DUTTON, ONT., MARCH 15, 1938

NOTES

Last year, it is stated, that the government received a revenue of \$2,350,000 for liquor sold by its dispensaries. It would be interesting to figure out the sum received by the medical men for the "pers" used by them.

The Adolescent Act is receiving many adverse criticisms, but it is left with the Real Estate Owners' Association, of London, to pronounce as follows: "That the Act will prove in ten years' time the biggest curse rapid educationists have ever run up against; it will act as a boomerang upon the school teachers by filling our cities with an army of half-witted professors and school teachers looking for jobs with toes out of their shoes and their coats worn out at the elbows."

To the farmers of Canada is due the credit of the rapidity with which the country is being restored to the pre-war conditions. J. H. Gundy, of Toronto, emphasised this when, in addressing a meeting at Hamilton, he pointed out that the value of Canadian produce had increased in the past ten years from \$500,000,000 to \$984,000,000. Canadian farmers were responsible for this increase, and none could gainsay that they were probably the vital factor in helping the Canadian dollar to get back at par.

"Our Canadian farmers," he stated, "have affected this increased production from the soil without any great corresponding increase in population. It is such production as this that will enable us to keep our finances sterilized."

PRICES IN GREAT BRITAIN

Ontario Farmers To Be Kept Posted in Market Quotations

The completion of arrangements will give the Ontario farmer necessary information to intelligently market his produce in Great Britain has been announced from the Parliament buildings from the office of the Department of Agriculture. It is stated that, commencing April 1st, the department will receive twice weekly a cable letter from England, which will give the prevailing prices of the more important agricultural commodities, and the general market outlook for agricultural products. This letter, which will be received in code, will be decoded and transmitted to the press of the Province.

The statement in which the announcement of the bulletin was made stated in part: "A cable letter will be received here twice weekly, giving the prevailing market prices for cheese, butter, bacon, condensed milk, tobacco, fruits (fresh and canned), cattle, and eggs. In addition to the prices, the market outlook and general market conditions will be set forth. "The object of this service is to provide a regular and authentic source of market information for the Ontario farmer."

TO REGULATE ONTARIO'S GARAGES

An Act to regulate public automobile garages and service stations has been introduced in the Ontario Legislature. The bill has been brought forward by the Labor group in the House.

The bill calls for the appointment of a board of examiners consisting of three competent mechanics, skilled in the practical construction, operation and repair of motor vehicles, and qualified to pass the examination of first-class automobile mechanics. This board would determine the subjects in which candidates for certificate of qualification as automobile mechanics would be examined and also supervise the examinations.

According to the terms of the new Act all men employed in garages as mechanics must first obtain either a first-class or second-class certificate and in order to secure same must pass an examination conducted by the Provincial Board of Examiners. Also the garages themselves would be licensed and subject to inspection by Government officials at any time, under penalty of a \$200 fine.

Vimy Ridge Shoe Hospital

Repairs Neatly and Promptly Done
 There are two reasons why you should have your shoes repaired at Vimy Ridge:
 1. Because none but the best of leather and other material are used in this store.
 2. Because my solvent system appeals to all interested in solving the underfoot problem.

BIBLE SOCIETY MEETING

The annual meeting of the Bible Society was held in the Methodist church on Wednesday evening. The attendance was fairly good but not large enough to show the appreciation which the Society really deserves. Rev. Mr. Bowen said Large and Wallace town branches showed much greater interest by their larger audiences and more generous contributions.

The pastor conducted the devotional exercises and A. E. Cantelon, president, and R. K. Panter gave the business report.

Rev. Mr. Bowen gave an eloquent address, replete with up-to-date information, which cheered and encouraged his hearers. In speaking of Russia, he said that country, under the Soviet regime, had largely suppressed religious activities, endeavored to stamp out the Christmas spirit, had ridiculed the writers of the Gospels and had glorified Lenin and Trotsky as saints and had burnt God in effigy, was now, under the encouragement of the government, asking the Bible Society to send in several thousands of copies of the Scriptures.

COMMISSIONERS NAMED

At the meeting of the London Presbytery on Tuesday Rev. Dr. Gaudier, of Knox College, was nominated for moderator of the General Assembly. The presbytery chose as its ministerial commissioners: Rev. W. G. Ross, of Delaware; Rev. J. U. Stewart, of Belmont; Rev. J. D. Bannatyne, of Bethel; Rev. N. Stevenson, of Lambeth; Rev. W. Gaud, of Formosa (home on furlough); Rev. N. A. Campbell, of Ilderton, and Rev. A. L. Orr, of West Lorne.

Lay commissioners will not be chosen until later, as a committee is to deal with a selection in the interim. London will have no minister commissioner, as no city churches are entitled to representation this year under the rotation plan.
