

"A LITTLE GOES A LONG WAY."

Something New, Useful, Economical and "Tasty"

Shirriff's highly concentrated Fruit Syrups all ready for mixing with water. Two teaspoonfuls make a glass of the purest and most delicious drink. Very thirst-quenching and absolutely pure. Shirriff's is the strongest Syrup you ever tasted. It costs a few cents more than ordinary kinds, but it makes a great many more drinks—and better drinks. There is no comparison between Shirriff's and the other kind. You will say so too, when you try Shirriff's. Fifty cents a bottle at grocery stores.

Be sure you get the right kind—SHIRRIFF'S. If your grocer hasn't it, phone us and we will tell you the nearest grocer to your home that has, for you should not be without this delicious beverage one single day longer.

Gerald S. Doyle,

Agent for SHIRRIFF'S.

"It's economical because it is so strong."

PELLEY'S BRICK

THE GLYNN MILLS HOTEL

at CORNER BROOK is faced with PELLEY'S BRICK. Imported Brick were to have been used, but the promoters saw a car load of PELLEY'S BRICK being unloaded at Corner Brook and, recognizing its superior quality actually secured enough of that carload to start up this work until further supplies could be sent them by rail.

Those big brainy Englishmen have given us such an uplift, that we have scrapped all our old methods of manufacture, and put in a modern machine that will still further improve the quality of our Brick.

DIARRHOEA. This is a word we don't generally like to use but in St. John's it looms up like a great big evil giant and if we don't kill it, it will kill us. It is so powerful that it employs millions of little germs that invade the homes of rich and poor. And every year it takes its toll of a certain number of lives, children that should grow up to be strong men and women.

We must fight it and each year it will get less and less until there is none at all.

Other Cities of our size don't have it, why should we? The germs breed in dust bins, waste pails, dirty jugs and pans, dirty bottles, dummies and teats and on stale food especially milk. The germs are carried to baby's food:

Careless handling.

Using dirty water and cloths for washing up. Be especially careful just now for this "evil giant" is in our midst.

COD LIVER OIL. I don't know whether you have noticed it but there has been quite a lot of talk about Cod Liver Oil in the papers lately. Its quite wonderful to think that we live in the land where the very best Cod Liver Oil is produced. And since it has been found so very important in giving Baby strong bones and clear eyes, and preventing two very serious diseases, give baby some every day till he is six years old.

Costly Film is Coming to Star

"HUNCHBACK OF NOTRE DAME" IS CHANGED TO AVOID OFFENDING ANY CREED.

At the Star Theatre Monday night will be held the local premier of "The Hunchback of Notre Dame," the pictured version of Victor Hugo's classic which has come down through the ages with untarnished lustre. Aside from the natural interest in the screening of such a notable masterpiece, there is a general interest to see the production which required more than a year to film and on which more than \$1,500,000 was expended. Liberties were taken with the story—being defended on the ground that a production intended for all classes could not afford to offend and particular religion dehomination—but while many shook their heads and predicted dire failure as a result, the changes were all approved by the New York critics after the world premier in the Apollo Theatre.

Certainly all the elements of success are contained in the production—Universal had the story, the title, the cast, and unlimited funds. Local verification of the New York opinion will be watched with interest. The selection of Lon Chaney for the title role of "Quasimodo, the Hunchback" was a logical one. His amazing ability to portray characters such as he played in "The Miracle Man," "Outside the Law," and "Shadows," roles which required contortion ability as well as unusual dramatic training, is well known. It is claimed that Chaney required four and one-half hours daily to don the make-up of the deformed bell-ringer of Notre Dame.

The Cathedral of Notre Dame was constructed in its entirety at Universal City for the production, as were eight squares of Parisian streets of the period of Louis XI.

TO-DAY'S MESSAGES.

THE LAST SEEN OF LOCATELLI

WASHINGTON, Aug. 23. The Army Air Service was officially advised to-night that the United States world fliers had reached Greenland. The information was contained in a message from the cruiser Milwaukee, which said that Lieut. Locatelli, the Italian aviator, who started from Iceland with the United States fliers on their 725 mile hop when last heard of was preceding them by forty minutes. The dispatch which was undated was signed by Lieut. Bissell, of the Army Service, and was filed by way of Louisville, Ky. It said "Smith and Nelson arrived safely at Fredericksdale. Nothing definite from Locatelli who, when last heard from, was preceding our planes by forty minutes. Details later."

COMMUNIST DEFTS THE REICHSTAG RULES OF ORDER

BERLIN, Aug. 23. A lone Communist to-day succeeded in defying the Reichstag's rules of order and President Wallra's bell for more than three hours, finally forcing an adjournment of Parliament and compelling the Cabinet members to retire from the government bench without having submitted the government's statement on the work of the International Conference in London. President Wallra was helpless in the face of the Communist obstructionist tactics as the House rules do not permit of such an expedient as police intervention, and Dr. Schwarz, a graded school teacher and Communist deputy therefore laughed off the president's order to quit the Chamber. Chancellor Marx, Foreign Minister Stresemann, and Finance Minister Luther who were prepared to discuss the London agreement looked on in disgust, while the House committee sought to find a solution to the situation. Chancellor Marx finally left the government bench followed by Dr. Stresemann and the other members of the Cabinet.

LISTENERS IN OT MARS HEAR STRANGE SOUNDS.

LONDON, Aug. 23. An attempt by a British wireless expert to listen in on Mars resulted in strange noises being heard at one o'clock this morning. The source of the noises could not be ascertained by the experts. The attempt was made on a twenty-four valve tube set erected on a hill at Dulwich. Representatives of the Marconi Co., and of London universities were present. Tuning in started at 12.30 o'clock a.m., and at one a.m. on a thirty thousand radius, sounds were heard which could not be likened to harsh dots but they could not be interpreted as Morse code. The noises continued off and on for three minutes in groups of four and five dots.
