THE BEST PLOW CUTTER IN THE MARKET.

FRANKLIN PATENT  
PAPER CUTTER.

Price, 30 inch, Iron Frame, \$60.

THIS Machine is far superior to any other low-priced Paper Cutter in the Market, from the facility with which paper is cut to any size, after being placed upon the cutting table, without moving it. As soon as the paper is properly squared, and one cut is made, the head (A) is raised by the wheel, as in the ordinary cutter, and may be moved backwards or forwards, parallel with the cutting board, by turning the small crank handle (B) without disturbing the paper. Another great improvement is the use of a lever (C) and a spring to hold the head (A) in position when raised, instead of the treadle.
