Central

The Land of Last **Great Opportunities**

that there is a "Central" British Colum-

We are accustomed to think of everything north of Asheroft or Kamloops as "Northern British Columbia." This is a great mistake

in the Dominon of Canada.

only one part which possesses such a world. splendid forest and mineral wealth as well as a vast area of agricultural land;

the Rockies and the Cascades, through railway are building.

The Official Publication of the Grand Trunk Pacific Ry. States:

"It is probable that no other area in supposed to be severe during the winter season, but the fallacy of this impression is rapidly being made known on account of the reverse conditions actually existing, due, in large part to the proximity of this territory to the Pacific Ocean and the influence of the Japan current."

100,000, Just to let us have our way and exclude those whom they do not like, "The hope for Canada and the hope for western nations is to give to the people of this territory to the Pacific Ocean and the influence of the Japan current."

MINERAL WEALTH. Central British Columbia possesses in the Cariboo and Findlay River districts what are in all probability the richest mineral deposits on the continent.

It is flanked on either hand by the splendid forests of the eastern slopes of the Cascades and the western slopes of the Rockies.

WORLD'S LAND HUNGER.

In discussing the food needs of the fast-increasing population the world over. P. A. O'Farrel, United States pure food commissioner, in the New York World of Nov. 7, said: "When Lincoln was elected, there were 31,000,000 people in the United States, Next year's census will tell of 92,000,000 inhabitants. As James J. Hill forcibly said, the day is fast approaching when the farmer will be king, and when there is land hunger will set the price of the necessities of life.

grants who are coming to our shores. "We are to give according as God has prospered us. Not necessarily a tenth. Some men will be under an obligation was laid on Paul to make him the great missionary that is not laid on us all?

"What we need to get, or the amount of \$5 per member, is not more money but a greater consecration to the ideal of the Lord Christ.

"If we are to do the work we must put our givings on a business basis, introduced and responded to by Dr.

continued, "has put agriculture in the forefront of all industry, and France is supreme and alone among nations in her economic and financial strength. You cannot buy an acre of good agricultural land today in France for \$1,000.

The weekly end weekly end of Embro, who made a witty speech. Regrets were read from the velope system, and that the laymen of the church should throw themselves heartily into this work."

"Our board," said Mr. Malott, "expressed itself as advocating strongly the weekly anyelous vertical and today in France for \$1,000.

"The day of cheap farm land is vanish-

"And this leads me to say that Western Canada and British Columbia are the last great and valuable divisions of the world left for the white man to transform from the was ably seconded by Rev. C. E.

pastor, Rev. r. E. Malott, made a strong plea for a systematic adoption of the weekly envelope system. In this he was ably seconded by Rev. C. E.

Long-Service Medal. left for the white man to transform from wilderness to smiling and fruitful coun-

LAST GREAT WEST. Western Canada has 200,000,000 acres of the richest wheat and pasture lands waiting for settlement. British Columbia has 50,000,000 acres of rich land waiting to be transformed into orchard, meadow, garden and grain field. These 250,000,000 acres of virgin land can be made to propagate. garden and grain field. These 250,000,000 acres of virgin land can be made to profluce food to support 200,000,000 people. And within 20 years this great undeveloped area will all have to come into cultivation to meet the rapidly-expanding demands of the world.

demands of the world.

"And let me tell The World that the most glorious country of the future is Baitish Columbia. It covers an area greater than the British Isles, Belgium, Holland, Denmark and the German Empire combined. Its climate is superior to that of England and France, and indeed to that of any country on this earth of ours. Its fisheries are the most abundant of any nation on this or any other continent. It has 182,000,000 acres of standing timber of priceless commercial value. The energy of 25,000,000 horses runs waste in its mighty rivers. Its internal water highways can be formed into the allost wonderful system of waterways and power developers.

"It is another interesting and curious "It is another interesting and curious fact that British Columbia has the lowest taxes, the wisest executive and the most progressive parliament of any in the world. Eighty-seven per cent of the revenue of the country is supplied from royalties. Expanding revenues and increasing surpluses is the story told year. creasing surpluses is the story told year after year to parliament by its finance minister. The Government is suffering from an embarrassment of riches."

Fort George

This is the new townsite on the Grand Trunk Pacific (transcontinental) Railway —half way between Edmonton and Prince Rupert, and in the geographical centre

At the present time three lines of steamboats ply out of Fort George, on 1,000 miles of navigable waterways of which Fort George is the junction.

Fort George is the terminus or on he line of seven different railways the line of seven different railways which are building or projected. Several steamboats and numerous barges are constructed to take care of the

The moment the first railway reaches Fort George, this enormously rich agricultural, mining, coal and timber country
tributary to 1,000 miles of navigable
waterways, will be open for development: and the immense tonnage from
these waterways will be transferred to
the various lines of railway at Fort the various lines of railway at Fort

Fort George is the gateway to the Nechacco, Bulkley, Fraser, Peace River and other valleys, and to the Coriboo, Yukon and Inginika mining districts. First offering of what will be the best business lots in one of the largest cities in the West is now put before the public.

The price for a short time will be \$150 nd \$300 per lot, payable \$10 down and \$10 per month—no interest, no taxes—10 per cent discount for cash.

Title is insured and guaranteed by the dovernment, which owns one-quarter of Official information of this wonderful country, maps, plans, etc., can be had by addressing at once:

ELGIN COUNTY AFTER A SPECIAL GRANT

If It Can't Get It Wants Claim Against Gounty of Middle-

sex Revived.

[Special to The Advertiser.] Toronto, Feb. wants a special Government grant of 5,500, one-third the price the council paid four years ago to the lessees of the London and Port Stanley roads

This request was made by an Elgin

deputation to the Minister of Public Works Hon, Dr. Reaume and Attorney-General Foy this morning, and it ventilated an old disrute between the counties of Elgin and Middlesex that dates back to 1855. The Elginites were introduced by county members, Mr. Finlay McDiarmid and C. A. Brower. Wm. Jackson, ex-M. P., the spokesman for the deputation, asked that, should this grant be not forthcoming that the Government revive the claim of Elgin against the county of Middlesex, which totals over \$8,000. This sum was handed over by Elgin to Middlesex in 1855, and with the latter ounty's share, was to have been paid over to the Government of old Upper Canada for the toll road which the counties took over when they separ-ated. This money, the Elgin members allege was retained by Middle allege, was retained by Middlesex along with its own share of the purchase price. Elgin's claim for a Government grant was based on the fact that the county had spent \$16,500 in getting the road back from the lessees and had since expended \$20,000 on its maintenance, so that ir a sense

a grant under the good roads act was CORRESPONDENCE

Mr. Bergey Replies.
To the Editor of The Advertiser: week to the hardware convention assembled here—that 95 per cent of the retail men do not succeed in making good in a big way.

The writer evidently did not hear my address, for he refers to actual failures that end in bankruptcy, quoting as he does, Dun's and Bradstreet's I stated that only 5 per cent made good in a big way; the other 95 per cent made only a fair living or failed entirely. The difference, in our opin ion, is merely a difference in our ideals of success.

I don't know what the writer's deals of success may be, but it certainly can not measure up to the high tandard of success adopted by the heldon School, I am yours, sincerely MILTON BERGEY.

London, Feb. 15.

About 1:30 this afternoon somebody elephoned the police station that dog on Grosvenor street had frightened some women and requested that a officer be sent up to shoot it. A cor stable was sent up to see if he could

Do You Realize What an Important Work the Kidneys Do?

Do you know that every drop of your blood goes to the kidneys hundreds of times every day? Do you know why? To be filtered and purified from its impurities. That is the great work the sidneys have to do. They filter the blood. Then these impurities go to the bladder and are passed out of the body

along with the urine.

Do you think it possible for you to be well, unless the kidneys do this work horoughly?

It is these impurities—this unfiltered blood—that causes backaches, head-aches, rheumatism, diabetes, Bright's disease, etc. They poison and interfere with the whole system.

If you have any kidney trouble let Doan's Kidney Pills do for you what

they have done for thousands of others. They cure all forms of kidney trouble, and they cure them to stay cured. Mrs. Maurice Doiron, Charlottetown P.E.I., writes:-"I was troubled with my

kidneys for five years. They were so bad at times that I could not cross the floor for the pain. I went to a doctor, but he did me no good at all. I sent to the druggist and got five boxes of Doan's Kidney Pills, and I am glad to say that after taking them I was cured. I have had no trouble for nearly three years

capable of supporting a vast population.

Circassian Walnut at February Sale Prices

This Furniture is becoming more and more popular, owing to the beautiful grain, as well as its serviceable and lasting qualities—and the Smallman & Ingram store confines itself to Furniture that survives, because of fitness. We will always find plenty of good Furniture to meet the demand, yet much elimination is necessary in making selection, for there is about one hundred per cent more indifferent stuff on the market than there ought to be. We first eliminate the maker who makes a hobby of this cheap class of Furniture, and in all our selections this is the guiding principle of our Furniture organization. Thus the survival of the fittest theory is operated, much to your advantage.
