BELMONT SILVER MINES OF KERR LAKE, Limited

Incorporated Under the Ontario Companies Act.

Authorized Capital - \$2,000,000

Divided into 2,000,000 shares of the par value of \$1.00 each. Fully paid and non-assessable.

PresidentJAMES CURRY Vice-President HON. GEO. T. BAIRD Secretary-Treasurer...WHITFIELD VANDUSEN T. W. HORN. J. A. McKEE.

BANKERS: METROPOLITAN BANK, TORONTO.

Head Office of the Company: 29 Jordan Street, Toronto.

A LIMITED NUMBER OF SHARES AT 25 CENTS

I am offering a limited portion of fully paid-up shares of \$1 each of the Belmont Silver Mines of Kerr Lake, at 25c a share. This offer may be withdrawn any day—this is an opportunity to get in at a ground floor figure on one of the best appearing propositions in the Cobalt district.

THE COMPANY'S PROPERTIES

(1) The north-east corner of lot 2 in the 4th concession of the township of Coleman, free of encumbrance and exempt from all royalty. This property consists of forty acres (see map, section inclosed by black rule), in the rich Crown Reserve, Kerr Lake district, directly adjoining the well-known Drummond and Hargraves Mines and only a few chains distant from the famous Crown Reserve and Kerr

(2) The south half of the north half of lot No. 4, in the 11th concession of the township of Lorrain, Nipissing district, containing two claims of forty acres each, also free from encumbrance and exempt from royalty.

The forty acres in the rich Crown Reserve, Kerr lake district, it is believed, on further development work, will prove equally as valuable as any of the rich neighboring properties. The situation is ideal being near the greatest shippers of the Cobalt camp. About \$20,000 worth of honest work has been done, which resulted in nearly 4,000 feet of trenching, and three shafts being sunk from 20 to 50 feet in depth. Some promising veins, one measuring over four inches, have been discovered and developed under the management of Mr. Ward, superintendent of the Little Nipissing and Michigan Cobalt Mines.

An important and promising feature is that on the Hargraves claim, adjoining the Belmont Silver Mines of Kerr Lake, Limited, two large veins have been discovered-the "Jacobs" vein, 6 inches in width, and already uncovered for a distance of 400 feet, and an 18-inch vein paralleling the "Jacobs" vein, of which over 60 feet has been laid bare, and from all appearances bids for prominence with the Crown Reserve showing. Both of these rich-appearing veins are heading for the Belmont. This makes the Belmont one of the best propositions in the C balt district. The

shares should in a few months sell at double or, perhaps, three times the present price, 25c a share.

SOME RICH NEIGHBORS

The Crown Reserve Mine consists of about 22 acres, or about half the size of one claim in this company. The Crown Reserve stock is now quoted at \$3.40 for shares the par value of \$1.00, while the Kerr Lake Stock is over \$8,00 per share for shares of the par value of \$5.00.

These figures show that the Belmont proposition is the most attractive in the Cobalt camp, and affords another opportunity to profit by a low-priced issue in this Just consider these two important points-its close proximity to so many rich

silver mines-The Hargraves, Drummond, Crown Reserve and Kerr Lake-and the fact that the two large veins recently uncovered on the Hargraves head directly for Only a limited portion of this stock on sale. Applications should be accompanied by checks, payable to the order of the Metropolitan Bank of Toronto, who

will act as trustees, and certificates of stock will be issued on payment thereof. The vendors reserve the right to withdraw the shares from sale, or to increase prices, or to refuse any application, or to accept applications for a less number of shares than applied for, in which case the excess of money will be returned. Any
