Summary of Advantages Offered to Customers at "Shadeland":

Many years' experience in importing and breeding immense collections, variety of breeds, enabling comparison of merits, the best of everything, a world-wide reputation for fair and honorable dealing, the proximity to all the great thorough rail and lines, low prices, consequent upon the extent of the business, by reason of transportation, and general facilities, which are unsurpassed. In all our dealings we aim to combine

**HIGH QUALITY, CHOICE BREEDING, HARDINESS AND VITALITY.**

As an evidence of the superiority of our stock, we will say that when our horses that were imported by or bred at this establishment, whether Clydesdale, Percheron-Norman, or English Draft, were exhibited, both at State and Local Fairs, they were either first or second, compared favorably with the best of all other establishments with which they came in competition. We believe that our horses bred at "Shadeland" have won more prizes in the past season than any other place made by horses of any name, and many other important ones. Our HOLSTEINS have also proved themselves superior. One of our cattle has set the world's record for a single day and monthly record, according to her age, of any animal in the world.
