Mr. Neale's Creditor Calls.

Yesterday afternoon Division Court Bailiff Burns, accompanied by his assistant, John Beaton, called at the residence of Mr. Neale on Burwell street. The visitors were armed with a writ of attachment issued at the instance of a Dundas street grocer, and their object was to annex the chattels of the missing minister as security for an unpaid grocery bill. As the house contained hardly anything but rented furniture, the choice of the visitors was limited to a few small articles and a handsome writing desk. They decided to take the latter, and with difficulty succeeded in getting it through one of the windows. The article is probably worth \$50, and is considered sufficient security for the account, which amounts to \$20 28. Nothing has been heard from Mr. Neale since his letter from Buffalo received in the city yesterday, saying that London would hear from him again.

Indigestion

I S not only a distressing complaint, of itself, but, by causing the blood to become depraved and the system enfecbled, is the parent of innumerable maladies. when complicated with Liver Complaint, is proved by the following testimony from Mrs. Joseph Lake, of Brockway Centre, Mich.:—

"Liver complaint and indigestion made my life a burden and came near ending my existence. For more than four years I suffered untold agony, was reduced almost to a skeleton, and hardly had strength to drag myself about. All kinds of food distressed me, and only the most delicate could be digested at all. Within the time mentioned several physicians treated me without giving relief. Nothing that I took seemed to do any permanent good until I commenced the use of Ayer's Sarsaparilla, which has produced wonderful results. Soon after commencing to take the Sarsaparilla I could see an improvement in my condition. My appetite began to return and with it came the ability to digest all the food taken, my strength improved each day, and after a few all the food taken, my strength im-proved each day, and after a few months of faithful attention to your directions, I found myself a well woman, able to attend to all household duties. The medicine has given me a new lease of life."
