

Site for Peter Pan Selected

On Saturday the members of the Municipal Council and Sir George Thompson, B.A., visited Bowring Park to consider a site for the statue of Peter Pan, to be erected by Sir George Thompson, to little Betty Moon and her father, J. S. Moon, Esq., who died in the Florida disaster. The site selected is the lawn at the left of the main entrance to the Park and overlooking the lake.

Sir George Thompson, the designer of the Statue, is one of the most distinguished of British artists, being a Royal Academician since 1902 and A.A.A. since 1918. He is a Fellow of the Society of Antiquaries; Hon. Associate of the Royal Institute of British Architects; a Member of the Royal Academy of Fine Arts, Milan, Italy; a Master of the Art Workers' Guild and was President of the Society of British Sculptors 1911-12. Knighthood was conferred on him in 1908.

McMurdo's Store News

YOUR FAVOURITE.

Every man gets attached to certain kinds of shaving creams, brushes and soaps. We keep a complete stock of all shaving accessories on hand. We save out of just what you want, save time and buy here.

STOCK MARKET NEWS

(Boston Commercial, Aug. 1.)
RADIO CORP.

While it was expected the second quarter's earnings of Radio Corporation of America would be poor, for besides the usual seasonal falling off there had been the unsettled condition of the industry to contend with, the Street was surprised with a report of \$391,053 after depreciation, patent amortization, federal taxes and accrued reserve for the year-end adjustments. Gross for second quarter was but \$4,584,465, against \$15,283,323 for the first quarter. This was the price the company paid for its firm attitude toward stabilization of the industry at a time when other radio companies were more or less panic-stricken and were offering their shares often enough at tremendous prices. No figures for the second quarter a year ago are available to compare with, but it is learned there was no deficit and that the quarter's net approximated 5 p.c. of the gross.

For six months of 1925 net was \$1,327,276, equivalent after preferred dividends to 73 cents a share on 1,854,000 no-par shares, against about \$1,277,276, or 90 cents a share for first half of 1924.

There is no let-up in the company's efforts to reduce intangibles and apply large sums to reserves. Expense depreciation, patent amortization and accrued reserves for first quarter of 1925 were \$4,975,518 and the first six months \$13,277,112, this being outside of regular 7 p.c. preferred dividend payments on \$95,597 shares of \$50 par outstanding. Generalboard has made it plain there will be no dividends on the minor shares until the intangibles are eliminated, and, as he said, "Prudence would dictate that this be done." For the year ended Dec. 31, 1924, the policy of reducing intangibles was strongly indicated. After providing taxes, patent amortization, reserves and various write-offs, which even included provision for the 1925 dividends there was a surplus equal to \$2.90 a share on the common.

There was in that year a total of \$72,290 of extraordinary charges, equal to \$2.31 a share on the common. Working capital at end of 1924 stood at \$15,377,403.

WILLIYS-OVERLAND.

Willis-Overland, Inc., in the first six months of 1925 produced 109,294 cars compared with 98,244 cars in the same period of 1924 and 149,345 cars in the entire year 1924.

President John N. Willlys says: "Our car shipments for first six months of 1925 absorbed practically the entire output, and throughout this period despite attempts to bring production schedules up to instant demand, we could not build cars fast enough. We were constantly behind our deliveries, and our production is still beneath our orders on hand. I am firmly convinced, not only from our own sales and production records, but from the generally firm state of business conditions that 1925 will see the 'bumper' year in the automobile industry."
