday night and her whistle could be heard blowing in the city until 2.30 o'clock.

The S. S. Molino got here at 8 a.m. yesterday from Sydney after a run of 2 days with a coal cargo for the Field Nfld. Co. This ship, like the Wasia, had dense fog almost all the voyage. After discharging she goes up to Manuels to load pebbles for the Atlantic Pebble Co. of New York.

Bruce Passengers.

Bright Future for South Africa.

London, Nov. 9.—The Duke of Connaught, in his speech at the official dinner at Government House, Cape Town, said he looked forward with hope and confidence to the happiness and prosperity of the great South African nation, its people filled with patriotism akin to the love which Britons in other countries—Canadians, Australians, New Zealanders—have for the countries of their birth; and, like them, with that wider patriotism which makes us all alike co-partners in the brotherhood of the British Empire.

You Waste Money

if you don't paint the strongest paint, the least-gallons paint, Devoc.

You waste from a tenth to all your money. The worst is worse than no paint at all; you may have been painting that.

An average paint isn't worth putting on if you get it free—you may have been painting that.

"Good paint" isn't worth putting on; for the best costs less—there are seven other paints, besides Devoc, not adulterated and full-measure; honest and good, but not best—you may have been painting that.

There is only one best: Devoc. It takes best care of a building, wears longest, and costs least money.

There are several paints, that make a good deal of fuss in the world. You may think we can't mean them; but we do. They are not the worst; some are worse but not worst; about middling.

You waste from a quarter to half your money if you paint them. You can do worse; you can waste more; more too; you can damage your building.

What's the use of a paint that costs twice as much and wears half as long?

Paint half your job Devoc; paint the other half whatever you like. If Devoc doesn't take less gallons and cost less money, no pay.

Kept Promise to His Mother.

Followers of the turf will regret to hear that Mr. Harry Henderson, the celebrated local gentleman rider, has retired from the turf for good.

"I promised my mother I would retire if I won in Ottawa," he said, "therefore I am finished."

Mr. Henderson showed his superior horsemanship and cool head once more to the Governor-General Saturday. The game little rider won a 3 mile steeplechase in the rain by a nose in a hard drive, winning the Woods' Cup for the second time, or two years in succession. As the result, it has been decided by him that he will never face the flag with the silks on again.

Mr. Henderson first became known in 1895, when he won the Canadian Derby on Milton, 1 mile for 2 year olds in a field of 18 starters. He rode on the flat till 1903, then started to ride jumpers and broke his maiden in the first race through the field. On the famous horse King Top, at Saratoga, N.Y., he landed the horse a safe winner at 100 to 1, the longest price horse that ever won through the field. It became common for Mr. Henderson to win two races in an afternoon, and in 1907 he won three steeplechases in the same afternoon. This, up till then, had never been known in all records.

London, Nov. 8.—The situation in the South Wales coal fields, where 30,000 miners are on strike because of the employment of non-union men, became so threatening to-day that the local authorities applied for the services of British cavalry.

The Government ordered the 18th Hussars in readiness to support the police, who thus far have had the worst of it in their conflicts with the striking miners.

Globe Laundry at St. John, N.B., Almost Destroyed

St. John, N. B., Nov. 9.—The Globe Laundry, owned and operated by Vall Bros., was gutted by fire which broke out about 1.30 a.m. to-day. The buildings adjoining, owned by P. J. Gorman, butcher, and Amund Bros., Ltd., furniture dealers, and dwelling in the rear, owned by E. A. Hatchford were slightly damaged. Only the promptest work on the part of the firemen prevented the spread of the fire to the surrounding wooden buildings. Vall Bros. have arranged with other laundries to look after their business, and the others affected by the fire will commence repairs at once.

Vall Bros. estimate their loss at \$15,000 to \$20,000; insurance on buildings and machinery, \$8,000, placed as follows: Norwich Union, \$2,000; St. Paul, \$1,250; Dominion, \$2,000; Aetna, \$1,000; German-American, \$1,000; Rochester German, \$750. Insurance on Gorman's and Hatchford's and Amund buildings, and the latter's stock, on which the loss will not be great, was placed as follows: Home, \$1,300; Commercial Union, \$500; Fidelity, Phoenix, \$1,000; Norwich Union, \$1,000; German American, \$500; Guardian, \$3,500; E. L. Jarvis, \$2,200.

Yesterday's Parades.

Under the command of Lieut. Rendell the C. L. B. turned out in full force yesterday at 2.30 p.m. and marched to the Cathedral from the Armoury. Rev. Canon White preached the sermon which was instructive and helpful. The Lord Bishop pronounced the Benediction. The service was most impressive and the lads listened with close attention to the Chaplain's interesting discourse. The ranks were reformed after the service and the lads marched back to headquarters to the fine music of the band. In the procession were many of the old lads who turned up to celebrate the 19th anniversary.

HIGHLANDERS OUT.

The parade of the Newfoundland Highlanders under Lieut-Col. McNeil yesterday to St. Andrew's Church was a successful event. The lads—about 70—in their kilts paraded to St. Andrew's in the morning where Rev. J. S. Sutherland preached an eloquent sermon which made a deep impression on the hearers. After service the Brigade returned to the Armoury by way of Theatre Hill, Adelaide Street, Water Street and King's Road. The pipers played stirring airs along the route. On reaching the Armoury Rev. Mr. Sutherland again addressed the boys and gave them good advice on the necessity of living up to the principles of their religion. It was announced that Corp. Ledingham's squad had won the shield.

Be Sober and Watch.

A very large attendance of members was present at the T. A. & B. Society's monthly meeting yesterday afternoon. Three applicants were admitted unanimously. The rev. Spiritual Director gave a short instructive discourse. After the routine business was disposed of, important legislation was gone into regarding the Club's management. It was decided to place it under a new directorate, composed of seven members to be elected annually, and to commence next month. This course was recommended by the Executive. It met with the approval of the members and it passed accordingly. The worthy President, Mr. Ellis, tabled a letter he had received from one of our city brokers, which was read by Mr. Coughlan. The writer asked the Society if they would be willing to sell the T. A. Hall and the land surrounding it. An answer was requested by Tuesday next. A long discussion followed in which several members took part. A three months' option on the property is asked for. No definite decision was arrived at by the Society. The Executive will have a special meeting in reference to the question during the week.

A vote of condolence was then moved and carried unanimously re the Regulus and Golden Arrow sufferers, and a collection will be taken up by the members during the coming weeks of the present month. At 6.30 an adjournment was taken.

The Regulus Enquiry.

The Marine Court of Enquiry held its final sitting in connection with the Regulus enquiry Saturday afternoon when the evidence of Mr. Boyd, Lloyd's Surveyor, and Mr. A. D. Brown were taken. The finding of the Court will be embodied in a report which will be forwarded to the Government, who will send it to the Board of Trade in England.
