Quebec Deals	4380	3070
Baltic Deals & Boards		
Norway, &c., Flooring		
Boards	2260	3510
Galatz Whitewood	770	270

## THE GLASGOW MARKET.

Edmiston & Mitchell's monthly timber circular furnishes the following particulars of the Glasgow market:

The tendency of the market during the past month has been on the whole rather more favorable than for some time, and while there has been no inflation of prices,

still they may be said to have been fairly well maintained. At the same time it has by no means been an active market, and it only admits of a favorable comparison with the extremely dull times which have existed recently. The imports from Canada have been for some time very moderate, and had a steadying effect on values, so that there seems every hope of the common anticipation as to a slump in prices towards the end of the year being on this occasion falsified.

The Clyde shipbuilding returns for October show that 27 vessels, aggregating 43,495 tons, were launched, compared with 23 vessels of 45,810 in the corresponding month last year. A fair number of orders have been placed recently, and the work on hand is considerably more than at this period last year, so that prospects for the future are looking better than they were.

Housebuilding is dull and likely to continue so for some time, as it has been overdone of late, with the inevitable result of a great many unlet houses in the city and neighborhood.

WHITE PINE.—The import consists of about 350 loads waney pine. There have been a few small sales of waney and square pine, but business continues quiet. Prices are firm, but stocks are heavy.

OAK.—There has been no import during the month and no sales of any importance. Stocks are heavy and more than sufficient for prospective requirements.

ELM.—The demand for good rock continues, and the stock is very rapidly taken up. Prices are firm. Stock of soft wood is still large and moving off slowly.

QUEBEC BIRCH.—There was no import during October, and the last transaction reported is a shipment of 10 inch, which came in at the end of September, and was disposed of at 1s 10d. There are several enquiries in the market, and a shipment of nice logs would meet with a ready sale.

N. B. BIRCH.—There was an import of 210 logs from St. John this month, averaging 13½ inches, which is reported to have been sold at 16d "ex quay." Of planks the stock is now considerably reduced and there is rather more enquiry.

ASH.—The demand is reduced to the very smallest dimensions nowadays, and although the stock on hand is small, there is no anxiety on buyers' part to secure it. Values are unchanged at round about 2s for 15 inch average.

DEALS, ETC.—There has been a fairly active business during the month, and imports have been coming in a little more freely. Stocks of all kinds, with the exception of red deals, are of normal dimensions and prices are firm. Current values are as under: Broad First Pine Deals—£32 to £34; 11 inch, £29 to £31; ends and non-dimensions, £22 to £24. Second Pine Deals—11 in. and up, £17 to £19; ends and non-dimensions, £13 to £14 10s. Third Pine Deals—11 in. and up, £11 to £14; ends and non-dimensions, £9 10s to £10 10s. Red Pine Deals—9 and 11 in., £10 to £11; narrow, £7 to £8 10s. First Pine Splings and Strips—9 to 10 in., £23 to £24; 11 to 12 in., £25 to £26; 13 to 14 inch, £27 to £28. Spruce Deals—9 inch and up, £8 10s; 7 and 8 in., £6 15s to £7 10s. N. B. Spruce—9 inch and up, £7 10s to £8; 7 and 8 in., £6 5s to £7.

The home mill of W.M. Drader at Chatham, Ont., was completely destroyed by fire on November 10, the loss being about \$20,000.

In the "Wanted and For Sale Department" of this issue, The Locators, of Winnipeg, Man., offer for sale some splendid lumber properties in the west.

The mill of the Cascade Lumber Company, Vancouver, B. C., was put up at auction last week. The highest bid obtained was \$1,600, which the sheriff refused to accept, and the mill will again be offered for sale this week.

## UNITED STATES MANUFACTURERS AND WHOLESALERS
