3 J. J. Dixon & Co. received the following to-day
from Counselman & Day of Chicago: Wheat
was fairly active and the belated shorts came
straggling in all day, and as the weather in
havest districts was rainy, public caleles firmer,
gradual advance resulted and July gained 1½c,
closing steady. Considerable short July not
bought earlier was covered by calls at the close.
After advance to 94c pressure to sell December
kept that future relatively weaker. Light stocks
and continued shipments are causing a prefer-

sept that ruture relatively weaker. Light stocks and continued shipments are causing a preference among traders for August, September and December, and sudden winding up of affairs of a firm here who have been supposed to be prominently identified with the long interest in July wheat rather strengthened the desire to trade in new trop deliveries. Hence covering of July shorts asies and selling of later mouths resulted in wider discounts. Corn was in good demand from shippers to complete cargoes and receipts were 44 cars under estimates. Receipts for tomorrow estimated 275 cars and prospects of more rain to prevent loading. Shorts became free buyers and active futures advanced and closed ic higher. We look for larger receipts shortly and another decline. Provisions continued advance of yesterday on good buying on eastern and foreign orders. THE STREET MARKET. There was yerv little of anything on the market to-day. One load of white wheat sold at \$1.08, 1 load of goese at 90, 3 loads of oats at 54c to 55½c. About 12 loads of timothy hay sold at \$15.50 to \$18; clover was nominal at \$11 to \$13. Straw unchanged at \$9 to \$10. Dressed hogs dull and easier at \$5.75 to \$6.50.

eastern and foreign orders.

Drummond & Brown received the following today over their private wire from Schwartz, Dupee
& McCormick of Chicago: The wheat market
has been fairly active and has shown a firmer
undertone. Cables were contradictory, Beerbohm noting a steady market, while advices from
private sources were very weak and showed de-PRODUCE.

A BIG ORDER. The following despatch was received at the Crown Lands Department on Saturday, June 13th, 1891:

The above despatch indicates the immense demand which is now developing for nickel. The property consists of 80 acres on Lake Wahnapitae, Sudbury district. The Emery Lumber Co. has built a railroad to within four miles of the lake. The owners have agreed to accept \$20,000 in cash and 1300 shares of the company. The mine is free from all restrictions. accept \$20,000 in cash and 1300 shares of the company. The mine is free from all restrictions and royalties.

1000 preferential shares, fully paid up, are offered at the par value of \$25 upon the following conditions: The stock book for preferential shares has been deposited with the Dominion Safe Deposit Warehousing & Loan Company, Limited, Bank of Commerce Building. The interest on each share issued by the Dominion Safe Deposit Co. is secured for four years at five per cent by a reserve fund held in trust for the subscribers by said Dominion Safe Deposit Company.

Shares also rank pro rata upon all dividends paid by this company.

2000 Shares of the par value of \$25 are offered on the following terms: Five dollars payable on application and \$5 on the first Monday of each succeeding month until the share is

id up.
If sufficient Preferential Shares are not subscribed for The Safe Deposit Company re-It sufficient Preferential Shares are not subscribed for The Safe Deposit Company refunds the full sum paid in on said shares.

THE "BONANZA" IS THE RICHEST NICKEL MINE YET DISCOVERED IN THE SUDBURY DISTRICT, as the following figures demonstrate:

1. The Canadian Copper Company is the largest nickel mining company in the world and probably the most successful.

ASSAYS. Bonanza Ore from assay by Thos, Heys, Esq. Copper - 12.5

Canadian Copper Co.'s Ore from 9 assays by Mr. Sperry.
In Copper - - 6.44 per ct.
In Nickel - - 2.38 " " None

Can. Copper Co.'s Matte. Copper - - 26.91 per ct. Nickel - - 14.14 "

Copper - - 52.23 per ct. Nickel - 24.36 "." Value of 1 ton Canadian Copper Co.'s Matte with copper at IOc and nickel at 50c. \$195.22 Bonanza Matte. \$788.06 One water-jacket smelter turned out in one year for the Canadian Copper Company 3849 tons of matte. The excess value of the same quantity of matte made from the Bonanza ore would be \$2,280,455.20

With a capital stock of \$150,000, of 6000 shares, one water-jacket smelter would in one rear PAY A DIVIDEND ON EACH SHARE OF OVER \$300 Clear of All Expenses.

These estimated profits look enormous, but are fully borne out by the history of other mines. The promoters' shares of the Broken Hills mine, New South Wales, were originally only \$125 each. For the past three years they have been worth \$9000 on the Stock Exchange.

The Rio Tinto copper mines of Spain yielded a clear profit of over six millions of dollars in 1888.

The stock books are now open at the office of the Dominion Safe Deposit Co., Bank of Commerce Building, and at the head office, Canada Life Building.
