THE PRICKLY PEAR.

This Ill Natured Fruit is Remarkably
Tenacious of Life.

The prickly pear is said to be so
tenacious of life that a leaf or even
a small portion of a leaf, if thrown on
the ground, strikes out roots within
a short time and becomes the parent
of a fast growing plant.

Mischievous though the African
prickly pear may be, it is not without
its good qualities. Its juicy fruit,
though rather deficient in flavor, is
delightfully cool and refreshing in the
dry heat of summer, and a kind of
treacle is made from it.

Great caution must be exercised in
peeling this curious fruit, the proper
way being to impale the fruit on a
fork or stick while one cuts it open
and removes the skin. The individ-
ual who undertakes to pluck this treacherous fruit with unguarded fin-
gers meets with an experience he does
not soon forget. Concentrated essence
of stinging nettle seems all at once
to assail hands, lips and tongue, and
the skin, wherever it comes in con-
tact with the ill hatured fruit, is cov-
ered with a group of minute bristly
hairs, apparently growing from it and
venomous and irritating to the last de-
gree.

In dry weather these spiteful little
stings do not even wait for the sewly
arrived victim, but fly about, light as
thistledown, ready to settle on any
one who has not learned by experience
to give the prickly pear bush a wide
berth.

Mineral Microbes.

Some interesting experiments have
been made with ancient medals, vases
and so forth of lead that are gradually
disintegrating in the museum of Clun-
ny. After a certain number of years
they fall into dust. The cause, it is
thought, lies in the presence of minute
quantities of saline matter with which
the objects have become impregnated
during their long burial in the soil or
under water. These microscopic im-
purities play the part of bacteria and
microbes in living bodies. In other
words, the lead is "sick" and unless
the noxious matter can be removed
will inevitably perish. Curiously
enough, it is found that if traces of
salt are imparted to a fresh mass of
lead it is attacked and eventually falls
to pieces like the objects in the mu-
seum at Clun-ny.

Sea Springs.

In the very hottest district in the
world—the shores of the Persian gulf—
there is no rain whatever, nor rivers,
nor oases. Yet water is got—from the
bottom of the sea. Six miles off the
shallow coast there is a long line of
bubbling springs of ice cold fresh
water. Divers capture it in goatskin
bags and retail it inland at very mod-
erate prices. Even in an annual
drought, which lasts from January to
December, and in a temperature that
hardly ever sinks below 90 degrees and
often rises to over 110 the natives have
no worry about their water supply.

Thoughtful Mother.

Little Albert is a bright boy. In play-
ing the other day he upset a beautiful
imported flower holder, a gift to his
mother from a friend who traveled
abroad.

"There, see what you've done," his
mother said, pointing to the fragments
on the floor.

"Yes, mother, but don't take off your
slippers. You might cut your feet,"
warned the lad.—Philadelphia Times.

Not Too Good.

Uncle inquired of little Bobby if he
had been a good boy. Bobby—No, I
haven't. Uncle—Why, I hope you
haven't been very bad. Bobby—Oh,
no; just comfortable.

Blessings.

Blessings may appear under the
shape of pains, losses and disappoint-
ments, but let him have patience and
he will see them in their proper fig-
ure.—Addison

Labor is one of the supreme laws of
life. Toil is honorable. The progress
which the world has made is a glorious
testimony to human handiwork. Those
who work know more of genuine happi-
ness than those whose lives are dedicated
to idleness.

SUFFER NO MORE.—There are thou-
sands who live miserable lives because
dyspepsia dulls the faculties and shadows
existence with the cloud of depression.
One way to dispel the vapors that beset
the victims of this disorder is to order
them a course of Parneelee's Vegetable
Pills, which are among the best vegetable
pills known, being easy to take and most
efficacious in their actions. A trial of
them will prove this.

LISTEN TO US

"We are only little ones, but we know Zam-Buk eased our pain and cured our sores. Perhaps it would cure you, too, if you tried it?"

Ian's this sound advice from "babes and sucklings"? Take it! The speakers are the children of Mrs. E. Webster, of Seigneurs St., Montreal, and the mother adds weight to their appeal. She says: "My little girl contracted scalp disease at school. Bad gatherings formed all over her head, and not only caused the child acute pain but made her very ill. The sores discharged, and occurring on the scalp we feared she would lose all her hair. She was in a pitiable plight when we tried Zam-Buk,

but a few days' treatment with this balm gave her ease. Then the sores began to heal, and we continued the Zam-Buk treatment. In a short time she was quite healed. "My little boy sustained a serious scald on the neck. It set up a bad sore, and quite a few things we tried, failed to heal it or give him ease. Once more we turned to Zam-Buk, and we were not disappointed. It acted like a charm in drawing away the pain, and soon healed the wound."

Zam-Buk is "something different" in the way of balms. It contains powerful healing herbal essences, which, as soon as applied to skin diseases, kill off the germs and end the painful smarting. Other essences contained in Zam-Buk so stimulate the cells that new healthy tissue is speedily formed. Eczema, itchy sores, cold sores, abscesses, festering sores, blood poisoning, chronic wounds, cold cracks, etc., are healed and cured in this way. Use it for all skin injuries and diseases. It is also of great service for piles. All druggists and stores at 50 cents box, or Zam-Buk Co., Toronto.

When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult us by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about women's diseases, and how to cure them at home, send 50 one-cent stamps to pay cost of wrapping and mailing only, and we will send you a free copy of Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in handsome French cloth binding.

An Irishman was sitting in a depot smoking when a woman came in and, sitting down beside him, remarked:
"Sir, if you were a gentleman you would not smoke here."
"Mum," he said, "if you wuz a lady ye'd sit farther away."
Pretty soon the woman burst forth again:
"If you were my husband, I'd give you poison."
"Well, mum," replied the Irishman as he puffed away at his pipe, "if you wuz my wife I'd take it."
