

One of our most precocious freshmen, who thinks that "medicine is only a small part of natural science," was given the H₂O cure at the Biological Building last week. He is said to be rapidly recovering.

The practice of wearing gowns is being loyally supported by many of the Faculty, who appear about the building and in the Dining Hall with gowns much more frequently than formerly.

Although the Seniors had no executive for Hallowe'en night, still they enjoyed themselves as thoroughly as any of the other years—and at much less expense to themselves.

B. A. Kinder, '01, has again put in an appearance at Wycliffe, having just recovered from a severe illness.

Eloquent Junior (responding to "The Ladies" at the '02 dinner): "Many a man has a Queen of his heart, gentlemen, but not every man a King." (Loud applause toward the head table).

The announcement in last week's VARSITY that a ladies' lunch-room was about to be provided in the steward's house was a timely one, as the recent rains have emphasized the need of such an improvement.

J. A. Decew, who graduated from S. P. S. in '96, is at present taking a special post-graduate course at the School. It was during his freshman year that the old shed at the corner of the University was consigned to oblivion.

R. H. Barrett, '01 S.P.S., is at present confined to his room with an affection of the throat. His services were greatly missed in the football game with the Meds. on Thursday.

The worthy president of '04 announced at the reception on Hallowe'en that the Freshmen intend to do some entertaining this winter. So be prepared.

THE ROYAL MILITARY COLLEGE.

There are few national institutions of more value and interest to the country than the Royal Military College at Kingston. At the same time its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving the highest technical instructions in all branches of military science to cadets and officers of Canadian Militia. In fact it is intended to take the place in Canada of the English Woolwich and Sandhurst and the American West Point.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and in addition there is a complete staff of professors for the civil subjects which form such a large proportion of the College course.

Whilst the College is organized on a strictly military basis the cadets receive in addition to their military studies a thoroughly practical, scientific and sound training in all subjects that are essential to a high and general modern education.

The course in mathematics is very complete and a thorough grounding is given in the subjects of Civil Engineering, Civil and Hydrographic Surveying, Physics, Chemistry, French and English.

The object of the College course is thus to give the cadets a training which shall thoroughly equip them for either a military or civil career.

The strict discipline maintained at the College is one of the most valuable features of the system. As a result of it young men acquire habits of obedience and self-control and consequently of self-reliance and command, as well as experience in controlling and handling their fellows.

In addition the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures good health and fine physical condition.

An experienced medical officer is in attendance at the College daily.

Five commissions in the Imperial regular army are annually awarded as prizes to the cadets.

The length of course is three years, in three terms of 9½ months' residence each.

The total cost of the three years' course, including board, uniforms, instructional material, and all extras, is from \$750 to \$800.

The annual competitive examination for admission to the College will take place at the headquarters of the several military districts in which candidates reside, in May of each year.

For full particulars of this examination or for any other information, application should be made as soon as possible, to the Adjutant General of Militia, Ottawa, Ont.

THE CANADIAN ANIMAL BOOK

- Mooswa -

and Others of the Boundaries

By W. A. FRASER,

WITH 12 ILLUSTRATIONS BY ARTHUR HEMING

Author and illustrator have co-operated in making this story of the woods and their chief denizens a book of imaginative interest and romantic realism. Each knows the Canadian wilderness with the thoroughness of long familiarity, and together they have vividly portrayed the world of the trackless Northern forest. Carcajou, the wolverine; Mooswa, the moose; Muskwa, the bear; Black Fox, the King, and the various other fur-bearing animals, are the *dramatis personae* of a fascinating story which depicts animal life from the inside. The greatest animal story book yet produced. Specially adapted for a Christmas gift.

CLOTH, GILT, \$1.50 NET.
