PERU—COPPER

Question No. 5,554—**Mr. Bowden:**

Since 1970, has the Canadian International Development Agency spent or committed funds to support copper production or other copper research in Peru and, if so, in each year, what was the amount of such expenditure?

Miss Monique Bégin (Parliamentary Secretary to Secretary of State for External Affairs): The Canadian International Development Agency has not spent or committed funds to support copper production or other copper research in Peru. However, in 1975, CIDA signed two loan agreements with Peru as follows: (a) a loan of three million dollars to finance a program of pre-investment studies in which Peru is attaching a priority in the polymetallic sector; (b) a loan of five million dollars to be used exclusively for the purchase of Canadian equipment and material. Peru has indicated that it intends purchasing mining equipment in Canada.

CUSO

Question No. 5,638—**Mr. Horner:**

1. How much government money has CUSO received over the past five years?
2. How many Canadian government employees are in Vientiane, Laos, at the present time?
3. Is Mr. Peter Royle still employed by CUSO?

Miss Monique Bégin (Parliamentary Secretary to Secretary of State for External Affairs): 1. CIDA grants to CUSO/SUCO over the past five years amount to \$37,395,400. Volunteers, \$31,205,000; Project Fund, \$3,106,000; Education, \$226,900; Contracts, \$2,857,500.

2. There are no Canadian Government employees in Vientiane at this time.

3. Mr. Peter Royle is a volunteer with CUSO working at the École Normale de Vientiane. It is expected that he will be returning to Canada this summer following completion of his work.

BEAUPORT FLATS, PORT OF QUEBEC

Question No. 5,685—**Mr. Forrestall:**

1. What tonnage by commodity was shipped over Berths 53 and 54 in the Beauport Flats area of the Port of Quebec since 1970?
2. (a) From what source was landfill obtained to create the back-up area for the berths (b) how many cubic yards was required (c) how much per cubic yard did the National Harbours Board pay?

Mr. Ralph E. Goodale (Parliamentary Secretary to Minister of Transport): The National Harbours Board advises as follows: 1. Dry Bulk, 911,479 tons; Liquid Bulk, 2,163,827 tons; Containers, 129,712 tons; General Cargo, 103,985 tons. Total: 3,309,00.

2. (a) Material dredged in constructing berths and other free sources; (b) 5.8 million yards were used; (c) No amounts were paid to third parties for the purchase of fill as the dredged material was utilized instead of transporting it to a dumping area.

CBC—EXTENDED COVERAGE IN CONSTITUENCY OF HUMBER-ST. GEORGE'S-ST. BARBE

Question No. 5,689—**Mr. Marshall:**

1. Has the CBC applied for extended television coverage under CRTC's accelerated coverage plan in the constituency of Humber-St. George's-St. Barbe and (a) if so, for which communities (b) if not, on what date do they intend to do so?

2. Presuming such application will be approved, what necessary work has to be carried out and what equipment is required?

3. What is the expected date of TV coverage coming on stream for those communities for which application has been made?

Miss Coline Campbell (Parliamentary Secretary to Secretary of State): I am informed by the Canadian Broadcasting Corporation as follows: The Accelerated Coverage Plan was devised by the CBC and approved by the government. The role of the CRTC in the Plan is to take action on applications submitted by the Corporation. 1. No. (a) Not applicable; (b) During the latter part of 1976 the CBC expects to submit applications for English language television transmitters designed to provide service to the areas around Cow Head, Port Saunders/Hawkes Bay, Portland Creek and Trout River.

2. Acquisition of land—including surveys; improvements to properties—site clearing, road development, power line construction, etc.; erection of buildings; installation of mechanical equipment; installation of electrical equipment; installation of technical equipment; erection of towers; erection of antennae; erection of transmission lines; transmitter equipment; test and ancillary equipment.

3. Once the applications have been submitted to the CRTC, the CBC has no jurisdiction in regard to when the applications will be scheduled for a public hearing. Regulations require that a transmitter be put into operation within one year following approval by the CRTC. The Corporation endeavours to meet this time frame or improve upon it.
