Continued From Page 10.

lues by leading interests, a higher level was obtained the present week.

We are of the opinion that from this date on an excellent flour demand will be in evidence, as we have stated so many times previously. The world's stocks of flour being abnormally low, and stocks of old wheat being practically depleted at the opening of present harvest, it necessarily makes 1910 consumers dependent entirely upon new crop offerings. This in our opinion will prevent any burdensome accumulation of supplies.

The foreign outlook is anything but bearish, and we believe any advance from this side will meet with quick response from the continent, as their stocks of wheat and flour are also ex-

of wheat and flour are also ex-

stocks of wheat and flour are also extremely low.

Altho the short interest the past week has been reduced, there is still a large short interest in the market, and if present conditions do not change radically, we still believe that values must ultimately be further enhanced. We caution again about committing on the long side on sharp bulges, but still recommend adhering to the long side on all good declines.

BANKERS—The Metropolitan Bank, Toronto.

COUNSEL Messrs. Thomson, Tilley & Johnston, Toronto. AUDITORS-Mesers. Clarkson & Cross, Toronto. HEAD OFFICE : Toronto, Ontario. FACTORIES: Buffalo, N.Y., and Toronto, Ont.

Preference share dividends will accrue from October 1st next, and he payable quarterly thereafter on the 1st days of January, April, July and October in each year.

Preference shares carry the right to the holder of exchange at any time. share for share, for Common stock, and are preferential both as to assets and cumulative dividend at the rate of 7% per annum.

It is expected that the Common Stock will bear quality dividends at the rate of 4% per annum from January 1st next.

Applications will be made in due course to have both the Preference and Common stock listed upon the Toronto and Montreal Stock Exchanges.

WE OFFER FOR SALE AT PAR 7,500 FULL PAID SHARES OF \$100 PAR VALUE EACH OF THE ABOVE MENTIONED 7% CUMULATIVE CONVERTIBLE PREFERENCE STOCK, CARRYING A BONUS OF 20% OF THE AMOUNT OF THE PREFERENCE SHARES IN COMMON STOCK.

\$10 per share with subscription, and \$90 per share on or before October 1st next.

Subscription Books are now open at our offices, and will close not later than 4 o'clock on Tuesday, the 21st inst. The right is reserved to allot only such subscriptions and for such amounts as may be approved, and to close the subscription books without notice. Subscription forms are available on request.

We recommend purchases of these shares, the Preference Stock dividends being well assured, and prospects being good for satisfactory dividends on the Common Shares.

Memoranda are appended, signed respectively by the President, Auditors and Solicitors of the Company, relating to its history and prospects and to the character of its shares.

A. E. AMES & Co., Limited, Toronto,

F. N. BURT COMPANY, LIMITED

The F. N. Burt Company, Limited, recently formed under the laws of the Pro-vince of Ontario, has acquired, as of Sep-tember 1st, 1909, the businesses of the F. N. Burt Company of Buffalo, N.Y., manufacturers of small paper boxes; The Morton Company, Limited, and the Merchants' Counter Check Book Company, Limited, of Toronto, together with the Canadian business of the Carter-Crume Co., Limited, the three last named companies being manufac-turers of counter check books, or merchants' sales books.

F. N. Burt Company are specialists in pa-per box making. During the last ten years there has been a striking evolution in the paper box making industry. The local paper box business, which was carried on almost entirely without the use of automatic machinery, has given place to factories employing thousands of people, with skilled labor and improved machinery. A few years ago many articles were wrapped only in pa-per, which are now sold in cardboard boxes. This applies in most lines of merchandise. Grocers' shelves now show a large propor-tion of their goods in such boxes, products thus reaching the customer in the same condition in which they leave the manufacturer, while manufacturing and wholesale druggists are conspicuous amongst many

other large users of small paper boxes. Mr. F. N. Burt of Buffalo, a Director of this Company, and whose experience will be valuable to it, has been a most successful manufacturer of small paper boxes for more than ten years, having manufactured goods of a high class and put his business on a low cost basis. During the last year Mr. Burt has perfected special machines, which have for some months been in practical use as to a percentage of the output. The exceptional value of these machines has been fully proven, and as soon as more of the same style can be installed the average cost of production will be further materially reduced. A number of these machines are now in process of manufacture.

The Burt Company leases one of its fac-tories, but owns the other two, the real estate and buildings being well located and very valuable. This Company has taken them over, subject to small mortgages on them over, subject to small mortgages on a part of the property totalling \$49,000. One of \$25,000 is at 4%, and it is proposed to leave this indefinitely. As to the remaining, \$24,000, which is at 5%, it is provided that \$10,000 shall be paid on May 11th, 1911, with the balance in instalments

of \$2,000 per annum. The Burt Company's output has nearly all been marketed in the United States. A small percentage, however, finds its way to Canada, and Mr. Burt has for some time thought of establishing a factory in Can-ada, believing that it would be profitable to do so. Mr. Burt has considered it wise to have factories in three different locations in Buffalo. This is regarded by the present Board as good policy, in view of its being a safeguard against serious interruption of business from fire, and in view, also, of the advantage of the of the advantage from a labor standpoint. Toronto, September 10th, 1909.

About 90% of the business in Canada in counter check books—or merchants' sales books, has been done by the Carter-Crume Co., Limited, The Morton Company, Limited, and the Merchants' Counter Check Book Co., Limited. Each of these has maintained separate factories and separate business organizations. These businesses have been successfully conducted for many years, and the uniting of them will effect important economies in both the manufacture and the sale of their products. They also furnish an excellent About 90% of the business in products. They also furnish an excellent foundation for the Canadian business of the Burt Company. United, these businesses should ensure, from the beginning, a pro-

fitable Canadian factory.

I am of the opinion that the working capital which has been provided will be ample for the requirements of the Company, and that both the paper box and counter check book departments will very profitable.

Reference to the accompanying certificate of Messrs. Clarkson & Cross, accountcate of messrs. Clarkson & Cross, accountants, will show that they estimate earnings for the current calendar year of \$119,000. While this Company takes over the businesses named as of September 1st, 1909, it may be mentioned that these estimated earnings would provide \$52,500 for a year's dividends on the Preference Stock and \$66,500, being 8 % % on the Common Stock for depreciation charges and Common Stock dividends. It is proposed to retain in the business the proportion of this surplus applicable to the four months ending December 31st next. No dividend, therefore, will accrue on the Common Stock until after that date.

In common with most manufacturing concerns, these businesses suffered, both in volume and net profits during the year 1908. The profits, however, even in such an unusual year, were substantial, and, I believe, considerably exceeded the average proportionate net profits of manufacturers generally. Recovery has been rapid and sound, and the momentum acquired makes the outlook very favorable.

It is proposed to establish a Canadian factory, in which will be consolidated the plants of the three Check Book Companies, while duplicates will be installed of such special machinery now used by the F. N. Burt Company in its Buffalo factories as will be suitable to the growing Canadian market. It is expected that a business of not less than \$250,000 will be done by the Canadian factory within two years

from its commencement. From the records through a period of years of the above-mentioned businesses, with which I have been in intimate touch, I am confident that the Company will be able to maintain its dividends on the Prefence Stock at the rate of 7% per annum. and that, commencing January 1st next, the Directors will be justified in paying quarterly dividends of 1% on the Commen. Stock, being at the rate of 4% per annum. while prospects are excellent for increases in dividends on the Common Stock from time to time thereafter.

S. J. MOORE, President.

ACCOUNTANTS STATEMENT

After examination of the Books and Accounts of the F. N. Burt Company, Limited, The Morton Company, Limited, the Merchants' Counter Check Book Co., Limited, and the Canadian business of the Carter-Grume Co., Limited., we hereby certify that the combined profits for the years 1995, 1996, 1997 and 1908 are as follows:—

Year ending December 31st, 1905. \$ 55,112.77

1906. \$ 92,646.92

" 1907. \$ 122,690.19

Of the above amounts, which total \$333,840.67, the net profits of the Burt Company for the four years were \$282,447.04, and of the Check Book business \$56,293.63.

All expenditures in connection with maintenance and repairs of the property have been charged against profits, and we are of the opinion that ample amounts have been annually written off for depreciation, in addition to the outlays required to keep the works in good condition. Losses from bad debts have averaged less than one-half of 1% during the past four years.

Net Assets, over and above Liabilities, irrespective of good-will and patent rights, exceed the amount of the Preference Stock.

The computed net profit upon the sales for the first eight months of 1909 we find to be \$79,543.20. On the basis of this computation, cost experience and volume and character of orders on hand, we feel warranted in estimating net profits for the year 1909 of \$115,000. This would provide \$52,500 for 7% dividend on the Preference Stock, leaving \$66,500 available for depreciation charges and Common Stock dividend.

Toronto, September 10th, 1909.

SOLICITORS' OPINION

SOLICITORS' OPINION

We have had charge of the formation, under the laws of the Province of Ontario, of the F. N. Burt Company, Limited, and certify that both the Preference and Common shares have been validly issued as fully paid shares, the Preference Shares being preferred as to both assets and cumulative dividend of 7% per annum, and carrying the right to the hooder to exchange the same at any time, share for share, for Common Stock. PHOMSON, TILLEY & JOHNSTON.
