THE CITY.

members of the British will arrive in Victoria on My evening. A committee consist-f His Worship the Mayor, Hon. Col. or and Mr. T. Earle, M.P., has been to entertain them during their stay in the city. The party will probably sumer. But the information elicited by visit the coal mines at Wellington, a cial train being placed at their dis- portant, and it is quoted virbatim. posal for the purpose.

"Tommy" Moody, although admittedly a bicyclist enthusiast, by no means s himself to that particular hobby and his exhibition at the forthcoming show of the Victoria Kennel Club will be not the least attractive feature. Red cocker spaniels are the specialty to which he devotes his attention, and amongst the exhibits a litter of black puppies, which are some of the finest in the province, will form one of the most teworthy attractions.

In the police court yesterday two Indians, convicted of having intoxicating liquor in their possession, were fined the usual \$25 and costs. The Chinese burglar, who appeared before the magistrate and said he "no savvie," was remanded shops, and when it was sold to the huck until Tuesday, to enable the authorities ster was unfit for consumption. But the to secure such evidence as will bring home to him the fact that burglary is a upon as a serious offence against the law. Jen Wing, the Chinaman'in question, can consider himself lucky at least in one respect, as, pending his trial on \$2,000, which was promptly put up to the satisfaction of Magistrate Macrae. One unfortunate drunk, who could not raise the necessary \$10, went to jail for

Six hundred badges have been sold in Victoria by the excursion on Monday, As the badges are only for the gentlemen, the number of ladies and children who will accompany them may be relied upon to swell the crowd to at least a thousand. From Vancouver there will be a large representation in spite of contrary attractions, and no doubt there will be a large attendance from New Westminster. If the excursion rate granted by the E. & N. Railway Company is extended to Wellington, it is likely that two special trains will be needed to convey the passengers from the Coal Cities. As the date of the celebration approaches the interest taken in it is naturally on the many bere they will remain for probably a month vet.

Should also have an important bearing only for these who owe allegiance to the British government, promption to the South of the British government, promption to the South of the many of the series to Collector at the quality of the canned salmon shipped to the British government, promption to the South of the sum-tractions, and no doubt there will be a large representation in spite of contrary attractions, and no doubt there will be a large attendance from New Westminster. If the excursion rate granted by the E. & W. Leslie Clay, pastor of St. Andrew's Presbyterian church, is home again from the East greatly improved in the wired to the Customs officer at Union to hold the boat at that point. With a continued salmon shipped for at six of clock on Wednesday night it to the quality of the canned salmon shipped for the set of the methal and the Gulf of the British government, promption of the set of the methal to the Gulf of the British government, prompting was eight yesterday morning when she failing to pay her respects to Collector arrived, the cause of her detention on the Sound being due to the work done of the saw in such cases made and promon, having first loaded 50 tons of freight, consisting principally of hay and (2) the portions of the law which is all the cargo as the cause of her detention on the Sound being due to the work done of the law in such cases made and promon As the badges are only for the gentlemen, be memorable in the history of the pro-

PRESBYTERIANS IN SESSION. A Missionary for Texada Island-The Yukon

son of Rev. W. B. Cumming and Messrs. Forster, Leask, Perry and Munro wer appointed to act as a committee on the

examination of sessional records.

The first business was the consideration of an extract minute from the meeting of the general assembly granting the Presbytery's request that Missionary Swatout be allowed to proceed with h tudies under their supervision. Mr. Swartout has been working among the Indians at Helulet and with a view to ion a committee consisting of Cambell, Revs. Winchester, Clay and Forster was appointed to supervise his studies, with instructions to report

at stated intervals to the Presbytery. island rendering the services of a missionary desirable, Rev. Mr. Tait, of Co-mox, was appointed to visit the district and make his report at the next meeting ding a missionary there this winter

The report of the committee appointed to draft standing committees for the en-suing twelve months was adopted, and following appointments made:

Conveners—Home missions and augmentation, Mr. Clay; foreign missions, Dr. Campbell; statistics and finance, Mr. McRae; Sabbath schools, Dr. Campbell;

McLean reported that their efforts in McLean reported that their efforts in their respective fields of labor were incited to increased activity by the good which had been accomplished during the summer. A discussion then took place as to the needs of the Yukon country, and on motion made by Dr. Campbell and seconded by Mr. Winchester, a resolution was sent to the General Assembly's home mission committee directing their attention to the large including their attention to the large incorporations in British Columbia, and particularly in the Presbytery of Victoria, and asking them to consider the advisability of sending missions was sent to the General Assembly and particularly in the Presbytery of Victoria, and asking them to consider the advisability of sending missions was sent to the dature of sending missions with the chest and between the shoulders. "Then my nerves broke down, and I got little or no sleep, passing the dreary nights in tossing on my pillow, arising in the morning, weak and exhausted. Naturally sought relief in whatever medicine I could hink of or my friends suggested. But they were all in vain. The disease seemed to mock our feeble attempts to overthrow it, and I was compelled to bear great pain. Gradually my strength waned until I became so weak I could no longer walk as I add in health. I could merely manage to receip about, like a poor animal that has suffering from indigestion in a very severe form, and that it would be difficult to cure. Still I persevered for a month under his

Presbyterian church here.

B. C. SALMON IN ENGLAND.

A private letter, received by a member of the Colonist aff, contains some information in regard to a question which has considerable interest just now for British Columbia. Having read in a North of England newspaper an account of a coroner's inquest, which was held to enquire into the circumstances surrounding the death of two children, which it was alleged had been caused by eating canned salmon, the Colonist man wrote to a relative living in the town where the circumstance referred to occured, asking him to enquire fully into the matter. Especial reference was asked to the following points: First, was there a reasonable foundation for the supposition that the salmon was the supposition that the salmon was the foundation for the following points: First, was there a reasonable foundation for the supposition that the salmon was the foundation for the following points: First, was there a reasonable foundation for the supposition that the salmon was the foundation for the following points: First, was there a reasonable foundation for the supposition that the salmon was the foundation for the following points: First, was there a reasonable foundation for the supposition that the salmon was the foundation for the supposition that the salmon was the foundation for the following points: First, was there a reasonable foundation for the supposition that the salmon was the foundation for the following points: First, was there a reasonable foundation for the supposition that the salmon was the foundation for the supposition that the salmon was the foundation for the supposition that the salmon was the foundation for the supposition that the salmon was the foundation for the supposition that the salmon was the foundation for the supposition that the salmon was the foundation for the supposition that the salmon was the foundation for the following points: First, was there a reasonable foundation for the foundat

To the first question the answer was in the affirmative, no other being possible in face of the medical evidence. The second could not be answered, as the label (if any) on the can, had moved before it was bought by the con

question, I can give you the following information which has been verified by personal investigation. The can in question was purchased in the 'Rag Market,' which is the rendezvous for all the meanest and dirtiest stalls in the city. The person who sold it obtained would occur under such conditions. Baked in the sun or chilled by the frost, alternately, it is altogether likely that long before it was sold as shop-worn it would have been rejected on account of outward appearance alone by the customers who patronize the better class ster was unfit for consumption. But the poorer classes, who patronize the Rag Market cannot be so choice, and at the crime, which, in this country, is looked price, which by the evidence given at the inquest appears to have been twopence halfpenny, the unfortunate purchaser probably considered he had a bargain That the label was absent was probably due to the fact of the goods having been exposed so long, or possibly was a pre-cautionary measure adopted by the shopkeeper who sold it to the Rag-Market

These facts, which can be vouched for throw a flood of light upon the ways and methods adopted for the placing of un-Nanaimo for those who intend to visit salable goods in the homes of the poorer classes of Old Country artizans, and should also have an important bearing

family, who accompanied nim East, he left behind in Wisconsin, where they will remain for probably a month yet.

Mr. Clay has been in all the Eastern provinces of the Dominion during his absence, but much of his time he spent in Prince Edward Island, where his in Prince Edward Island, where his flag (and that the American) three times parents live. Everywhere he went Mr. Clay heard of the Klondyke, and he official who, standing on the wharf, Nanaimo having been selected as the place for holding the session of the Presbytery of Victoria, the meeting took place there on Wednesday afternoon in St. Andrew's church. A moderator for the current year was chosen in the person of Rev. W. B. Cumming and Messrs. veyors, and this found very wide distri-bution. Klondyke is a by-word with nearly every one and it is heard on the train and in every railroad station. Mr. Clay states that crops are looking splen-did in all parts of the Dominion, and the

prices of grain are very high. DIFFICULT OR EASY.

The word "difficult" is a relative word. It may mean much, or little, or nothing, according to circumstances. The wonderful trick of the juggler was difficult to him once. Now it is easy. To you it is impossible. It is all a question of practice and knowledge. Once the surgeons found it difficult to prevent a fever following a surgical operation. Today, when fever follows

mentation, Mr. Clay; foreign missions, Dr. Campbell; statistics and finance, Mr. McRae; Sabbath schools, Dr. Campbell; church life and work, Mr. W. B. Cuming; examination of students, Dr. Campbell; Manitoba college, Mr. A. B. Winchester; protection of church property, Mr. Thornton Fell; young people's societies, Mr. Forster; auditor, Mr. Mr. S. I grew worse and the ailment societies, Mr. Forster; auditor, Mr. Mr. S. Captain Cavin, a Mrs. Cargill and the Misses master mariner, testified to the fact that he had, while working under Captain Cavin, a Mrs. A. B. Winchester and satisfied that with some kind of liquid nourishment. I seemed by some instinct to avoid solid food allocations of the content of the master mariner, testified to the fact that he had, while working under Captain Cavin, a Mrs. A. Brown, Miss T. Towney, Mrs. J. C. Campbell; Mrs. dambert, Miss S. Spring, The next witness, Captain Cavin, a Mrs. dambert, and the Misses master mariner, testified to the fact that he had, while working under Captain Cavin, a Mrs. dambert, and the Misses master mariner, testified to the fact that he had, while working under Captain Cavin, a Mrs. Cargill J. E. McMillan, J. D. Gray, R. A. B. Winchester; protection of church property, Mr. Thornton Fell; young people's societies, Mr. Forster; auditor, Mrs. Cargill and the Misses master mariner, testified to the fact that he had, while working under Captain Cavin, a Mrs. A. Brown, Miss T. Towney, Mrs. J. C. Turnbull, G. R. Fearby and G. M. Gib-son kind of liquid nourishment. I seemed by some instinct to avoid solid food allocations and the master mariner, testified to the fact that he had, while working under Captain the had, while working under C Missionaries Menzies, Pocock and gave me pain—sometimes keen and intense at the chest and between the shoulders.

"Then my nerves broke down, and I got

Still I persevered for a month under h there in the spring to preach the Gospel to the adventurous gold seekers crowding into that country.

The Presbytery adjourned to meet next Monday at 2 p.m. in the First Presbyterian church here.

Still 1 persevered for a month under his treatment without deriving any benefit from it. My mouth tasted badly, and the pain in various parts of my body—the head, limbs, chest and stomach—often amounted to positive agony.

"What I should do, and what would become of me in the end I could not invented."

come of me in the end I could not imagine, when my mother-in-law visiting me one day, told me what good Mother Seigel's Cur-ative Syrup had done for her under similar circumstances. Willing to try B. C. SALMON IN ENGLAND.

An Interesting Letter Which Throws MuchNeeded Light Upon an Important
Subject.

The Plebi

teresting

Some

amount of prophesying was being done in regard to the proportion of the disappointed-and no late news was available from the upper Yukon, which is in reality the only news centre worthy of con sideration at the present time. At Skag-way, Mr. David Spencer and several other Victorians were met with, the majority, if not all, having got their sup-plies over the trail and returned to the coast to dispose of their live stock. Returning, the C. P. N. steamer brought to Victoria this morning Mr. T.R. E. McInnes, the sub-collector of customs. at Skagway, who is down on official business, Messrs. W. Tolmie and Frank Clay, of the Hurlburt expedition which, by the way, is said to banded owing to the failure of food supplies—Surveyor Jorgenson, who has been engaged in the railway survey work from Skagway: and two packers - Messrs Leonard and S. L. Marlew. The weather in the North is reported unusually bad—so bad indeed that the was passed at anchor in Wrangel Narrows, awaiting the cessation of the fog to proceed down.

e. C. Taylor, Harry Thorne, I. H. had not reacnes por an angle to exthe firm belief that the Bristol would follow and pick her up. The Bristol's skipper is no fool, however, and telegraphed to his owners for explicit instructions, awaiting which he is still lying at the Union wharf. His fear was that should he take the river host a consort as originally intended he would render himself liable to severe penalties. 400 necessitated two dockings for repairs since Portland was left be

The tug Hope was sent in pursuit of the Eugene from Union, but no result Thanks to Mr. James Lauderdale, enway on August 22 from Juneau, bringing with him two tons of dynamite for blast ing purposes, the conditions of his agreement with the committee being that no pack trains shall be allowed to pass over

the trail until it is in shape.

According to some estimates there are pack trains to go through. Henderson, of the Victoria Transfer Company, arrived at Shagway just before fortunate with his train, not having lost existence in the flesh, to be off again on his prospecting trip along the Pend d'Oreille river. Thanking you for kind within 300 feet of the shore and a sow linear trip along the pend within 300 feet of the shore and a sow linear trip along the pend within 300 feet of the shore and a sow linear trip along the pend within 300 feet of the shore and a sow linear trip along the pend and steep layers. trail. The stench along the trail is shominable, and although the bodie the only one among those who went up on the Danube's previous trip who for the quiet fortitude they are display ing in the surmounting of difficulties. There is a strong feeling at present in Stickeen route is opened up, and no-doubt many will go in by this way when the great rush in the spring commences.
