Protection from Lightning,
BY SPRATT'S PATENT.
IGHTNING RODS manufactured by E. V. Wil-

son and H. Piper & Brother, 50 Yonge Street. The Subscribers are the only authorized agents for the sale of these valuable rods, in the Canadas. Manufactured and for sale, wholesale and retail, at No. 50,

ufactured and for sale, wholesale and retail, at No. 50, Yonge Street, Toronto.

CAUTION.—Allow no man to protect your buildings without first examining the points of his rods, and if they have not the Platinum Wire in the point, they are not genuine. The coating of them is of a composition metal that never rusts, retaining its brightness for years. The metal is soft and easily cut with a knile, yet sufficiently hard not to melt under the influence of electric fluids. Look out for rods manufactured at St. George, C. W., they purport to be Spratt's points and rods but are not. The points are made of steel, high y polished, but will become coated with ust after the first night's exposure to the atmosphere, consequently rendering them useless. Always with "ust after the first night's exposure to the atmosphere, consequertly rendering them useless. Always ask for the Agent's Certificate of right to sell, and be sure to notice the stamp—SPRATT'S IMPROVED POINT—this is on the points near the base.

Notice.—No Policy of Insurance covers losses by Lightning unless burned down or set on fire.
