It is hoped that the Profession will appreciate the importance of fully supporting *Physicians* devoted to this laborious and expensive specialty, and responsible for the quality of all Virus issued.

If the patronage of Physicians is distributed amongst all, who, often without any fitness, offer to supply true animal virus; the simple result will be that no one will receive enough to maintain a proper establishment.

Our Senior Partner has been for over twenty years devoted to the specialty of Vaccine supply. He introduced true Animal Vaccination into America in 1870; and our establishment is by far the most perfect and extensive in the world.
