We proudly call ours government by the people. It is not such when a class is tolerated which arrogates to itself the management of public affairs, seeking to control the people instead of representing them. Parties are the necessary out-growth of our institutions, but the government is not by the people when one party fastens its con-trol upon the country and perpetuates its power by cajoling and betraying the people instead of serving them. A gov-ernment is not by the people when the result which should represent the intelligent will of free and thinking men is or can be de-termined by a shamelass corruption of

The selection and re-tention of subordinates in govern-ment employment should depend upon their escertained fitness, the value of their work and they should neither be expected nor allowed to do questionably party service. The interest of the people will be better protected, the estimate of public labor and duty will be immensely improved, and public employment will be open to all who can demonstrate their fit-ness to enter it. The unseenly scramble for place under government with the ALBANY, N. The Alarm carrying the signals to be obeyed by the rest of the fleet, passed through the channel, and was closely followed by the Griole, when the Verve came alongside, and without the alightest intention on either part, unfortunately fouled the schooner. The result was the wreck of the cutters mainsail. Some injury to her gun-wale, and a gloom over the afternoon's en-joyment. The Verve dropped back to harbor under her staysail, and the Oriole kept on after the flag ship alarm. With the exception of the foregoing mishap a most pleasant afternoon was spent by all present.

Whisky and Beer Have the Same Effect in Both Countries-Prohibition Must and Shall Prevail.

MILTON, Aug. 19.-In accordance with a long promised expectancy, ex-Gov. St. John of Kansas and presidential nominee of the prohibition party, addressed the largest gathering ever convened in this

ounty on the vital question of prohibition. Gov. St. John said one fact in both the countries was similar that whisky and beer had the same effect and the re-sults were the same. License says the only way to regulate an evil is to give it the sanction of the law, but the only way to get rid of an evil is to blot it out. There are only two sides to the question, God's side—the prohibi-tion side—and the devil's side—the whisky side. Total abstinence was the only safe rule for the self-government of the citizens, the only safe rule for the town district or county, because a govern-ment is made up by the people. The peo-ple can rise no higher than the power who makes it. The governor then referred to the two systems of education, the school system and the saloon system. We pay twenty times as much to tear down as we do to build up. Our schools contribute twenty times as much as we do for all christian missions. Governor St. John then went into the history and details of the prohibition movement of Kansa, tion. Gov. Nobody except the triangular oligarchy knows the reason of his imprisonment. When the government wishes to get rid of dreaded politicians the guard is sent to arrest him, and before they reach the prison he is shot and a report is carried to headquarters that they had to shoot him because he tried to escape. Eight victims were thus executed a few days ago on the way from Chilpancinago to the capital. Cattle are dying from thirst and starvation in Mexico by thousands. The drought is terrible. brilliant spectacular play was produced. A fire broke out under the stage after the audience had departed. A panic was cre-ated among a number of people who were still on the stage, but the fire was speedily Bobbles is recognized on all hands as the "pluckiest" member of the R. C. Y. C. Is there a topmast to climb? Bobbles is there Is there a bottle to crash half a mile astern of The World met Moses Oates last night as the shades of evening began to fall, and the prophet prophesied thus: "There will be cool weather within forty-eight a yacht? His rifle will do it ! Is there a handsome gill to be introduced to the crew at a foreign port? Bob's the man! Is there a man to quell a storm either aboard, or overboard? will be cool weather within forty-eight hours of now-7 p.m.—lasting a very short time, followed by gradually returning heat. Simultaneous with the occurrence of cool weather the first West India hur-ricane of the season will sweep along the Atlantic coast, bringing cloudy and rainy weather from Georgia to Nova Scotia." Peace be still! Bob's voice will do it! Bob has evaded the insurance company twice dur-ing the current yachting season. When the Verve unceremoniously introduced her bow-sprit to the stern sheets of the Aileen on the bay of Quinte, Bob, the man at the helm, dis-astrously interposed the tiller between the introduced member and a fifty thousand dollar life policy.

As Dominick's Italian band was pro-Again, when quite recently the afore-said ubiquitous Verve would in an unceeding along Bay street at 12.15 this morning, they were set upon by two men near Richmond street. Two of the bands-men were knocked down, without provo-cation, it is said. Policemaa Fffe came along and arrested the two aggressors, who gave the names of Kenneth McCrea and Henry O'Hara. They were held for assent gentlemanly manner pass the "lady-freighted" Oriole in the western channel, and when, nolens volens, the frontispiece of the schooner became entangled in the mainsail of the cutter, the first man on the scene of action was the hero of the novel !

What though the waves roared mountain high, the wreckage must be cleared, what though the sailor knew someone had blun-dered, the same must be repaired. But alas ! The extremely hot weather is making in cutting away the mainsail of the Verve Bobby cut the only cord that held him. "The engineer was hoist by his own petard."
