THE ADVANCE IN CHEESE. Montreal Trade Bulletin. The recent advance in the price of cheese, in our opinion, has been due mainly to the fact that English buyers have at last begun to appreciate the significance of the shortage in their own make. No report of decreased production on this side of the Atlantic would have the slightest effect on the other side, for, as a rule. the shorter the make reported in Canada, the larger has it turned out in reality. Nothing less, therefore, than the realization of the fact under their own noses has convinced them that they have now to face a short make oats are sold at 65c. Tomatoes were out that the fall production in Canada is below the average, the recent advance in values may not only be maintained, but materially enhanced. After all 8 1-4c to 8 1-2c for going up, 20c being asked for a single latter part of July and early August goods cannot be called high; and we sincerely hope, for the sake of Canadian as well as English makers, that prices may go to 9c and 10c. -The rifle team of Wolseley Baricks has left to compete in the D. R. matches at Toronto. Sergt. E. H. Price writes to refute certain statements made in a contemporary, which announced that team had first withdrawn from the matches "through poverty," but had since succeeded in borrowing enough money to carry them to Toronto. Sergt. Price points out that the non-receipt of any money since last month did not make the slightest difference to the U. "Diab" Janes the second students of Secretary of the Navy, Wm. C. Whitney, was celebrated at noon today at "The Breakers," the Vanderbilt sum-

pointment to the exclusive set in so-ciety here, because it was strictly for the family. This was necessary on account of Mr. Vanderbilt's health. Therefore only about 50 persons were

ELABORATE DECORATION was in the Grand Hall, through which the bridal party passed on their way to the gold room, in which the cere-mony was performed. Cascades of the finest asparagus and maiden-hair ferns fell from the sides of the lofty hall, and from the captials of the columns that support the gallery. White lilies, hydrangea, white and pink roses, and gladiodi literally flooded the green draperies. White and pink peas were also used in the twelve festoons of ferns, which reached almost to the floor. The columns, which support the arches, were guarded by rose-tree sentinels from a turf of the finest ferns. At the head of the grand stairway stood a palm 30 feet high. Garlands were festooned on the massive pillars, and the balustrade of the staircase was interwoven with

An enthusiastic meeting of the Ladies' Auxiliary of the Young Men's Christian Association was held yesterday afternoon, and plans were formulated for taking charge of the street railway system on Sept. 3. A large number of ladies have volunteered to act as conductors on that day-there will probably be two lady conductors on each car, and the public may depend upon it that no one will ride free. There will be special attractions at the Military School and at Springbank—possibly refreshments at the latter. The cars will be handsomely decorated, Special tickets have been issued, the sale of which the ladies are pushing, but the regular fares will also be accepted. The proceeds go towards furnishing the new Y. M. C. A. building.
