

AN ALL-CANADIAN
EXPOSITION 1912Winnipeg Is Pushing the Project
in True Western Can-
adian Style.

IT WILL COST \$5,000,000

Committee Agree to Raise \$2,000,000
Toward This Expenditure—A Grand
Scheme on Hand.

An active campaign for an All-Canadian Exposition and Selkirk Centennial, to be held in Winnipeg in 1912, is under way, a strong deputation having been in Ottawa recently to interview Sir Wilfrid Laurier.

Mr. Chas. T. Roland, one of the committee is at the present time stopping at the Tecumseh House, and he gave some particulars of the proposed exposition to The Advertiser.

The city of Winnipeg will give \$1,000,000 to finance the undertaking, and the businessmen of the city will guarantee \$500,000.

The Dominion Government will be asked to give \$2,500,000 towards defraying the expenses.

In addition each province will be asked to erect a building similar to the state buildings at the World's Fair and Pan-American, and many other interesting features.

It is proposed to hold the exhibition in 1912, and it is the intention to prosecute a vigorous publicity campaign to insure the success of the undertaking.

The Cost.
It is estimated that it will cost between \$4,000,000 and \$5,000,000 to finance it, and the committee in charge have agreed to raise \$2,000,000 towards that object.

The Government will be asked to grant the rest of it. An answer from Sir Wilfrid Laurier is expected when Hon. W. S. Fielding returns from abroad.

Ontario Is Interested.
The Winnipeg promoters are working hard to make it, and none are more enthusiastic than Mr. Roland.

"You of Ontario have, I think, a selfish motive as well as a patriotic interest in our 1912 exposition," said Mr. Roland, "for in the trade of the west annually there are enormous quantities of goods consumed which are the products of your thriving factories.

Eighteen millions in agricultural implements, over \$5,000,000 in boots and shoes, besides various other goods, run well up in the hundreds of thousands. If we can take from you these vast amounts of finished products when only nine million acres of land is under cultivation, what will be the result when one hundred million of the two hundred million acres available are put in operation? The possibilities are simply staggering.

The Idea of Canada.
There are many thousands of people in Europe and the United States who undoubtedly still have but a crude idea of this Canada of ours; its immense area of arable land, the future home of millions, its great wealth of undeveloped mineral resources, its great timber areas; its great fisheries, its great opportunities for the creation of wealth by the manufacturer of its raw materials, and it is still in spite of all our expenditures on publicity looked upon as a new country in a somewhat raw state. Now, so long as this impression prevails, it is going to be difficult, if not impossible, to induce the desirable classes to come here in any great numbers. We can get some of them. The more adventurous spirits are doing so, but it is not essential at this stage of our growth and development to ally, if possible, this feeling and to show to the people of the world that Canada is not crude, raw or unorganized, undeveloped or whatever other erroneous impression they may have, but it is a nation bound together by the strongest ties of patriotism and loyalty to the motherland; a nation sufficiently advanced to invite the world to bring the best products they have to Canada in 1912 to compare and compete with our own.Results Expected.
"Surely we cannot doubt that such an invitation will be accepted; neither can we doubt that the result of such an invitation can be anything but beneficial to Canada and productive of results which could be obtained by no other means. For instance: The exposition would attract thousands of people who could be got here in no other way. Some would come from curiosity and would end by becoming either investors, settlers or immigration agents, who would give the good news to their friends at home who are looking for new opportunities or a new location. Some would come looking for new openings for business, and would probably, attracted by the opportunities here, be induced to open up some new industry in Canada for the investment of surplus capital, of which there is plenty in Europe."

LEFT SCRANTON TO WED

Scranton, Pa., July 9.—Bella Weaver, of No. 5 Just Right Place, Scranton, who is supposed to be the woman killed by a train at Chatham yesterday, went to Buffalo, N.Y., on Monday.

She lived with her parents here. Her mother said that Bella went to Buffalo to marry a man named Edward Edmunds, formerly of Scranton, supposed to be working in a Buffalo lunch room. Her father is W. S. Weaver, a coal miner.

Miss Weaver had dark hair, dark eyes, one tooth missing, was of dark complexion, weighed about 130 pounds, and was attractive looking. She wore a green or blue suit when she left home.

It is believed she is the girl who was killed. There is considerable mystery about her going away and particularly her being in Canada.

DETROIT EXPLOSION
WRECKS MUCH GLASS

Attempt Made to Destroy Property of Big Construction Plant

Detroit, July 9.—As an outcome, the police think, of labor troubles, a suitcase containing gunpowder was placed under a pile of steel girders early today in the yard of the Whitehead and Kales plant on Beecher avenue, and exploded. The terrific explosion wrecked windows for half a mile around, causing considerable damage to nearby factories, especially the plant of the Seitz Auto and Transmission Company, where all of the windows were smashed and some of the machinery was thrown off its balance.

The girders were for use in an extension to the postoffice which is being constructed by Whitehead & Kales. The firm is conducted as an "open shop," and had more or less labor trouble as a result.

TARIFF BILL FIGHT
SHIFTS TO THE HOUSE

Senators Through With Tinkering and Representatives Will Now Tackle It

Washington, July 9.—The scene of the great battle over the tariff bill shifts now from the Senate to the House of Representatives. The members of the House, relying to the call of the whips, flocked from all directions to Washington yesterday and today, and the outlook this morning was that when the House convened tonight there would be full attendance on both sides to welcome the bill, over which the Senate wrestled yesterday until nearly midnight.

The final vote in the Senate, passing the bill by a vote of 45 to 34, was announced at 11:15 p.m., after a weary day of protracted debate which was almost devoid of animation until within a few minutes before the close when there arose a sharp controversy over the party standing of the insurgent Republican senators, several of them hotly resenting being "read out of the party" by Senator Aldrich, who disclaimed any such intention.

The House had intended yesterday to be in session at noon today in the hope that the bill would be received from the Senate by that time, and there was prospect of a full attendance in anticipation of its arrival. It early came to be understood, however, that the measure probably would not be received during the day because of the laborious task imposed upon the senatorial clerical force in the enrollment for the other body.

While there was disappointment over this prospect, members of the House found satisfaction in the probability that would enable the House to send the measure to conference before the close of the week.

WANT BINGHAM BACK
New York's Demand That Ousted Commissioner Be Given Job.

New York, N.Y., July 9.—Feeling against Tammany Hall and Mayor George B. McClellan, which has been smouldering in certain anti-Tammany organizations and civic bodies since the removal of Police Commissioner Theodore A. Bingham, recently crystallized today at a meeting of the Greater New York taxpayers' conference, at which resolutions were adopted, demanding that the action which brought the police department shake-up be rescinded.

Rabbi Stephen S. Wise, one of the prominent Jewish ecclesiastics of the city, was the principal speaker.

"If Gen. Bingham had consented to promise immunity to the election colonizers, he would never have been removed," he said.

"It was a foul blow, and it was struck at the wrong moment, for New York is in no mood to go back to the reign of Crokerism or Van Wyckism. If New York today suffered this to pass without thundering its protests, it might as well resign to the eminence of a magnified San Francisco, with criminal immunity for sale at flexible rates by public officials."

GOES TO GREENLAND
Peary's Eskimo Will Resume Life Among His Own People.

New York, July 9.—Mene Wallace, the discontented and unhappy Eskimo boy who was brought to the United States fourteen years ago by Commander Peary, will sail on the steamer Roseland from New York next Saturday, bound for Greenland, where, among his own people, he will live again the only life that seems to him worth living. Officers of the steamship company will finance the trip.

Mene is the only survivor of six Eskimos who were brought to New York by Peary. The others, including Mene's father, died of pneumonia, but the 7-year-old boy withstood the enervating climate and was carefully brought up by the officers of the American Museum of Natural History, where the bones of the others are on exhibition.

During the past few months Mene has been several times in a runaway trip in the hope of making his way to Greenland.

ILLICIT STILL IN KENT.
Chatham, Ont., July 9.—It is learned today that a private detective is being engaged to look into the rumor that the Indian listers of this vicinity have a private still, where they manufacture whiskey, for twenty cents a gallon.WARRANT FOR MAJOR.
Montreal, Que., July 9.—A warrant has been issued by Judge Choquet for the arrest of Major R. G. Leckie, of Sudbury, on the complaint of William Marshall on a charge of fraud in connection with a mining deal. The Grey Sliding Development Company is the concern involved.ASK FOR DISALLOWANCE
OF HYDRO LEGISLATION

Petitions From All Over Province Have Been Forwarded to Governor-General.

Ottawa, July 9.—A petition to the Governor-General of Canada has been presented to the Prime Minister, Sir Wilfrid Laurier, at Ottawa, by thirty-three members of the Toronto Stock Exchange, praying for disallowance of the recent act passed by the Government of the Province of Ontario relating to the hydro-electric commission, on the ground that it will have a baneful effect upon the credit of Canada, and will be more and more harmful as its character is more widely known and better understood.

Petitions for disallowance of the same act have been presented to the Governor-General by Walter D. Beardmore, merchant, Toronto; James Smith, of the city of London; Mr. Patterson, mayor of the town of Galt; over 500 ratepayers of the town of Galt; the North American Life Insurance Company; the Canada Permanent Loan and Savings Company; the Landed Bank and Loan Company of Hamilton; Federal Life Assurance Company of Hamilton; farmers from the counties of Welland, Lincoln, Wentworth, Peel, Halton, York, Middlesex, Waterloo, and other districts through which the line is to pass.

The facts in connection with the matter are as follows: The Electrical Development Company is a Canadian concern, and has developed power at Niagara Falls with Canadian and British capital. It has a transmission line 80 miles long to Toronto, where it is selling a large quantity of electrical power. There are two other companies developing power on the Canadian side—both American companies—and these three companies are in competition with the Ontario Government for the right to take water from the Niagara River, the Government agreeing on its part not to take water from the river in competition with the companies.

There have been for many years local electric light companies in Toronto, Hamilton, London, and some other of the municipalities in Western Ontario. There is a cry for public or governmental control of public utilities carrying on the business of generating and selling electrical power.

The Whitney Government in response to this, presumably, has decided to regulate the prices for power in the various municipalities, or to take over the properties of the existing companies. It created the hydro-electric commission, the chairman being a member of the Ontario Government.

It undertook to enter into competition with the private companies, and the act, against which the petition for disallowance has been presented, is the one passed at the last session of the Legislature, closing the courts, it is alleged, against all who might seek for justice by legal opposition to any act of the hydro-electric commission, or against any person who sought to show that contracts with the commission not approved of by the ratepayers, were invalid.

TELEPHONE CO. AND CITY WILL NEGOTIATE
Bell's Franchise Expires This Year—Means \$4000 Per Annum to Citizens.

Negotiations with the Bell Telephone Company for the renewal of their franchise in the city of London will be opened shortly.

The present contract expires at the end of the year, and it is quite likely that the parties interested will discuss the matter within a few weeks.

No word has been received from the company, and it seems as if they have abandoned the London field.

"We will discuss the matter as soon as possible," said Mayor Stevely. "The franchise expires at the end of the year, and we will have to take it up within a reasonable time. I have heard nothing from the independents, and do not know what they intend to do."

TORONTO TRAVELLER KILLED
Toronto, July 10.—Adam K. McIntosh, aged 50 years, of Earl street, Toronto, traveller for F. McIntosh & Sons, was instantly killed at 6:50 this morning by being struck by the Grand Trunk express from Montreal, a short distance west of Rosebank, where he was summering with his family.

Mr. McIntosh was 16 years, on a fishing trip, when he was struck, and the lad witnessed his father's fatal jump down the tracks. He was saved only by a few seconds. Mr. McIntosh leaves a widow and four children.

BOTH ASPHYXIATED
Grand Rapids, Mich., July 10.—After completing an autopsy today on the bodies of Warren G. Rowland and his wife Vashti Perry Rowland, who were found yesterday in a vacant house, the surgeons and coroner decided that Rowland had strangled his wife with his own hand, and then cut his own throat.

Both of them had died from asphyxiation as the wound in the man's throat and blow on his wife's head could not have caused death.

WAS TAXED TOO MUCH.
Toronto, July 10.—George F. Campbell, of the Canada Electric Company, Warkerville, today got \$50 damages and \$125 as cost from the municipality of Warkerville for over distraint for taxes; \$125 41 taxes and \$35 expenses were allowed the town for the amounts admittedly due.THE SYDNEY MINERS' STRIKE.
Halifax, N.S., July 10.—This was issued from the Dominion Coal Office at Sydney this morning: "No. 2 starts work today. No. 3 starts with 60 per cent of a single shift. The company expects to increase the output today 3 per cent. Caledonia, Bridgeport and Emory are working with increased staffs."MEDAL WINNERS STOOD
WELL ALL YEAR

Present Triumphs Are Not the Result of Any Fluke.

The high school medal winners were in the most cases the leading students in their classes during the last year. In every case they have stood well to the front of their classes, and the fact that they won was not any great surprise.

Gordon Munnoch, the Robb winner, is a bright student, a pupil of Principal Wallis, of Simcoe street school, who was very successful this year.

His class was the prepared, and in the majority of instances took good marks.

He is a close friend of Gerald Pearson and Ronald Gray, former winners of the medal.

There are many others whose photos it was impossible to obtain, but all of them are bright students. This is emphasized by the fact that the winners were closely grouped. There was little to choose between the highest and the lowest.

Miss Eunice Freeland, of the Aberdeen school, who passed the entrance examinations with such a high percentage, is but 13 years of age. She is a daughter of Mr. Thomas Freeland, of 221 William street, and is an exceedingly bright girl.

Miss Marion Higgins, winner of the Boyle memorial medal at Princess avenue school, is a daughter of Mr. and Mrs. Thomas B. Higgins. She recently celebrated her 13th birthday, and throughout her public school course has always stood high in her classes.

Miss Helen Cloghesy, who passed to St. Mary's school, is a daughter of Mr. John Cloghesy, the general manager of the Grand Trunk here. Miss Cloghesy has secured many of the examinations at St. Mary's.

George Pelton, another student from St. Mary's class at St. Mary's, is thirteen years old, and a son of Mrs. George Pelton, of 653 Ellis street. Although he was unable to attend school owing to illness for about two years, he has made a very satisfactory showing.

His sisters, Misses Agnes and Gertrude, both hold gold medals secured on passing into the Collegiate.

Miss Marion Higgins, daughter of Mr. Robert Patton, of 21 Grafton street, East London, was taught by Principal Gibbs, of Chesley avenue school, and her splendid showing was looked for by her classmates and teachers.

MANY WEEK-ENDERS
AT PORT STANLEY
The Cleveland Steamer Carried Many Excursionists—A Dangerous Bridge.[Special to The Advertiser.]
Port Stanley, July 10.—A large number of week-end visitors are in town. All the hotels and boarding houses show unusual signs of life. The dances last evening were very largely attended.

The steamer Lakeside left for Cleveland with a number of week-end excursionists.

Part of the railing on the little rustic bridge connecting the Heights with Erie Rest has been broken down, and it is now dangerous, especially at night, to cross the bridge. The break should be mended at once.

The Knox Church choir of London were very pleasantly entertained at Jubilee Cottage, Erie Rest, the summer residence of Mrs. John Macpherson, yesterday. The pastor of Knox Church, Rev. J. G. Stuart, was present, and a most enjoyable time was spent by all.

Mrs. Frances Little, of Toronto, is spending her vacation with her aunt, Mrs. Bryanton, at Petrolia Cottage, on Fraser Heights.

Mr. M. P. McDonagh and children, of London, are the guests of Mrs. McDonagh's sisters, the Misses Wright on Fraser Heights.

Mrs. W. R. Jackson, of St. Thomas, entertained at dinner at Hotel Inverlea today.

Mrs. T. Smythe has returned from Cleveland to visit her sisters, the Misses Wright, at the Poplars, Fraser Heights.

Miss Muriel Folkes, of Toronto, is visiting Mrs. Wright at Springbank Cottage, Erie.

Mrs. J. E. Adkins and Mrs. D. H. Gilles, of London, and Mrs. Arthur Ash, of Chatham, are located in Maplehurst Cottage, Erie.

Mrs. George Ellison, Hill Crest, entertained a few St. Thomas ladies on Thursday afternoon in honor of Mrs. Morris, of Calgary.

Mrs. Putnam, Mrs. Winter and Mrs. Gilles, of London, were guests in the village yesterday.

Prof. Patterson will conduct the service at Knollwood Park Mission at 3:15 p.m. tomorrow.

A Warm Night.
Last night was one of the hottest nights on record this season. The lowest temperature registered last night was 82.5, and at 10 o'clock today it had reached 86 degrees. Yesterday's highest was 86.5 degrees, but the night preceding was considerably cooler, registering at 82 degrees as the lowest temperature.

LAKE CARRIERS WIN

Detroit, July 10.—A Cleveland dispatch says: President Coublay, of the Pittsburgh Steamship Company, claims the open ship fight on the great lakes has been won by the lake carriers.

"Our boats," he said, "are being operated in better shape than they ever were before. It is now up to the vessel owners and managers to make that all men employed on their vessels get fair treatment, and that will be done."

Late Henry Bush.
The funeral of Henry Bush was held this afternoon from the undertaking rooms of Smith, Son & Clarke, to Mount Pleasant Cemetery. Rev. H. A. Graham, of the Wellington Street Methodist Church, conducted the services.PILES
Dr. Chase's Ointment is a certain and guaranteed cure for piles, hemorrhoids, itching, swelling and protruding piles. See testimonials in the press and ask your neighbors about it. You can use it and get your money back if not satisfied. Write to Dr. Chase's Ointment, 1111 St. Louis Ave., St. Louis, Mo.

This picture is the Home of the Dr. Rhodes Co., where so many, many sufferers are cured of these awful diseases of our specialty. Where is carried on today the largest and most extensive practice in Men's Diseases in the World. This is said to be the finest equipped Medical Institute for the Cure of Men's Diseases in the United States. Capital, \$35,000.00.

All Diseases and Weaknesses Peculiar to Men.
Our Advice is Free to You. Write us Today.
If you want to preserve your manhood and vital powers do not permit draining, losses and weakness to undermine your nervous and physical system. We have the most effective and constructive action to restore strength, vitality and manhood can be restored. We have demonstrated the efficacy of our own modern system of treatment in the most stubborn cases. Weakness is a symptom that does not appear to be as bad as it really is, and that is the reason thousands of men gradually become nervous, mental and physical wrecks. The man who desires to be strong and manly can be so if he will give his case to the doctor who serves. If you are secretly suffering from the effects of early indiscretions or excesses, wake up to your true condition and have strength and vigor restored to the organs that will know you ever had the awful disease.BLOOD POISON.
If you have blood poison your treatment will complete thorough elimination of the disease. We understand every phase of the ailment, and our practical experience will enable us to render to you the very best results. You cannot afford to experiment with a virulent poison which is capable of destroying the blood, and every organ of the body. Malignant or incurable cases are the result of careless or indifferent treatment in the earlier stages. Our treatment reorganizes the blood corpuscles and drives out every vestige of the poison from your system. Sores, ulcers, skin eruptions, sores in the mouth, throat or on the tongue, appear quickly. Aching bones, swollen glands, falling hair and every manifestation of either the first, second or third stages are brought under control in a few weeks' time, and then you are safely on the road for a complete cure. If you want good results, no matter how prejudiced or skeptical you may be, that we are cured of blood poison, and your faith and confidence in both our methods and ability to cure will be quickly and firmly established. It makes no difference how many doctors and treatments you have tried, but if you are convinced how easily we can cure you, and cure you for life so you nor any one else will know you ever had the awful disease.PRIVATE DISEASES.
Varicocele, Urthral Obstructions, Stricture, Piles, Unnatural Discharges, Prostatic Troubles, Painful and Irritating Erections, Gonorrhea, Syphilis, Kidney, Bladder and Urinary Diseases cured. We acknowledge no superior in the world in the quick and positive cure of these awful diseases, if neglected.

If you have burning or smarting pains while urinating, pus, mucus or blood in urine, shreds or stringy mucus, red sediment, inflammation of the bladder or prostate gland with frequent desire to urinate, dull pain in back or region of the kidneys, you know it is not advisable to experiment with the patent medicines or drugs recommended by a friend or druggist. To be able to treat these conditions successfully it is absolutely necessary that one should have a knowledge of the pathology or modification of function and changes in structure caused by disease. Let us cure you permanently and quickly. You will be surprised how quickly we can cure you.

WRITE US TODAY!
FREE CONSULTATION is a privilege we extend to every man, as we never make a professional charge unless he desires us to treat his case until cured.ADVISE ALWAYS FREE.
Send a picture of your case at once if you cannot call. No man so poor that he can't pay this low price for the proper treatment.DR. RHODES CO.
