R. L. GIBSON, 88 WELLINGTON ST. WEST, TORONTO.

## Protonuclein.

The normal Tissue-builder and antitoxic principle of the animal organism, obtained from the lymphoid structures of the body by direct mechanical and physiological processes.

The power of Protonuclein to support the organism and resist toxic germs has been proven by most careful experiments under direction of the highest authorities in the Hospitals of New York and other parts of the country.

### THERAPEUTIC USES.

**Protonuclein** is indicated in all conditions where there are toxic germs to be destroyed and where the organism is below the normal physiological standard. It rapidly restores the vitality of all the tissues by stimulating and supporting assimilative nutrition.

Send for Samples and Literature.

REED & CARRICK, 88 WELLINGTON STREET WEST, TORONTO.

The Standard Nerve and Nutrient Tonic.

## MALTINE WITH COCA WINE.

DR. C. H. BROWN, of New York, Editor of the *Journal of Nervous and Mental Diseases*, says:

"Maltine with Coca Wine has served me well in cases of Neurasthenia from any cause. It serves as a most excellent sustainer and bracer. Besides these two essential qualities, we are forced to believe in another element in this combination, and that is the sedative quality which makes it a most valuable therapeutic desideratum. This action does not depend entirely upon the Coca, or the Coca in combination with Wine. My conviction is that the Maltine plays a leading part in this triple alliance."

SAMPLES SENT PHYSICIANS ON APPLICATION.

MALTINE MANUFACTURING COMPANY, TORONTO.
