Accidentally Shot.

Saturday at Red Head Cove Ronald Colbert was in the act of taking a deer out of a loaded gun, and as he had the muzzle pointed towards him the piece exploded and the charge took him in the side of the face which was terribly lacerated. He died profusely and a number of heavy shot lodged in the flesh. The thumb and part of the index finger were blown off and passengers by the train to-day say that he will lose the sight of one eye. Dr. Peckford is looking after the man.

HALIFAX, To-Day.
There is no word yet from the S. S. Morian, which had a cargo of coal from Louisburg to Placentia.

OTTAWA, To-Day.
The steamer Arctic, the ship in which Capt. Bernier made a memorable cruise in the Arctic seas, goes north no more. The Marine Department is fitting her out as a lightship to be stationed at South Saguenay.

RIEKA, To-Day.
Montenegro held a prolonged council of war here. King Nicholas presided and a Bulgarian Minister was in attendance. Important decisions were taken in respect of future operations against Scutari. General Vukotich will take command of Montenegrin forces. General Martinovitch, who attended the council, left immediately for Montenegrin positions near Tarabosh to continue energetic operations.

NEW YORK, To-Day.
Brooklyn's East River waterfront was the scene this afternoon of the most serious explosion and fire which that section has known for years. Fifteen men were removed to the hospital, suffering from burns, from which a number may die. Several persons on the scene at the time are missing to-night, but late reports discredited the earlier belief that several lives had been lost. Three blocks were swept and the loss is a million dollars.

MOBILE, Ala., To-Day.
With bow stove in and forepeak filled by a collision with the American schooner James Pierce off Bahamas, on November 19th, the Norwegian steamship Fram reached Mobile. The Pierce was abandoned at sea after the crew of fifteen men had been taken off by the Fram. The collision bulkhead alone saved the steamer from sinking. The Pierce was coal laden and bound from Philadelphia to Porto Rico. They were six hundred miles from Cape Hatteras when the collision occurred.

CONSTANTINOPLE, To-Day.
A long official communication was published here explaining the Government's action against the Union Progress Party. It asserts that a demonstration of students and others around the Porte on Oct. 7th demanded war. There were numerous influential young Turks who endeavored to inflame the populace by accusing the Government of selling the country. Police inquiries proved that on the departure of the army for the field of battle, delegates were similarly employed urging soldiers not to fight for a traitorous government. One delegate even undertook the task of making an attempt against the lives of the Sultan and his Ministers by bombs.

IN THE YEAR 1932

how much will you have accumulated at your present rate of saving? Most men will have little or nothing saved if conditions are at all similar to those of to-day.

Every prominent young man appreciates the wisdom of accumulating for his own benefit at least, and looks forward to an old age of comfort and enjoyment relieved from want and worry. And every thoughtful man endowed with manhood feels that a duty rests upon him to make some provision for others dependent upon him.

The safest, simplest and most profitable way to accomplish all this, and to be sure of a snug competency by the year 1932, is by investing in a Canada Life Endowment Policy for \$5,000 or \$10,000, according to your means and requirements. The policy can be bought on easy instalments and facilities are provided to assist in carrying and enjoying the insurance.

Send in your name and age and let us submit to you a good proposition.
