THOUGHTS THAT BREATHE.

He who does not appreciate is he who generally considers himself unappreciated. —[Katherine Mabley Corbett.

Never expect women to be sincere, s long as they are educated to think that the think that their first aim in life is to please. —[Marie Ebner-Eschenbach.

The hope of the future depends on quick-ening the moral sensibilities of the whole people, of establishing life upon the foundation of the Golden Rule, at all times insisting upon liberty, fraternity, and justice for every man, woman and child.

John Friend, People's Confectioner. - Re-26 years. The first record was made by the Scotia, and the last by the City of Paris.

1852—City of Paris. ... 8 15 88 "The best eastward record is held by the "Faris' twin sister, the City of New York," continued Capt. Watkins, "and it is 6 days, obours, 20 minutes. She rau 2,898 miles at an average speed of 20.07 knots per hour. All the records, you will notice, are made on western voyages. That is because of the superior quality of the coal we get on the other side, and for several minor

reasons. [A "knot" is a division of the ship's log line, used to measure the speed of the vessel. The number of knots which run off from the reel in half a minute shows the number of miles the vessel sails in an hour. Hence when she goes twenty miles an hour she is said to go twenty knots. The nautical mile is 6,086.7 feet, while the ordinary mile is 5,280 feet, or 800 less than the nautical mile or knot.]

The tobacco of Martinico was once the favorite of the smoking world, and when old Father Hennipen descended the Mississippi about 1680 the Indians were much surprised to see a European with such an excellent sample of their native plant. But the smokers of the "Myrtle Navy" would give but a poor account of the once celebrated Martinico. Their favorite brand is as much superior to it as it was to the raw and uncured leaf which the Indians of that day smoked.
