

SIX POINTS,
out of many,
where Doctor
Pierce's Pellets
are better than
other pills:

1. They're the smallest, and easiest to take—little, sugar-coated granules that every child takes readily.
2. They're perfectly easy in their action—no griping, no disturbance.
3. Their effects last. There's no reaction afterwards. They regulate or cleanse the system, according to size of dose.
4. They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned. You pay only for the good you get.
5. Put up in glass—are always fresh.
6. They cure Constipation, Indigestion, Bilious Attacks, Sick or Bilious Headaches, and all derangements of the liver, stomach and bowels.

"The best Literary Journal in America."

THE DIAL

A Semi-Monthly Journal of
Literary Criticism, Discussion, and Information.

"THE DIAL is, in my opinion, the soundest, most dignified and creditable literary journal in America."
—EDMUND CLARENCE STEDMAN.

"I do indeed value THE DIAL very highly; it is, in my opinion, the best critical journal in this country."
—H. H. BOYSEN.

THE DIAL has been established twelve years since May, 1880, as a monthly journal devoted to Literary Criticism only; but lately (Sept. 1, 1892), by its change to semi-monthly publication, and by enlargement of its scope so as to include the broader interests of Literature, of Education, and of Higher Culture generally, it has entered upon a new career of influence and prosperity. It is published on the 1st and 16th of each month. Terms (including postage) \$2.00 a year, in advance. Single copy, 10 cents. Address THE DIAL, 24 ADAMS ST., CHICAGO.

"The look and bearing of THE DIAL is refinement itself. . . . Seriousness, fearless care, and a right instinct in letters help to make THE DIAL the best review we have."—The Independent, New York.

A VERY SPECIAL OFFER

The publishers of THE DIAL will send their journal for two months (four numbers) to any responsible person (not already a subscriber) who will signify a desire for it and will inclose six 2-cent stamps for postage. It is desired that application should, when agreeable, mention the profession or occupation of the sender; but this is not obligatory, nor is there any obligation whatever beyond a genuine intention to give the journal a fair examination.

"In criticism, the event of the year 1892 has been the enlargement of THE DIAL, and its transformation from a monthly to a semi-monthly magazine."—Chicago Tribune.

MISCELLANEOUS.

Says a writer in "London Answers:"
I have enjoyed the privilege of going up
an exceedingly high chimney with a woman
steeply-jack, who for many years carried
on the business of this kind left by
her husband, and ascended and mended
some of the highest chimneys in England.

The public are cautioned against imitations of the Pain-Killer and to be suspicious of persons who recommend any other article as "Just as Good;" many of these they make a little more profit upon, but which have no qualities in common with the Pain-Killer. 25c. Bottle, New large size.

Moonlight photographs and moonlight effects secured by sunlight just now are attracting the attention of the amateur photographer. Out in the clear atmosphere of Colorado and California, quite decent photographs have been made in the moonlight by long exposure. Better moon effects are gained in the daytime.—New York Times.

Rev. Sylvanus Lane

Of the Cincinnati M. E. Conference, makes a good point when he says: "We have for years used Hood's Sarsaparilla in our family of five and find it fully equal to all that is claimed for it. Some people are greatly prejudiced against patent medicine, but how the patent can hurt a medicine and not a machine is a mystery of mysteries to me."

In view of the probable adoption of the penny rate of postage for over-sea letters, a deputation of the Imperial Federation League will ask the Postmaster-General: (1) That to whatever countries the penny letter rate may eventually be extended, it shall be first applied to countries within the Empire. (2) That a specially designed British Empire penny stamp, with a distinctive mark, for issue in each country of the Empire, be introduced for this particular service.

Restored To Health.

Dear Sirs,—For years I was troubled with indigestion, but being advised to try B. B. B. I did so, and find myself quite restored to health. Howard Sullivan.

The storm which recently raged over the Transvaal has proved most destructive. The rivers were immensely swollen and the water of the Crocodile rose 20 feet above the bridge spanning the river. The structure was swept away, together with 40 houses and an hotel in the vicinity. The country has been rendered desolate by the floods, trees and vegetation of all kinds being destroyed for miles round.

The Power of Nature.

For every ill nature has a cure. In the healing virtues of the Norway Pine lies the cure for coughs, colds, croup, asthma, bronchitis, hoarseness, etc. Dr. Wood's Norway Pine Syrup represents the virtues of Norway Pine and other pectoral remedies. Price 25c.

Wonderful is the long procession of popes to which Roman Catholics not unfairly point as a proof of the unbroken continuity of the line of St. Peter. The entire number of popes from the apostle to when the first vicarate and the keys were given to Leo XIII, is 263. Of these nine reigned less than a month, thirty less than one year, while but eleven have reigned more than twenty years and but one, Pius IX, for twenty-five years, except St. Peter. According to tradition, St. Peter ruled seven years in Antioch, and twenty-five years, two months and seven days in Rome, or thirty-one years and seven months in all.—Farrington-Maxwell, in a Syndicate Letter.
