**GEMS FROM THE OCEAN OF TRUTH.**

We have received a copy of the latest publication by our good friend, Mr. C. C. Cattell, under the above title. It consists of a selection of terse and striking utterances by some of the great thinkers of the world, arranged under the following headings:

- Consciousness and Thinking.
- What is Meant by "The Laws of Nature?"
- Science and Philosophy
- Knowledge, Truth, and Justice.
- Belief, Unbelief, and Disbelief.
- The Origin and Basis of Morality.
- Mental Freedom Essential to Human Progress.
- Rich and Poor.
- The Earth and Man: Historic and Prehistoric.

The work will be found of great use to Liberals who want "authorities" on these lines. It consists of nearly 100 pages, bound in limp cloth, price 50c. It can be had from our office.

A LIBERAL POET.

Our friend Mr. H. A. Pierce, has issued two little poetical booklets, one at 5c., the other at 10c. They

consist of a selection of poems from a large number which he has written during a long and eventful career.

Mr. Pierce proposes, should he find sufficient support, to issue a larger volume, consisting principally of a poem, "The Church Grower," which he has recited on several occasions with great applause. The price will be 25c.

Mr. Pierce has travelled far and wide over Canada and the States since he fought in the Civil War, and has done some good work for Liberalism.

WHIST.

Hour after hour the cards were fairly shuffled  
And fairly dealt, but still I got no hand.  
The morning came, and with a mind unruffled  
I only said, "I do not understand."

Life is a game of whist. From unseen sources [dealt.

The cards are shuffled and the cards are blind are our efforts to control the forces  
That though unseen are no less strongly felt.

I do not like the way the cards are shuffled,

but yet I like the game and want to play; [unruffled,

And through the long, long night will I, Play what I get until the break of day.

**THE ELIXIR OF LIFE**

is not in magic potions, "specific" or electric cap-trap, but only in Wisdom—THE SCIENCE OF HEALTH. Wise men study nature, whom disease learn to maintain vigor and regain it by reading the most complete book of Medical, Social, Sexual Science, by an eminent physician of 35 years experience. The "old, original, standard" work, endorsed by all, imitated by many, equalled by none, inspired by wish to aid humanity, it has providentially saved thousands. Its essays on marriage, parentage, aids, tattoo, marital failures, etc., are of incalculable value to all now married or who ever expect to be. The last edition has 1,000 pages, 3 colored charts of vital organs, 200 wood cuts, 21 chromos showing origin of life—development of man. APPENDIX has over 200 Recipes. Only \$1.50 by Mail; Circulars Free.
