MR. AUSTRAL L. RACE, a young farmer of Whidby Island, Wash., who was brought home a few days ago for medical treatment, died yesterday at St. Joseph hospital. The body will be forwarded this morning by the City of Kingston for interment in the family vault on Whidby Island. The disconsolate mother accompanies the remains.

A DECIDED novelty, as well as a most useful article for the Klondyker, is now on exhibition in the window of Simon Leiser & Co.'s business house on lower Yates street, being nothing more nor less than a portable house of asbestos, for which the firm hold the sole agency in this province. John Rollo, while fishing from a cance off Brotchie ledge yesterday, found his line entangled and on hauling in discovered to his horror that his hook had caught the decomposed body of a man. Just as he realized the nature of his ghastly catch, the clothing gave way and the released body floated off. Rollo obtained assistance from shore and made search for the corpse, but it could not be re-located. The probability is that the tide, which was then at the ebb, has taken it in the direction of William Head.

CONSIDERABLE SUPPRISE is expressed in shipping circles as to the suggested abandonment by the Dominion government of Canada's jurisdiction over the Hecate straits. This body of water has during recent years become possessed of great value as containing the best hali-but fishing banks on the Pacific coast, and frequent representations have been made to the authorities at Ottawa for force sufficient to preserve these fishing grounds from invasion by American poachers. At the same time a profitable ndustry has been built up, giving employment to several steamers and a number of men, with headquarters at ancouver, the operating company shipping the halibut East in cold storage.

To-DAY the double tracking of Government street will begin, the tramway company having let tenders for the work. Mr. James Wilson, who has just resigned as city street superintendent, resigned as city street superintendent, has secured the contract for supplying the labor, while the Victoria Truck & Dray Company will do the hauling. The intention is to have the present track duplicated between Johnson and Courtney switch, and prevent delays that are now unavoidable when the cars of the different lines reach Government street. The present lines reach Government street. The present line will be moved nearer to the centre of the street, and the new rails will be laid with just enough space between for safety. It is likely that the work will be completed in about five weeks.
