Architectural manufactured building stone

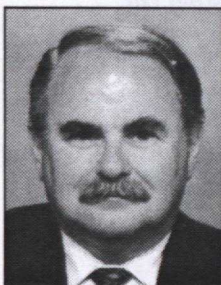

Arriscraft International Inc. (founded in 1949) is a Canadian-owned producer of unique, high-density calcium silicate architectural masonry units for application as either full-set masonry (10 cm) veneer construction or as thin-set (2 cm) overlay tile facing.

The company extracts and fabricates Adair Dolomitic Limestone/Marble. Quarried near Wiarton, Ontario and fabricated at Cambridge, Ontario, Adair finished product is exported worldwide for use as wall cladding, floor tiles and architectural finishes.

Building stone and marble cladding are marketed worldwide through Arriscraft's distribution network in Canada, the United States, Latin America, Europe and Asia Pacific. All products are unique worldwide, and are exclusive to Arriscraft.

The construction of residential housing, universities, houses of worship, embassies and manufacturing plants all represent growing markets for the application of Arriscraft's masonry products.

Analysis of Canada-Asia relations

The Foundation is an independent, non-profit organization established in 1984 by an Act of Parliament. Its headquarters are in Vancouver, and it has offices in Manitoba, and Quebec.

The Foundation is Canada's leading authority on the Canada-Asia relationship; providing detailed and timely analysis on emerging issues in the economic, geopolitical and social arenas. The Foundation is the home of the APEC Study Centre for Canada and the Secretariats to the Pacific Economic Cooperation Council (PECC), the Pacific Basin Economic Council (PBEC) and the APEC Business Advisory Council (ABAC).

The Foundation's Board of Directors is made up of 18 volunteer members from across the country who represent government, academia and the private sector.
