We are pleased to hear Messrs. A. Robb & Sons, of Amherst, have a contract to make 700 cast iron opera chairs for the Mechanic's Institute of St. John.

Dominion One Dollar Notes, with the "one" erased and "four" substituted, are in circulation. The forgery is very clumsily done and can be detected by an instant's examination.

The Dominion Government have subsidized the steamer "Prince Edward" to run between Charlottetown and Liverpool at \$1,500 per trip, or \$2,500 for the present season. She will carry cattle and produce direct.

Two sealing steamships, out only eight days, returned to St. John's, Nfld., on the 23rd inst. with 25,000 seals worth \$50,000. They were but three days occupied in securing cargoes. The result is without precedent.

The English Privy Council, reversing the judgments of the Supreme Court of Canada and the Supreme Court of New Brunswick, have decided that, under the St. John Assessment Act, banks are only liable to be taxed on their net incomes.

For week ending March 12th, 5172 tons of coal passed over the Pictou branch. For week ending 19th instant, 4463 tons. This is the largest quantity of coal moved in so short a time for many years, being nearly 1,000 tons a day.

Mr. John Fraser, of St. John, will launch about 30th April, a ship of 1,550 tons, for Bennett Smith, Windsor. She will class 13 years in French Lloyd's. Her dimensions are 134 feet keel, 40 feet breadth of beam, and 24 feet depth of hold. She is the largest vessel built in St. John for some time.

The St. John Nut and Bolt Works were formally opened on Thursday. Two hundred of the leading business men of St. John were present, and were entertained to dinner by the proprietors. Employment will be given to thirty mechanics. A large number of orders are on hand. The iron is obtained from Londonderry.

A sale was held at Richmond of thorough-bred stock, imported by the Central Board of Agriculture, and was largely attended. Good prices were realized—the short horn Durham bull, "Lord Randolph," going for \$410; "Earl of Surrey," \$305; "Cabul," \$300; short horn Durham cow, "Duchess of Warwick, 3rd," \$300; "Roseleaf" for a similar sum, and others at smaller figures.

Halifax, March 25.—Mr. Turner, on behalf of the Halifax Graving Dock Company, is now seeking from the city a bonus of \$15,000 instead of the \$10,000 granted last year. This extra amount is asked on condition that the company build a dock capable of accommodating vessels of 8,000 tons burden instead of 6,000 tons as originally contemplated.

London, March 25.—In the Lords this afternoon, Lord Cairns gave notice that he would call attention on Thursday to the arrangements made with the Boers. The Madrid Correo announces that the police have discovered a secret store of 1,860 rifles outside of the barriers of the city. The authorities are investigating the matter.

pany, it is understood, are prepared to carry on the agreement entered into last year.

Five cargoes of sugar arrived at this port; one from Brazil for the St. Lawrence Refining Company, Montreal; three from Cuba for the Canada Company, Montreal; and one from Cuba for the Nova Scotia Refining Company. During the past two days 1174 hogsheads, 3300 bags, 6 tierces, and 180 barrels of sugar; and 1446 puncheons, 78 tierces, and 83 barrels of molasses were entered at the Custom House. There is one large cargo of sugar in port yet to enter.

Senator Almon's Amendment, which was carried by a very small majority in the Senate, owing to the plausible way in which it was introduced, has misled many well-disposed people outside the "Hall of the Elders" into giving it their moral support, but we very much mistake the prevailing Temperance sentiment of the country if it does not meet with strenuous opposition in all parts of the Dominion. We have personally no sympathy whatever with the Amendment, and urge vehement opposition to all its provisions. We cannot but consider it retrograde legislation in the face of earnest cries for more restrictive laws.

The St. Stephen Courier says the St. Croix Cotton Mill is now an assured fact. A gentleman from Providence R. I., who was in St. Stephen last week investigating the business, left a written proposition to the effect that if the people on the St. Croix river would give a bonus of 30,000 and assure him the lands in the vicinity of Salmon Falls at a fair valuation, he would begin work within thirty days. Committees were at once appointed and in two days the whole amount of bonus was assured.

We are indebted to the Queen's Printer for several valuable documents, among them the Report on the Nova Scotia Mines for 1880, which shows a gratifying advance in our mining industries. The increase in the trade can be seen by the following table:

Table with 3 columns: Commodity, 1879, 1880. Includes Gold-ounces, Iron Ore, Coal, Manganese Ore, *Coke made, Gypsum, Building stone, Limestone, Fireclay, Grindstones.

The revenue from coal for the year was \$52,976. The gold revenue was \$17,464 against 6,788 in the preceding year, or a total for gold and coal of \$70,440, against \$49,194 in 1879. There was no less than \$4,000 more paid for gold prospecting licenses last year than in 1879. The total coal sales for the year 1880 amounted to 954,659 tons, being an increase over the sales of 1879 of 166,035 tons, and form the largest sales yet recorded. Mr. E. Gilpin, Jr., the Inspector of Mines, is to be congratulated upon the able manner in which he has presented the whole subject, and for the large amount of valuable information contained in the Report.

WHAT class of men are they who occupy long terraces of mansions at Kensington or Baywater, at rentals from 450l. to 1,000l. a year? Curiosity led to an inquiry into the means and occupation of some sixteen of such tenants, not one of whom pays less than 500l. a year. The result was that twelve of them were found to be returned colonists from Australia, India, China, and Ceylon, who had made their fortunes, and had returned to spend the evening of life in the old country. The remainder were London merchants, except one professional man—a Q.C.—Lond.

A curious incident occurred at the Vatican recently. An unknown Cardinal appeared in the Loggia of Raphael among the many persons gathered there on the occasion of the anniversary of Leo XIII's coronation. For a few moments he was supposed to be a foreign Cardinal whose appearance was known to the officials, and some ladies present are said to have kissed his hand and received the Benediction from him.

It was, however, soon noticed that he wore a moustache, and that some of the accessories in his dress were incomplete, and on his being then questioned, it was found that the supposed Cardinal was a poor madman who, had on several occasions presented himself at the Vatican asking to be presented to the Pope.

NEAR a hundred years ago an old building was pulled down in one of the cities of Switzerland. A long time before this it had been part of a Carthusian convent, tenanted before the Reformation. A box was found buried in the wall, and in the box was deposited this prayer—"O most merciful God, I know that I can only be saved and satisfy Thy righteousness by the merit, the innocent sufferings, and death of Thy well-beloved Son, Holy Jesus, my salvation is in Thy hands. Thou canst not withdraw the hands of Thy love from me, for they have created and redeemed me. Thou hast inscribed my name with a pen of iron in rich mercy, and so that nothing can efface it, on Thy side, Thy hands, and Thy foot!"

REFORMED EPISCOPACY in England hardly in a healthy and reliable condition just now. It is reforming itself in most alarming manner. Bishop Greg was at first at the head of this host of reforms; and to his mind it occurred that there is a great deal in a name. Accordingly the good Bishop demanded that his position as head of the Church militant should entitle him to be called Primate. But the Reformed Episcopalian were modest, and having regard to the fact that they were only a few in number, decided that to assume air of pomp and vanity would lay them open to criticism and ridicule; therefore they would be content to have no higher dignity than a Bishop. But Mr. Gregg had set his heart upon the thing and would not be denied. Another Reformed Episcopal Church was formed, and in due course of time a Rev. Mr. Toke joined it and was made Bishop. Now those two Bishops have found that their ideas of ecclesiasticism do not agree together, and they—the Bishops, ideas and all—have parted to create new centres of reformation. Evidently, Episcopacy proper has not much to fear from Reformed Episcopacy.—Presbyterian Witness.
